

RESOLUTION 21- 21

**SOLE SOURCE PROCUREMENT
ROAD & BRIDGE DEPARTMENT**

WHEREAS, Idaho Code 67-2808 provides that the Board of County Commissioners may, if it is found competitive solicitation is impractical, disadvantageous or unreasonable, acquire products in any manner the county deems best.

WHEREAS, Bonner County Board of Commissioners has determined that a competitive solicitation for pricing of frame mounted truck sanders constructed of 3/16-inch stainless steel sheeting is impractical, disadvantageous or unreasonable under current market circumstances and that the procurement of these specified sanders shall be a sole source purchase from Steve Peck Fabrication, LLC. The procurement shall have been published in the official newspaper of this political subdivision at least fourteen (14) calendar days prior to the award of the contract.

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of Bonner County that the Road & Bridge Department shall be authorized to enter into a sole source purchase contract with Steve Peck Fabrication, LLC for the reasons stated above. Such purchase shall occur only after fourteen (14) calendar days of published notice of intent and with no formal objection received from that published notice.

Dan McDonald, Chairman

Jeff Connolly, Commissioner

Memorandum

Road & Bridge

Item #1

Date: February 23rd, 2021

To: Board of County Commissioners for Bonner County

From: Steve Klatt, Director

Re: Over \$5,000 Procurement Request – Peck Stainless Steel Sanders – Sole Source

The Road & Bridge Department requests approval for ordering four stainless steel fabricated sanders from Steve Peck Fabrication at a cost of \$36,104.10/each. From past experience, we have become convinced of the value of the 3/16 stainless steel sheeting Peck fabricates with and have not found a supplier of comparable sanders. This year we need to add two new sanders in Districts 2 & 3.

Steve Peck Fabrication has supplied high quality equipment to Road & Bridge and assists as needed with installation issues they arise. Reviewed with Counsel the uniqueness of these specialty fabrications and he has approved pursuing a Sole Source purchase.

We propose to pay for \$144,416.40 of sanders with funds from Account 002.....9520 – Capital – Heavy Equipment which has an unobligated fund balance exceeding \$300,000.

Name of Department:	Road & Bridge
Request for the Purchase of:	Four Stainless Steel Sanders – Steve Peck Fabrication, LLC
Cost (attach quote):	\$144,416.40

IDAPA 38.05.01.042.10 provides that the administrator may exempt an acquisition from competitive procurement if the administrator determines that bidding is impractical, disadvantageous or unreasonable under the circumstances. Examples include, but are not limited to: special market conditions; property requiring special contracting procedures due to uniqueness; and services for which competitive solicitation procedures are impractical.

Background and Justification (attach additional sheets as needed):

Road & Bridge solicited bids two years for stainless steel frame mount sanders and the only competitive commercial stainless steel sanders are all a much lighter 10 gauge steel construction rather than Peck's 3/16" heavy plate stainless. The extra cost for the heavier stainless has been justified by the increased durability shown in several mishaps that have occurred. Stainless steel is showing increased resistance to the degradation of highway salt solutions we drive through.

Agency Certification: *The information provided above is true and accurate to the best of my knowledge, and supports the need for a direct procurement of the described goods or services, in the best interest of the State:*
