November 13, 2020

Effective on, November 16, 2020, all Bonner County DMV offices shall only provide services to Bonner County residents. Prior to service, customers shall be required to provide an Idaho issued driver's license or other state-issued identification which demonstrates residency in Bonner County. Bonner County DMV has always provided services regardless of residency, but complications from the new State ITD program, COVID-19 and protectionist restrictions enacted by neighboring counties have resulted in a flood of customers seeking to avoid long lines in Kootenai County and elsewhere. This has overwhelmed local resources, created untenable wait times, and forced customers to stand outdoors in cold temperatures to adhere to social distancing guidelines. Bonner County DMV's first obligation is to the taxpayers of Bonner County and it will take all reasonable steps to ensure they receive the highest level of customer service possible.

This restriction shall remain in effect until further notice.

Regards,
