Bonner County Planning Commission Staff Report for June 3, 2025

Amendment Title	Amendments to Chapter 3 subchapter 12-333 of the Bonner County Revised Code, Title 12.
File Number, Type:	AM0002-25; Text Amendment
Proposal:	A text amendment to Bonner County Revised Code, Title 12 to include the following proposed changes: <ol style="list-style-type: none">1. BCRC 12-333: The removal of the Recreational Vehicle Park/Campground as a conditional use from the Rural, Agricultural/Forestry, and Rural Service Center zoning districts.
Applicants:	Bonner County 1500 Highway 2, Suite 208 Sandpoint, ID 83864
Project Representative:	N/A
Notice provided:	Mailed: May 6, 2025 Published in Newspaper: May 8, 2025 Notice of the public hearing to consider the amendment to Title 12 has been provided at least 15 days prior to the hearing to the political subdivisions providing services in Bonner County, to area newspapers, radio and television stations, incorporated cities within Bonner County, and the school districts, consistent with Idaho Code §67-6509.
Enclosure	Appendix A – Notice of Public Hearing Record of Mailing Appendix B – Public Agency Comments

Project Authority:

This Ordinance amendment is proposed under the authority granted at Idaho Code:

- §31-714 through §31-716 (Board of County Commissioners)
- §31-801 (Powers And Duties Of Board Of Commissioners);
- §67-6518 (Local Land Use Planning – Standards);
- §67-6509 (Procedural requirements, Recommendation and adoption, amendment, and repeal of the plan);

- §67-6511 (Zoning ordinance);

And Bonner County Revised Code:

- BCRC 12-213 (Applications, Applicants for Amendments to This Title);
- BCRC 12-214 (Procedures for Amendments to This Title);
- BCRC 12-216 (Evaluation of Amendment Proposals);
- BCRC 12-217 (Public Hearings, Notice of).

Public and Agency Comment:

Agency Review

A notice was provided to public agencies and political subdivisions in accordance with BCRC 12-268 and Idaho Code 67-6509, see Appendix A for a complete agency notification list.

The following agencies replied with a comment:

Spirit Lake Fire Protection District

The following agencies replied with "no comment":

Idaho Department of Fish and Game
 Idaho Department of Environmental Quality
 Idaho Transportation Department

No other agency comments were received.

Public Comments: As of the date of this staff report, public comments have been received.

Proposed Code Amendments:

Below are the proposed amendments to each specific section and the description of the changes. The language in red and underlined is recommended as additions to the existing code. Those words in ~~red and strike through~~ would be deleted from the ordinance.

Use	Zoning District								
	F	A/F	R	S	C	I	RSC	REC	AV
Recreational vehicle parks/campgrounds (8), (21)		€	€	C	C		€	C	C

8) Adequate water supplies for drinking and fire suppression, as well as approval of sewage disposal sites and methods by the Panhandle health district and/or the state of Idaho, must be demonstrated as appropriate.

(21) Refer to Section 12-497 of this Title for RV Parks/Campground standards. Site requirements for RV parks include at least 25 percent tree canopy coverage and a maximum of 25 percent impervious surface.

Staff Analysis: The Board of County Commissioners has directed Planning Staff to initiate a code amendment to BCRC 12-333 to remove Recreational Vehicle Parks/Campgrounds as a conditional use in the Rural, Agricultural/Forestry, and Rural Service Center zoning districts. The Board cited several concerns, including strain on already limited infrastructure in these areas, potential increases in density that may conflict with the character of lower-density zones, and inconsistencies with the goals and policies of the County's Comprehensive Plan.

According to the AM0007-19 staff report—the proposal that led to the current code—the original intent of allowing this use in the Agricultural/Forestry, Rural, and Suburban zones was to address growing demand for recreational opportunities in the County. The report stated:

"As recreation in the County continues to increase, there are more demands for RV Parks and campgrounds. This proposal establishes a conditional use permit process which analyzes the project to the proposed standards, CUP/PUD standards, requires a public hearing with the Planning Commission, and allows for comment from surrounding neighbors and potentially impacted agencies."

It is worth noting that Recreational Vehicle Parks/Campgrounds were already a conditional use in the Rural Service Center zone prior to the 2019 amendment.

ANALYSIS OF THE AMENDMENT AGAINST THE COMPREHENSIVE PLAN:

Property Rights

Policies:

1. Bonner County should follow the attorney general's checklist, proscribed at Idaho Code §67-8003 and provided in the "Property Rights" component of the county's comprehensive plan, for all land use decisions.
2. For all land use decisions, findings of fact and conclusions of law should be adopted that reflect the justifications for exactions, conditions and restrictions and should confirm that a taking of private property has not occurred.
3. The property rights of the applicant, adjoining and nearby landowners and future generations should be considered, as well as the short-term and long-term consequences of decisions.

4. Bonner County should review all rezoning requests (down-zoning and up-zoning) pursuant to the Idaho State Code, Title 67, Chapter 65 – Local Land Use Planning Act. The approval of conditional rezoning or denial of a request for rezoning may be subject to the regulatory taking analysis provided for by Idaho Code Section 67-8003.

Staff: The application was noticed in the newspaper on May 08, 2025 and public agencies and taxing districts were notified of this request on May 06, 2025.

Currently, RV Parks/Campgrounds are conditionally permitted in each zone, except for Forestry 40 and Industrial where they are prohibited entirely. The proposed code amendment would remove RV Parks/Campgrounds as a conditional use from the Rural, Agricultural/Forestry, and Rural Service Center zoning districts, which constitute approximately 46.4% of the land in Bonner County according to the Bonner County Land Use Analysis Tool. This change would restrict the RV Parks/Campgrounds use to the higher density zoning districts of Suburban, Recreation, Commercial, and Alpine Village.

In the short term, this amendment could reduce potential subsurface sewage treatment concentration in the Rural and Agricultural/Forestry zoning districts, where water and sewer districts are often absent. It may also mitigate potential burdens on wells, and removing the use in areas that could have less developed infrastructure.

However, in the long term, limiting RV Parks/Campgrounds to higher density zoning districts could place greater strain on these areas. Potential impacts include a potential rise in fire risk due to concentrated development, increased subsurface sewage in limited areas, greater demand on aquifers and water sources, further density increases in areas with potentially limited urban water and sewer infrastructure, and a potential increase in road maintenance costs for the county.

Population

Policies:

1. Population projections should be analyzed regularly to determine if changes need to be made to the Comprehensive Plan goals, objectives and policies and/or the Zoning Ordinance to ensure that the public and community needs are being met through land use decisions.
2. Population forecasts and census data should be used to evaluate housing and school needs, and impacts to the transportation system and other county services.
3. Bonner County should cooperate with its incorporated cities and neighboring counties to address growth challenges within the ACI areas and coordinate planning efforts whenever possible.

Staff: Bonner County experienced a population increase of 9.1% between the 2020 census and the 2022 population estimates, rising from 47,105 to 51,414. This

population growth has contributed to increased demand for housing throughout the county, including both incorporated and unincorporated areas.

The proposed code amendment would locate RV Parks/Campgrounds within higher density zoning districts such as Suburban, Recreation, Commercial, and Alpine Village. This could have implications for housing availability in these zones, potentially affecting a larger number of people. The placement of RV Parks/Campgrounds in these higher density areas, often situated in or around Areas of Impact designated for potential annexation by nearby cities, may influence the growth of these cities and the availability of diverse housing options for county and city residents.

According to Bonner County Revised Code (BCRC) 12-333, RV Parks/Campgrounds are classified as a commercial use. While BCRC 12-332, Residential Use Table, permits RV Dwelling Units as alternatives to single-family and accessory dwelling units. RV Parks/Campgrounds are generally intended for short-term occupancy, as defined by Idaho Code § 63-1803(4) and 67-6539 as 30 days or less, which also affirms local jurisdictions' authority to regulate land uses.

School Facilities & Transportation

Policies:

1. Current data regarding school capacity and transportation issues as provided by the School Districts will be included in the assessment of all land use proposals.
2. Bonner County should examine the impacts of land use proposals to the school system and should seek mitigation from developers such as providing facilities, safety features, fees or other measures as permitted by Idaho Code, to address the impact of the proposals.

Staff: The Lake Pend Oreille School District #84 and Lake Pend Oreille School Transportation that serves the property were notified of the proposed code amendment. Lake Pend Oreille School District did not comment as to how this code amendment would or would not adversely impact the district's ability to provide adequate school services (and facilities) for new and existing students. The Transportation department did not provide a comment. This code amendment does not appear to conflict with this component.

Economic Development

Policies:

1. Small scale cottage businesses and home occupations should be allowed in all areas of the county. Reasonable conditions on such uses should be set to minimize adverse impacts to the neighborhood based on factors including, but not limited to, hours of operation and traffic volume generated by the business.
2. Develop land use regulations to allow Bonner County's agricultural heritage to be maintained by enabling local food production, distribution, congregation, and retail

sales. Examples include community gardens, school gardens, farm related education programs, farmers or public markets, and other small-scale, collaborative initiatives.

3. Develop standards for commercial and industrial development that are appropriate for the surrounding community, including: appropriate site sizes, use types, buffering and design standards that encourage both attractive and efficient function, while protecting the environment.
4. Review and update land use regulations for employee housing to support the goal of enabling this use in proximity to commercial, industrial and agricultural uses.

Staff: The use supports economic development by providing seasonal lodging that aligns with tourism and recreation activities in the county. Economic development in the affected zoning districts could be affected by the proposed code amendment.

Land Use

Policies:

1. Commercial and industrial uses, in areas identified in the Comprehensive plan suitable for such development, should be unconditionally permitted. Evaluation of suitability should be based on availability of urban services, adequate access to hard surfaced publicly maintained roads and other factors that may impact the surrounding community.
2. Commercial and industrial uses may be conditionally permitted in areas not identified for such uses in the Comprehensive Plan if a critical review of the proposed use determines that with appropriate conditions the use will not adversely impact the surrounding area.

Staff: Recreational Vehicle Parks/Campgrounds are currently a conditional use in all zoning districts, with the exception of Forestry 40 and Industrial. When considering a conditional use permit, the applicable hearing body is charged with reviewing the proposals and crafting conditions to mitigate the impact on surrounding areas.

It should be noted that, at the time of adoption of the subject code, the review standard was that the use should be "In accordance with the general and specific objectives of the comprehensive plan." Since the adoption of this code in 2019, the Board of County Commissioners has adopted new versions of the Comprehensive Plan components. Today, the hearing body is charged with reviewing applications to determine if they are "not in conflict with the policies of the Comprehensive Plan". It is unknown to staff whether a review was completed to determine compliance with these policies before the use was added to the Bonner County Revised Code.

Natural Resources

Policies:

1. Watershed standards should be employed in land use codes to protect water quality.
2. Best management practices for waterway setbacks should be instituted to reduce erosion and sedimentation into waterways.
3. Development standards should be designed to encourage clustered development resulting in the preservation of open space and wildlife habitat.
4. Bonner County should recognize its critical wildlife habitat and create development standards to protect these areas and mitigate development impacts to these habitats.
5. Protect water quality by creating standards for development in close proximity to shorelines.
6. Productive farmland, timberland and mining lands should be identified and protected from adverse effects of adjoining developments.

Staff: Impacts to natural resources were not identified by any agency. Currently, the RV Park/Campground use requires a Conditional Use Permit. All Conditional Use Permits, regardless of zoning district, are subject to BCRC Title 12, Chapter 7, Environmental Standards, which addresses standards that provide protections to natural resources. This code amendment does not appear to conflict with the policies of this component.

Hazardous Areas

Policies:

1. Flood mitigation standards should be adopted that meet or exceed the National Flood Insurance Program minimum requirements.
2. Residential, commercial or industrial development within the floodway should be discouraged.
3. Fill within the floodplain should be discouraged.
4. The county's wildland fire, urban/wildland interface policies and plans should be integrated into development standards.
5. Excessive slopes should be identified and development discouraged by providing lower densities within these areas.
6. Multiple points of ingress/egress should be considered for large developments.
7. Development should be avoided in avalanche zones.

Staff: Hazardous areas exist in all zoning districts in Bonner County. This component

is evaluated on a case-by-case basis when evaluating the parcels in Conditional Use Permit proposals for RV Parks/Campgrounds. Furthermore, all Conditional Use Permits are subject to BCRC Title 14 Flood Damage Protection, and BCRC Title 12, Chapter 7, Environmental Standards, which address development within hazardous areas. This code amendment does not appear to conflict with the policies of this component.

Public Services, Facilities & Utilities

Policies:

1. Encourage high-density development to take place within the boundaries of existing sewer and water areas.
2. Bonner County should seek comment from existing service providers on their ability to serve future developments without adversely impacting the ability of the utility providers to serve current users.
3. Bonner County should provide adequate facilities for responsible disposal of solid waste to protect the health and welfare of the public as well as the County's natural resources.

Staff: The Board of County Commissioners, in their direction to staff, implicated that the RV Park/Campground uses in the lower density areas could potentially introduce unsustainable density in these zones and could have an impact on services provided in the area, specifically wells and subsurface sewage. The Board's intention is to have all higher density uses, commercial or residential, to be within the higher density areas such as the Suburban, Recreation, and Commercial zoning districts, which is directly supported by policy 1 of this component. The proposed amendment does not appear to conflict with these policies.

Transportation

Policies:

1. A long-term transportation system plan should be developed and regularly updated to ensure reasonable levels of service can be maintained in the future, and that needs for future road extensions or transportation corridors are identified as early as possible.
2. Development in areas that are not served by county standard roads or where transportation is inadequate should be discouraged.
3. Bike and pedestrian trails should be considered in development proposals to connect the communities with existing and planned bike and walking paths wherever possible.

Staff: The Bonner County Road and Bridge Department has developed and maintains

a comprehensive transportation system plan for unincorporated Bonner County. BCRC 12-497 (C.1), RV Park Standards, addresses the need for these developments to have direct access on a maintained County road, state highway, forest access roads, or private roads built to Title 12, Appendix A standards. This standard appears to be directly supported by policy 2 of this component. Additionally, BCRC 12-497 (E) states that bike and pedestrian access shall be integrated into the site. This standard in BCRC 12-497 (E) appears to be supported by policy 3 of this component. The proposal does not appear to be in conflict with the policies of this component.

Recreation

Policies:

1. Bonner County is encouraged to develop a waterways and park access program to preserve and develop access to public recreational lands and waterways. The program should include retaining access parcels that may be acquired from tax sales or private donations.
2. A plan for a system of green belts and pathways (bike and pedestrian) should be considered as areas develop, so that a connected system can be developed and preserved.
3. Under no circumstances, will Bonner County require access easements on private property as a condition of development. This policy does not preclude providing voluntary incentives to developers in return for access easements.

Staff: Current recreational opportunities for the general public that are available in Bonner County are anticipated to remain the same with this code amendment. The availability of less lodging or camping options could potentially impact the expansion of recreational activities in the Rural, Agricultural/Forestry, and Rural Service Center zone district areas.

Special Areas or Sites

Policies:

1. A generalized map of the known pre-historic and historic sites should be developed so that future developments are aware of special areas of concern and are connected with the historical society and Native American tribes for appropriate preservation and protection.
2. Bonner County should implement road side development standards for recognized scenic byways to protect the view sheds.
3. Special areas should be recognized and addressed when development is proposed in these areas.

Staff: The project appears to not conflict with the policies of this component.

Housing

Policies:

1. Encourage development of a variety of housing options including mobile home parks, tiny home communities and recreational vehicle parks located in areas that are compatible with their density.
2. Work with municipalities and private parties to find solutions for all types of housing projects and developments.
3. Clustering of housing in developments to save on infrastructure and transportation costs should be encouraged through mechanisms such as density bonuses.
4. Bonner County recognizes opportunities should be made for assisted living and group shelters.
5. Enable workforce housing in direct proximity to agricultural, commercial and industrial uses.

Staff: BCRC 12-332 and 12-496 outline Recreational Vehicle Dwelling Units, which allow for Recreational Vehicles to be used in the same manner as a single family dwelling or accessory dwelling unit. In contrast, BCRC 12-333 and 12-497 implicate that RV Parks/Campgrounds are to be used as short-term stays. RV Parks/Campgrounds are not intended to serve as long-term or workforce housing.

Comparable transient lodging uses identified in the Commercial Use Table—such as hotels, hostels, resorts, and retreats—are not intended for long-term or permanent residential occupancy. Similarly, RV parks permitted within commercial zones are intended to accommodate short-term stays and should not function as permanent residential developments.

Further support for such a limitation can be found in Idaho Code §63-1803(4) and 67-6539, which define short-term occupancy as 30 days or less and affirm the authority of local jurisdictions to regulate land uses accordingly. Based on this guidance, a limitation of 30 cumulative days per calendar year per guest is considered appropriate to maintain the commercial nature of the use and avoid reclassification as a residential occupancy.

As a commercial use, it does not conflict with the goals of this component.

Community Design

Policies:

1. To promote and preserve the natural features and rural atmosphere of the community, the county should enact development standards that address development within scenic byways and design standards that account for waterfront setbacks, wildlife corridors, commercial and industrial landscaping, requirements for reduced lighting, cluster development, rural rather than urban

setback standards and other design objectives aimed at preserving the rural, natural character of the community.

2. Allow unique and flexible design standards such that new development within older neighborhoods and historic settlements is compatible with those unique neighborhoods.
3. Allow particularized design standards to address waterfront and mountaintop developments which may differ from standard design objectives.

Staff: Some recent proposals for RV parks and campgrounds have attracted notable public attention. Many community members have expressed concerns about the compatibility of these uses with the rural character and intended development patterns of the zoning districts in which they are proposed. These concerns often center on potential impacts to the surrounding area and whether such uses align with the expectations for rural residential living.

Agriculture

Policies:

1. Residential uses should continue being permitted in Agricultural zoning districts.
2. Protect agricultural uses and activities from land use conflicts or interference created by residential, commercial or industrial development
3. Land use regulations should support home occupations, cottage industries and farm-based family businesses on agricultural parcels. Examples include farm stands and other agri-business pursuits.
4. Bonner County acknowledges the provisions of Idaho State's Right to Farm Act. Those shall be considered in the land use decisions.

Staff: This proposal does not appear to conflict with the policies of this component, as farming and agricultural pursuits remain viable and are encouraged in the Rural and Agricultural/Forestry zoning districts.

Staff Conclusion:

BCRC 12-216: Evaluation of Amendment Proposals:

"Staff and the Governing Bodies shall review the particular facts and circumstances of each proposal submitted and shall determine whether there is adequate evidence that the proposal is not in conflict with the policies of the comprehensive plan."

Planner's Initials: AF

Date: May 28, 2025

Note: The final decision rests with the governing body after the completion of the public hearing and consideration of all relevant oral and written testimony and evidence.

Motion by the Governing Body:

PLANNING COMMISSION

MOTION TO RECOMMEND APPROVAL: I move to recommend approval of this FILE AM0002-25 to amend Chapter 3 subchapter 12-333 of Title 12, Bonner County Revised Code to remove Recreational Vehicle Parks/Campgrounds as a conditional use from the Rural, Agricultural/Forestry, and Rural Service Center, to the Board of County Commissioners, finding that it is in accord with the general and specific objectives of the Bonner County Comprehensive Plan as enumerated in the following findings of fact and conclusions of law:

Conclusion 1: The proposed amendment **is** in accord with Idaho Code, Title 31, Chapter 7.

Conclusion 2: The proposed amendment **is** in accord with Idaho Code Title 67, Chapter 65.

Conclusion 3: The proposed amendment **is not** in conflict with the policies of the Bonner County Comprehensive Plan.

This decision is based upon the evidence submitted up to the time the Staff Report was prepared and testimony received at this hearing. I further move to adopt the findings of fact and conclusions of law as set forth in the Staff Report (or as amended during this hearing) and direct planning staff to draft written findings and conclusions to reflect this motion, have the Chairman sign, and transmit to all interested parties. This action does not result in a taking of private property.

MOTION TO RECOMMEND DENIAL: I move to recommend denial of this FILE AM0002-25 to amend Chapter 3 subchapter 12-333 of Title 12, Bonner County Revised Code to remove Recreational Vehicle Parks/Campgrounds as a conditional use from the Rural, Agricultural/Forestry, and Rural Service Center as enumerated in the following findings of fact and conclusions of law:, to the Board of County Commissioners, finding that it **is** in conflict with the policies of the Bonner County Comprehensive Plan.

Conclusion 1: The proposed amendment **is/ is not** in accord with Idaho Code, Title 31, Chapter 7.

Conclusion 2: The proposed amendment **is/ is not** in accord with Idaho Code Title 67, Chapter 65.

Conclusion 3: The proposed amendment **is/ is not** in conflict with the policies of the Bonner County Comprehensive Plan.

This decision is based upon the evidence submitted up to the time the Staff Report was prepared and testimony received at this hearing. I further move to adopt the findings of fact and conclusions of law as set forth in the Staff Report (or as amended during this hearing) and direct planning staff to draft written findings and conclusions to reflect this motion, have the Chairman sign, and transmit to all interested parties. This action does not result in a taking of private property.

Findings of Fact:

1. The Bonner County Planning Department has reviewed the proposed changes against Idaho Code and made amendments to better comply with the Idaho Code, specifically Title 67 Chapter 65, Local Land Use Planning.
2. The Board of County Commissioners is authorized by Idaho Code, Chapter 7, Title 31, to adopt ordinances, rules and regulations "...not repugnant to law, necessary for carrying into effect or discharging the powers and duties conferred by the laws of the state of Idaho, and such as are necessary or proper to provide for the safety, promote the health and prosperity, improve the morals, peace and good order, comfort and convenience of the county and the inhabitants thereof, and for the protection of property therein..."

The proposed ordinance making the above changes adds to the clarity intended in the interpretation of the Bonner County Revised Code and Bonner County Comprehensive Plan. These actions will further balance the provision of safety, health and prosperity while maintaining the protection of property, peace, good order, comfort and convenience of the county and its inhabitants.

3. The proposed changes are intended to provide clarification of the regulations, enabling the public and the staff to achieve the best results leading to greater understanding and use of the zoning ordinance.
4. The proposed code amendment was drafted at the direction of the Bonner County Commissioners.

The complete file is available for review in the Planning Department, 1500 Highway 2, Suite #208, Sandpoint, ID. Staff reports are available online prior to the scheduled hearing at www.bonnercountyid.gov Bonner County Revised Code (BCRC) is available at the Planning Department or online.

Good afternoon,

The Spirit Lake Fire Protection District supports the text amendment to Title 12 of the Bonner County Revised Code: BCRC 12-333: The removal of the Recreational Vehicle Park/Campground use as a conditional use and prohibit this use in the Rural, Agricultural/Forestry, and Rural Service Center zoning districts. Notably, RV parks/campgrounds pose a unique risk, especially in the Wildland Urban Interface as a fire could spread to other RVs, surrounding homes, and the wildland, potentially impacting all of Bonner County, even potentially threatening homes in neighboring fire districts. RV parks are unregulated in Idaho and the transient nature of the park makes prevention and enforcement nearly impossible. RVs burn more rapidly than structures and spread to other neighboring RVs rapidly. A full RV park/campground poses a high risk for civilian rescue, or even life loss. LPG tanks and other hazards associated with RVs can pose unique operational challenges for short-staffed fire districts. With limited resources in our county, RV parks/campgrounds pose a tactical challenge and requires fire districts to be more attentive to fire prevention features, conditions, and designs.

Anne Boisvert
