Planning Commission Staff Report for April 22, 2025

Amendment Title **Amendment to the Comprehensive Plan – Land Use**

File Number, Type: **AM0007-24; Comprehensive Plan Text Amendment**

Proposal: To consider an amendment to the Land Use component, including the Land Use Map, of the Comprehensive Plan.

Applicant: Bonner County Planning Commission
C/O Bonner County Planning Department,
1500 United States Highway 2, Suite 208,
Sandpoint, ID 83864

Project Representative Bonner County Planning Department,
1500 United States Highway 2, Suite 208,
Sandpoint, ID 83864

Notice provided: Published in Newspaper: March 27, 2025
Public Notice: March 27, 2025

Notice of the public hearing to consider the amendment to Bonner County Comprehensive Plan has been provided at least 15 days prior to the hearing to the political subdivisions providing services in Bonner County, to area newspapers, radio and television stations, incorporated cities within Bonner County, and the school districts, consistent with Idaho Code §67-6509.

Appendices: Appendix A - Public Notice and Record of Mailing
Appendix B - Agency Comments
Appendix C - Public Comment Analysis

Project Authority:

This Comprehensive Plan amendment is proposed under the authority granted at Idaho Code:

- §31-714 through §31-716 Board of County Commissioners;
- §31-801 Powers And Duties Of Board Of Commissioners;
- §67-6508 Planning Duties;
- §67-6509 Procedural requirements, recommendation and adoption, amendment, and repeal of the Plan;

Agency and Public Comments:

Agency Review: The application was routed to the agencies for comment on **March 27, 2025.**

Agency Comments are found in Appendix B of this report. The following agencies replied with comments:

Idaho Department of Environmental Quality

Idaho Department of Fish and Game

Independent Highway District

City of Dover

City of Kootenai

The following agencies replied with “no comment”:

Spirit Lake Fire Protection District

Public Comments:

Over 500 public comments have been received during the duration of the processing and development of this component. All of these comments have been included as part of the record for this file. The Planning Commission compiled a report to analyze the public comments received through February 15, 2025, see Appendix C.

Planning Commission Response to Public Comments:

Subsequent to the nine workshops the Planning Commission held, the commission reviewed in detail several hundred public comments and received additional public input at our meetings. Based upon those comments the text of the land use component has been modified in several respects.

Comments were made concerning “proximity” to certain types or classifications of roads when expressing the criteria for a land use designation. To avoid confusion, we have modified the text to remove those references in favor of language that embodies the concept.

Several comments seemed to confuse land use designations and zoning. For instance, the alpine village designation was placed under Recreation Community but the separate zoning and design criteria for the Alpine Village remain unchanged. There are other

instances as well, but in general, specific densities and uses are and should be in zoning and would be inappropriate in the comprehensive plan.

The inclusion of a matrix was causing some concern since it was an abbreviated description of the land use designations. To avoid that problem the matrix was eliminated and identification of zoning districts included in a land use designation were placed in the text.

Over 50% of the comments dealt with the addition of waterfront areas in the Recreation Resort designation. As a result, all such new designations were reversed. The name of this designation was also returned to the Recreational Community.

The Transition land use designation was changed to Mixed Use to more adequately describe the purpose of the designation. However, when certain commercial and/or industrial uses were given the mixed-use designation, islands were created in Rural Residential and Agriculture- Forest areas. Those islands have been changed to the predominant designation and the commercial or industrial uses were left as potentially non-conforming.

Certain areas in the Schweitzer area were split between two different land use designations. Those areas were designated Recreational Community consistent with the PUD for the area.

There was a concern expressed that there was not sufficient definition to the phrase "adequate water and sewer". However, the actual language in the text specified that adequacy would be determined by the appropriate agency having jurisdiction such as Panhandle Health, IDEQ or IDWR. The inclusion of these agencies would then lead to a requirement, if the County Commissioners agreed, for preapproval or at least review prior to the issuance of a permit or a rezone. When the policies for the land use component are reviewed by the commission more an explicit suggested requirement will be considered.

There were several requests to increase density on specific large parcels. Although there may be some merit to these requests they should be considered in a more intensive format. The land use analysis that the commission studied indicated that there are sufficient existing residential parcels to accommodate growth for the period covered by this comprehensive plan. Therefore, any increase in density for large parcels was few if any.

Consistent with the Sagle sub-area plan some parcels along US 95 were changed to mixed use. The land use analysis did reveal a potential shortage of commercial land within the comprehensive plan time period. Similarly, a few parcels along US 41 were designated mixed use where commercial development already existed.

Staff Review and Analysis:

Review of the Historical Changes to this Component:

Bonner County first adopted a Comprehensive Plan by resolution of the Board of County Commissioners on July 21, 1978, recorded at Instrument #202678, Bonner County records. The component "Proposed Land Use" was included in the Comprehensive Plan adopted at that time.

Subsequently, the Plan was amended by adoption of the Land Use Component and Land Use Map through Resolution #05-87, recorded on December 20, 2005, Instrument No. 694695 in Bonner County records.

During this current attempt at updating the comprehensive plan, the Bonner County Planning Commission members met and gathered input from the public through a series of public workshops, open houses, and a public hearing in order to make meaningful updates to this component.

Schedule of Workshops and Hearings:

- Planning Commission Land Use Component Workshops:

October 17, 2023	May 7, 2024	September 24, 2024
November 7, 2023	May 21, 2024	October 1, 2024
November 14, 2023	June 4, 2024	October 15, 2024
December 5, 2023	June 18, 2024	November 5, 2024
December 12, 2023	July 2, 2024	November 19, 2024
January 16, 2024	July 16, 2024	February 18, 2025
February 6, 2024	July 30, 2024	March 4, 2025
February 20, 2024	August 6, 2024	March 11, 2025
March 19, 2024	August 22, 2024	March 18, 2025
April 2, 2024	September 3, 2024	March 25, 2025
April 16, 2024	September 17, 2024	
- Planning Commission Workshop with the BOCC:
June 17, 2024
- The Planning Commission held the following Open House Workshops in various locations throughout the county to gather public input on the draft component and the proposed update to the Comprehensive Plan Map:

Area	Date	Location	Approximate Public Attendance
Sandpoint	7/16/24	Bonner County Admin Bldg., Sandpoint	30
Sandpoint	12/3/24	Bonner County Admin Bldg., Sandpoint	12
Priest River	12/10/24	Priest River Library, Priest River	32
Selle Valley	12/17/24	Northside Elementary, Sandpoint	26
Blanchard	1/7/25	Community Center, Blanchard	26
Sagle	1/14/25	Sagle Elementary, Sagle	39
Cocolalla	1/21/25	Southside Elementary, Cocolalla	16
Clark Fork	1/28/25	Clark Fork Jr./Sr. High School, Clark Fork	16
Coolin	2/4/25	The Inn at Priest Lake, Coolin	20
Sandpoint	2/11/25	Bonner County Admin Bldg., Sandpoint	20

- Planning Commission Hearing:
April 22, 2025

Land Use Analysis Application:

While drafting the Land Use component the Planning Commission met with the GIS Department and Planning Department staff to develop a way to analyze previous growth in the unincorporated county and to project future growth. The commission desired to complete a more thorough analysis based on historical data that led to the creation of the

Land Use Analysis application. Due to data constraints, all the data contained in the app begins in 2019. The county was divided into nine geographic areas to review the growth by area in the county. Historical vacant properties were reviewed to determine vacant land by zone and area. Potential growth scenarios were developed to determine the possible total number of potential properties based on current zoning.

Land Use Analysis Application Link:

<https://cloudgis.bonnercountyid.gov/portal/apps/experiencebuilder/experience/?id=4f2804668fd540faa3975966f63fb211&page=Home>

The Land Use Analysis Contains Many Data Sets:

Building Location Permits (BLPs):

Issued BLPs for Single Family Dwellings, Accessory Dwelling Units, RV Dwelling Units, Multi Family Dwellings, and Industrial/Commercial: 2019, 2020, 2021, 2022, 2023, and 2024.

Current zoning, taxing districts, geographic areas, and BLPs issued on platted parcels.

Historic Parcels:

Bonner County historic parcel Assessor data for 2019, 2020, 2021, 2022, 2023, and 2024 to include all parcels, parcel acreage, parcels with dwellings, vacant parcels, vacant acreage, parcels above zone size, acreage above zone size, parcels below zone size, and acreage below zone size, industrial or commercial designation, and exclusions by ownership type (government owned property, common areas, commercial timber, etc.).

Current zoning, taxing districts, geographic areas, parcels able to be divided, and prime soils.

Potential Growth Scenarios:

Four scenarios were developed to evaluate possible land divisions in the higher density zones (suburban, alpine, rural service center, recreation, Commercial, and Industrial) given the varying potential of urban services. These scenarios include division of properties into 10K/12k square foot lots, 20K square foot lots, 1 acre lots, and 2.5 acre lots.

Each scenario contains Bonner County Assessor parcel data to include current parcels, parcels with dwellings, vacant parcels, vacant acreage, industrial or commercial designation, and exclusions by ownership type (government owned property, common areas, commercial timber, etc.).

Each scenario also includes current zoning, geographic areas, prime soils, and a comparison of zone to parcel by above, below or equal to current zone minimum.

The scenarios all produce an analysis of potential additional parcels given the input constraints.

Other Data Included or Used to Update the Land Use Component:

Existing land cover (state and federal property; hydrography data set), current comprehensive plan.

Bonner County Road Characteristics (county maintained, surface type, ownership, and road functional classification).

MLS sales data, 2019-2023.

Bonner County adopted comprehensive plan components: Economic Development; Housing; Public Services, Facilities, and Utilities; Recreation; and Special Areas or Sites.

Bonner County Sub-Area Plans: Priest River/Oldtown, Selle/Samuels, Sagle, Southwest County, and Priest Lake.

Review of State Statute:

Idaho Code §67-6508 charges the Planning Commission with the duty of "*conducting a comprehensive planning process designed to prepare, implement, and review and update a comprehensive plan*". Idaho Code further states, "*The plan shall include all land within the jurisdiction of the governing board. The plan shall consider previous and existing conditions, trends, compatibility of land uses, desirable goals and objectives, or desirable future situations for each planning component. The plan with maps, charts, and reports shall be based on the following components as they may apply to land use regulations and actions unless the plan specifies reasons why a particular component is unneeded.*"

In relation to the Land Use component, Idaho Code states,

(e) Land Use — *An analysis of natural land types, existing land covers and uses, and the intrinsic suitability of lands for uses such as agriculture, forestry, mineral exploration and extraction, preservation, recreation, housing, commerce, industry, and public facilities. A map shall be prepared indicating suitable projected land uses for the jurisdiction.*

Staff: The proposed update to the Land Use component fulfills the requirements of Idaho Code §67-6508 and §67-6508(e). The Planning Commission conducted a robust comprehensive planning process that included extensive data analysis, integration of public and agency input, and adherence to applicable state law. The Planning Commission engaged in a thorough public outreach process, held over 30 public meetings and workshops, and utilized a detailed land use analysis tool to project future growth and assess land suitability.

In accordance with Idaho Code §67-6508(e), the proposed update includes:

- Analysis of natural land types is provided in Chapter 1 of the component, including elevation, topography, and hydrographic data, which inform land use suitability.
- Existing land covers and uses are detailed in Chapter 2, supported by mapped GIS data, land use designation tables, and parcel/zoning breakdowns derived from historical Assessor data and Planning Department permit data.
- Intrinsic suitability for various uses is addressed throughout Chapter 3, with distinct sections analyzing agriculture, forestry, mineral extraction, preservation, recreation, housing, commerce, industry, and public facilities. Each section

identifies the physical, environmental, and infrastructure-related factors influencing suitability.

- Proposed land use designations are presented in Chapter 4 and reflect the application of guiding principles developed from public testimony, agency feedback, and sub-area plans. The text details the rationale for designation placement and expected development form.
- Proposed comprehensive plan map, prepared by the Planning Commission to align with the updated land use designations, was included for public review during open houses and refined in response to public feedback, ensuring consistency with both statutory intent and community priorities.
- Land use analysis tools such as the County's GIS-based Land Use Analysis App were used to evaluate vacant land, parcel density, zoning build-out potential, and projected residential demand through multiple scenarios, ensuring the update is grounded in real data.

The updated component therefore meets all statutory elements required for a land use component and supports responsible, data-informed planning for Bonner County's future.

Motion by the Governing Body:

PLANNING COMMISSION

MOTION TO RECOMMEND APPROVAL: I move to recommend to the Board of County Commissioners **approval** of this amendment to the Bonner County Comprehensive Plan, File AM0007-24 – update to the Land Use component, finding that it **is** in accord with the requirements of Idaho Code Section 67-6508 and the procedures set forth in Idaho Code Section 67-6509 as enumerated in the following findings of fact and conclusions of law, and based upon the evidence submitted up to the time the Staff Report was prepared and testimony received at this hearing. I further move to adopt the following findings of fact and conclusions of law as written (or as amended). This action does not result in a taking of private property.

MOTION TO RECOMMEND DENIAL: I move to recommend to the Board of County Commissioners **denial** of this amendment to the Bonner County Comprehensive Plan – File AM0007-24 – update to the Land Use component, finding that it **is not** in accord with the requirements of Idaho Code Section 67-6508 and the procedures set forth in Idaho Code Section 67-6509, based upon the evidence submitted up to the time the Staff Report was prepared and testimony received at this hearing. This action does not result in a taking of private property.

Findings of Fact:

1. Per Idaho Code Chapter 65, Title 67, it is the duty of the planning or planning and zoning commission to conduct a comprehensive planning process designed to prepare, implement, and review and update a comprehensive plan, hereafter referred to as the plan.

2. The Board of County Commissioners is authorized by Idaho Code, Chapter 7, Title 31, to adopt ordinances, rules and regulations "...not repugnant to law, necessary for carrying into effect or discharging the powers and duties conferred by the laws of the state of Idaho, and such as are necessary or proper to provide for the safety, promote the health and prosperity, improve the morals, peace and good order, comfort and convenience of the county and the inhabitants thereof, and for the protection of property therein..."

Conclusions of Law:

1. The proposed amendment **is** in accord with Idaho Code Sections 67-6508 and 67-6509.

The complete file is available for review in the Planning Department, 1500 Highway 2, Suite #208, Sandpoint, ID. Staff reports are available prior to the scheduled hearing at www.co.bonner.id.us. Bonner County Revised Code (BCRC) is available at the Planning Department or online.

Appendix A - Public Notice and Record of Mailing

NOTICE OF PUBLIC HEARING

I hereby certify that a true and correct copy of this "Notice of Public Hearing" was digitally transmitted or mailed (postage prepaid) on this **27th day of March 2025**.

A handwritten signature of Jessica Montgomery.

Jessica Montgomery, Hearing Coordinator

This notice was mailed to political subdivisions and the media on **Thursday, March 27, 2025**.

NOTICE IS HEREBY GIVEN that the Bonner County Planning Commission will hold a public hearing beginning at **4:30 p.m.** on **Tuesday, April 22, 2025**, in the Bonner County Administration Building, 1500 Highway 2, Sandpoint, Idaho, by Zoom teleconference, and YouTube Livestream to consider the following requests:

File AM0007-24 – Bonner County Comprehensive Plan – Component Update – Land Use. The Bonner County Planning Commission is recommending an amendment to the existing Bonner County Comprehensive Plan by updating the **Land Use Component**, per Idaho Code Section 67-6508, Local Land Use Planning.

For details regarding this application, Zoom teleconference, or YouTube livestream, visit the Planning Department web site at www.bonnercountyid.gov/departments/Planning. Staff reports are available online or may be viewed at the planning department approximately a week before the scheduled hearing.

Written statements must be submitted to the planning department record no later than seven (7) days prior to the public hearing. Written statements not exceeding one standard letter sized, single spaced page may be submitted at the public hearing. Statements can be sent to the Bonner County Planning Department at 1500 Highway 2, Suite 208, Sandpoint, Idaho 83864; faxed to 866-537-4935 or e-mailed to planning@bonnercountyid.gov. The referenced start time stated above reflects the beginning of the hearing. Specific file start time and hearing duration vary.

During the hearing for this application, the public will be given an opportunity to provide testimony and/or evidence regarding how the proposal does or does not comply with the applicable approval criteria of the Bonner County Revised Code. At the close of the public hearing, the governing board will make a decision on the application that may include, but is not limited to, approval, denial, remand, or continuance of the public hearing. Any person needing special accommodations to participate in the public hearing should contact the Bonner County Planning Department at (208) 265-1458 at least 48 hours prior to the scheduled hearing.

If you have no comment or response, you may indicate below and return this form to the Planning Department.

Bonner County Board of Commissioners
Bonner County Planning Director Jacob Gabell

Re: Bonner County Comprehensive Plan Amendment, File #AM007-24
Dover City Council comment for April 22, 2025 Bonner County public hearing

Dear Board of Commissioners and Planning Director:

The City of Dover has received the legal notice and invitation to comment on Bonner County's proposed amendments to its comprehensive plan future land use map and land use component, which will be considered April 22nd by the Bonner County Planning Commission.

Dover City Council and Dover Planning and Zoning Commission have had the opportunity to review the proposed changes at several workshops and regular meetings over the past two months. In reviewing the proposed amendments in conjunction with the City's adopted comprehensive plan and future land use map and the Dover Area of City Impact, Dover provides the following comments:

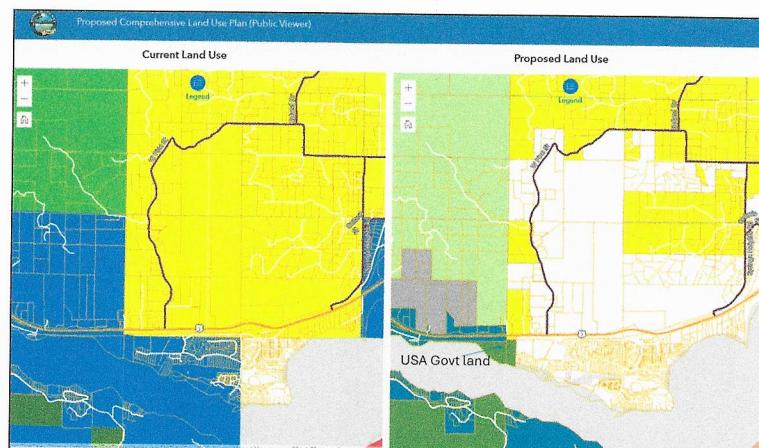

1. One of Dover's adopted comprehensive plan land use goal states: "New development outside the city limits within the Area of City Impact (ACI) is limited to rural uses until development opportunities inside the existing city limits are exhausted." A similar goal in the draft update to Dover's comprehensive plan states, "Dover seeks to encourage Bonner County to keep the uses and densities "rural" within the Dover area of impact until the City is ready and able to expand its boundaries once lands within the city limits have been fully developed." Dover realizes that its comprehensive plan does not govern county unincorporated lands. But the City plan does provide guidance to the county. In viewing the proposed future land use map, areas to the north, east, and portions of the west are shown as "yellow" for Suburban Residential. A range of allowable densities is not mentioned in the county draft plan. Dover expects these areas to be Rural/Rural Residential with a minimum of 5 acres due to the lack of full municipal services. Dover's comprehensive plan shows these areas to be small-scale working lands (5 acres) and rural residential (2-10 acres). Areas along West Pine Street in the most northeast section of the ACI are shown as appropriate for higher density development in the City's comp plan, and do match the county's Suburban Residential designation. (Note: The county "current" map incorrectly encompasses the City of Dover. The official Bonner County comprehensive plan correctly excludes lands within the city. This GIS version should be corrected. The proposed map correctly shows Dover as "gray.")

P.O. Box 115, 699 Lakeshore Ave., Dover, ID 83825

Phone: 208-265-8339 Fax: 208-265-9035

www.cityofdover.id.gov

2. The draft map needs to correct the Dover city boundaries on Pine Street to include the newly annexed area as shown here.
3. A significant area to the immediate west of the City within the Area of City Impact is proposed for Mixed Use, with higher density residential and industrial uses, commercial, and light industrial uses. Dover is aware of the mining operations and conditional industrial zoning for the Peak/LP properties to allow for processing of extracted materials. But the City believes the Mixed Use designation could lead to industrial uses that are not fitting with the surrounding residential uses and go well beyond the developed industrial site. The City recognizes the importance of gravel and rock resources to the community, but believes these are natural resource uses and should not be considered industrial. The designations should remain Ag/Forest or Rural. The land use component should confirm the natural resource extractions are acceptable land uses within this designation, with proper permitting and conditions.
4. The land to the immediate west of the Dover city limits is designated as "remote forested land" in dark green. These areas are shown to be remote areas of the county. This area is not remote and should be shown as Ag/Forest land instead.

Sincerely,

Dover Mayor George E. Eskridge

April 9, 2025

Jacob Gabell, Planning Director
Bonner County Board of Commissioners

RE: City of Kootenai ACI Comment, File AM007-24, Bonner County Comprehensive Plan Component Update – Land Use, April 22, 2025, Public Hearing

Dear Mr. Gabell and Bonner County Commissioners:

The City of Kootenai is in receipt of the Bonner County Planning Department's invitation to comment on the proposed amendment to the county's future land use map and update to the land use component of the comprehensive plan.

Kootenai City Council reviewed the proposed amendments at its March 6, and April 1, 2025, regular council meetings. The Council reviewed the mapping and text amendments and how those changes may affect the City and the adopted Area of City Impact. Kootenai offers the following comments:

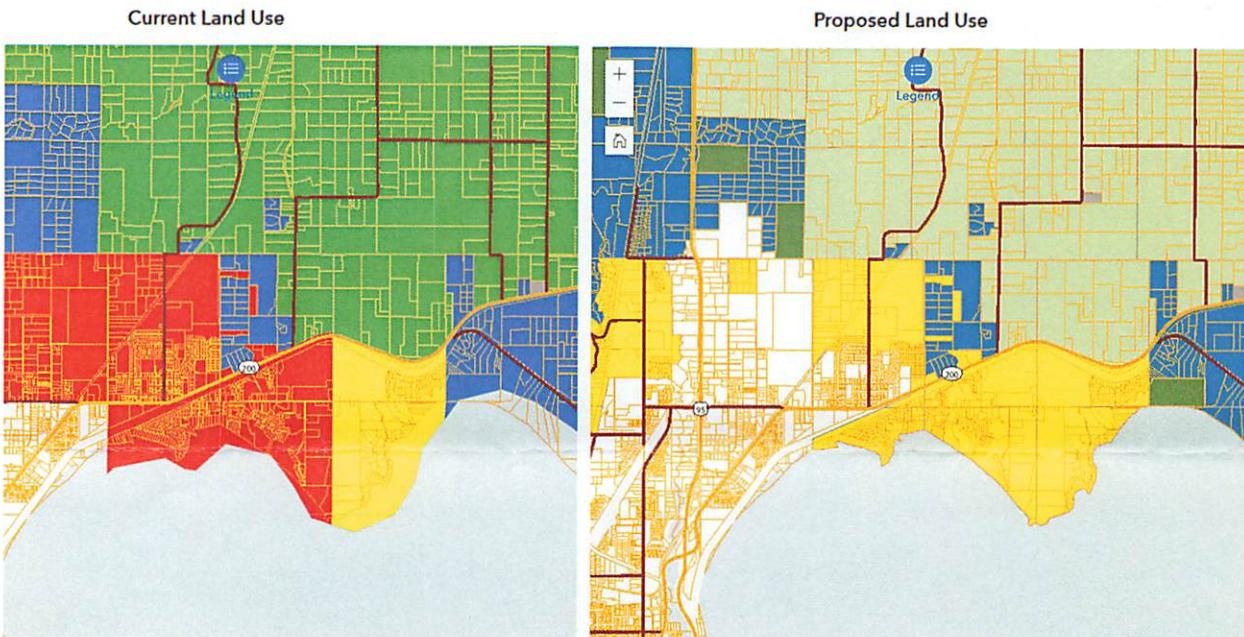

1. The yellow on the proposed land use map represents Suburban Residential. This map designation is described as "primarily located on the outskirts of incorporated cities or higher-density communities, and areas where urban services may not be available." The areas within the Kootenai Area of City Impact include Ponder Point, Whiskey Jack Road, Boyer Slough, Providence Road development, and north of the City along McGhee and Main/North Kootenai Road. Dark blue to the east is described as "Rural Residential" 5 to 10 acre lot sizes and the remaining area to the north is the green area "Ag/Forest Land" 10 to 20 acre lot sizes. (Copy of draft map included below.) The Kootenai adopted future land use map (included with this letter) reflects the desire to retain rural densities (5 acre minimums) for those areas that are outside of the Kootenai-Ponderay Sewer District or City of Sandpoint services areas. The City agrees with the Suburban Residential designation for those areas designated as RES-1/4 on its city comprehensive plan map but disagrees with the Suburban Residential designation for the area east of the terminus of Whiskey Jack Road and south of Highway 200 (Sections 7 and 8, 57 North, Range 1 West), where access is lacking and steep slopes exist. This area should be designated as Rural Residential, similar to the Kootenai mapping.

(Slope Percent, Bonner County GIS)

2. The City desires to keep the lower density designations or Rural Residential north of the city and east of the city and north of Highway 200, as shown on its comprehensive plan map.
3. The Suburban Residential, as described in the draft land use component, is an area where density is dependent on services. But this designation does not refer to a suggested range of lot sizes. The City desires to see a range of lot sizes included and that properties not served by municipal sewer and water services cannot be subdivided to less than 2.5 acres.
4. The potential that the mining area to the northwest of the City on North Kootenai Road could become Industrial and could lead to the processing of mining materials, crushing, asphalt production and other uses not currently allowed within areas of city impact is a great concern to Kootenai. The county proposes the mapping designation for this area in Section 32, Township 58 North, Range 1 West be mixed use, which would allow future rezoning to industrial or commercial zoning. This operation currently uses Kootenai streets to access its properties. Further development of this site to industrial uses and gravel or asphalt processing would be detrimental to the city transportation network. Mining operations should not be viewed as industrial uses, but as natural resource extractions. The designation of this area should remain Ag/Forestry and should not open the door to possible industrial uses that will greatly affect the City.

Thank you for the opportunity to comment. Please let the City know if you need any additional information.

Julie,

I have read the transportation section and have not found any items that would affect the IHD.

Thank you,

Mel Bailey

NOTICE OF PUBLIC HEARING

I hereby certify that a true and correct copy of this "Notice of Public Hearing" was digitally transmitted or mailed (postage prepaid) on this **29th day of August 2024**.

Handwritten signature of Jessica Montgomery.

Jessica Montgomery, Hearing Coordinator

This notice was mailed to political subdivisions and the media on **Thursday, August 29, 2024**.

NOTICE IS HEREBY GIVEN that the Bonner County Planning Commission will hold a public hearing beginning at **4:30 p.m. on Tuesday, September 24, 2024**, in the Bonner County Administration Building, 1500 Highway 2, Sandpoint, Idaho, by Zoom teleconference, and YouTube Livestream to consider the following requests:

File AM0007-24 – Bonner County Comprehensive Plan – Component Update – Land Use. The Bonner County Planning Commission is recommending an amendment to the existing Bonner County Comprehensive Plan by updating the **Land Use Component**, per Idaho Code Section 67-6508, Local Land Use Planning.

For details regarding this application, Zoom teleconference, or YouTube livestream, visit the Planning Department web site at www.bonnercountyid.gov/departments/Planning. Staff reports are available online or may be viewed at the planning department approximately a week before the scheduled hearing.

Written statements must be submitted to the planning department record no later than seven (7) days prior to the public hearing. Written statements not exceeding one standard letter sized, single spaced page may be submitted at the public hearing. Statements can be sent to the Bonner County Planning Department at 1500 Highway 2, Suite 208, Sandpoint, Idaho 83864; faxed to 866-537-4935 or e-mailed to planning@bonnercountyid.gov. The referenced start time stated above reflects the beginning of the hearing. Specific file start time and hearing duration vary.

During the hearing for this application, the public will be given an opportunity to provide testimony and/or evidence regarding how the proposal does or does not comply with the applicable approval criteria of the Bonner County Revised Code. At the close of the public hearing, the governing board will make a decision on the application that may include, but is not limited to, approval, denial, remand, or continuance of the public hearing. Any person needing special accommodations to participate in the public hearing should contact the Bonner County Planning Department at (208) 265-1458 at least 48 hours prior to the scheduled hearing.

If you have no comment or response, you may indicate below and return this form to the Planning Department.
