The BonFire program is currently offering **21 +/- acres of Hazardous Fuels Treatment**. This project will be a showcase piece, and will be considered the kickoff for several USFS projects under the Shared Stewardship Program. **The project area is located near Kilroy Bay**, on the east side of Lake Pend Oreille. The area can be accessed with a pick-up, and smaller trailers, however; it may be more cost effective and efficient to barge equipment across the lake. Project deadline is November 30, 2020.
