Background:

A. Site data:

Land Use: Residential - SFD
Platted
Size: 0.303-acres
Zoning Designation: Rural 5 (R-5)
Comp Plan Designation: Rural Residential (5-10 AC)

B. Access:

Sandpiper Shores Road, a 60-foot Bonner County owned, and privately maintained, public right-of-way.

C. Environmental factors:

Site does not contain mapped slopes of 15-30+%. (USGS)
Site does contain mapped wetlands. (USFWS)
Site does contain frontage on a stream/river/lake.
KS 6/26/2025: Parcel is within SFHA Zone AE and Zone X per FIRM Panel Number 16017C0150F, Effective Date 7/7/2014. Per the submitted site plan and county GIS, the proposed addition and deck are within SFHA Zone X. See FDP2025-0012 regarding the "proposed beach".

D. Services:

- Water: Sandpiper Shores Community Water Supply.
- Sewage: Sandpiper Shores Master Utility Inc.
- Fire: North Of The Narrows Fire District.
- Power: Northern Lights, Inc.
- School District: West Bonner School District #83.

E. Comprehensive Plan, Zoning and Current Land Use

Compass	Comp Plan	Zoning	Current Land Use &
---------	-----------	--------	--------------------

			Density
Site	Rural Residential (5-10 AC)	Rural 5 (R-5)	Residential, 0.303-acres
North	Rural Residential (5-10 AC)	Rural 5 (R-5)	Residential, 0.344-acres Residential, 0.397-acres
East	Rural Residential (5-10 AC)	Rural 5 (R-5)	Residential, 0.209-acres
South	Not Designated	Not Designated	Residential, 0.923-acres Residential, 0.184-acres Residential, 0.306-acres

F. Standards review

BCRC 12-234 specifies that "Staff, the commission and/or board shall review the particular facts and circumstances of each proposal submitted and shall find adequate evidence showing that:

- (a) **Conditions apply to the property that do not apply generally to other properties in the same zone or vicinity, which conditions are a result of lot size, shape, topography, or other circumstances over which the applicant has no control.**

Applicant: *"The homes on the canal side of Sandpiper Shores Rd. are located within setbacks. This property lot shape has an awkward shape leaving only the current area to work within."*

Staff: The existing lot is irregularly shaped, with the existing home sitting just off the cul-de-sac. The waterfront setback and street setback from the cul-de-sac leave an approximate 4-foot building envelope, which could make expansion difficult, without increasing the bulk within the setbacks.

- (b) **Special conditions and circumstances do not result from the actions of the applicant.**

Applicant: *"The homeowner is adding a small addition with a deck which brings the size to an additional 240 sq. ft."*

Staff: The applicants lot was platted and recorded on August 11, 1970, under instrument # 128764, and the applicants purchased the lot on May 28, 2002, under instrument #602085. The applicants did not create the size or shape of the lot.

- (c) **The granting of the variance is not in conflict with the public interest in that it will not be detrimental to the public health, safety, or welfare, or materially injurious to properties or improvements in the vicinity of the subject parcel or lot.**

Applicant: *"Granting this variance will not have any impact on public interest. This will be a small addition to an existing home."*

Staff: The applicants' proposal seeks to expand the house within the center of the lot, which increases bulk, but does not increase existing setbacks. The increase in the street setback comes from proposed steps onto a deck, which appear to be very

minimal. The setbacks to the neighboring parcels are not encroached upon, and no public comments were received that would suggest a hazard. The HOA has granted approval of the project, and the only agency comment suggesting a conflict was from Idaho Department of Environmental Quality. No other comments or findings suggest this proposal would be in conflict with the public interest, detrimental to the public health, safety, or welfare, or materially injurious to properties or improvements in the vicinity of the subject lot.

G. Stormwater plan

A stormwater management plan will be required pursuant to BCRC 12-720.2. The plan shall be submitted at the time of the Building Location Permit.

H. Agency Review

Agencies were notified of this project on June 6, 2025. A full list of the agencies notified can be found in the attached Appendix A. A full list of agency comments can be found in Appendix B.

The following agencies commented:

Idaho Department of Environmental Quality
Bonner County Floodplain Review

The following agencies replied "No Comment":

Panhandle Health District
Kootenai/Ponderay Sewer District
Idaho Transportation District
Idaho Department of Fish and Game
Bonner County Historical Society

All other agencies did not reply.

Public Notice & Comments

At the time this Staff Report was written, public comments have been received.

Staff Review Summary:

The proposed variance seeks to allow for a small expansion on an irregularly shaped lot, that would be difficult to build upon by current county standards. The applicants did not create this lot and are proposing an expansion that minimizes further setback encroachments. The HOA has approved the proposal, and there does not appear to be any conflict with public interest, or hazards associated with the project. Idaho Department of environmental Quality provided a comment, due to the proximity of the shoreline, however the lot sits on a man-made canal, which was not a natural part of Priest Lake.

Planner's Initials: ____DF____	Date: ____6/26/25____	Note:
---------------------------------------	------------------------------	--------------

The final decision rests with the governing body after the completion of the public hearing and consideration of all relevant oral and written testimony and evidence.

Proposed Conditions of Approval:

Standard Conditions:

- A-1.** Only the development highlighted on the site plan has been reviewed for variance standards. All other development shown must comply with Bonner County Revised Code.
- A-2.** This variance shall not supersede any deed restrictions.
- A-3.** An approved Stormwater Management Plan shall be obtained at the time of Building Location Permit.
- A-4.** Building Location Permits must be obtained.

The complete file is available for review in the Planning Department, 1500 Highway 2, Suite #208, Sandpoint, ID. Some file application material is available online at www.bonnercountyid.gov Bonner County Revised Code (BCRC) is available at the Planning Department or online.

Development setbacks from stream banks and lake shorelines are an important tool for protecting water quality. Riparian vegetation provides natural filtration of stormwater runoff and provides numerous other benefits to promote healthy surface water ecology. DEQ recognizes that there are sometimes unique circumstances that may justify reduced setbacks. While an individual variance likely has a relatively small impact on water quality, the cumulative impact of development in close proximity to shorelines and stream banks is a significant threat to water quality. DEQ advises local government planning departments to maintain established setbacks whenever possible. Exceptions should be considered carefully by the local jurisdiction and used only when absolutely necessary to accommodate unique circumstances.

If you have any questions about the comments this project has received please contact:

- Katy Baker-Casile for engineering and wastewater.
- Anna Moody for drinking water.
- Shawn Sweetapple for air quality.
- Kevin Aardahl for remediation or RCRA.
- Robert Steed for surface water and setback requirements.

LAND USE DECISION-MAKING WORKSHEET VARIANCE

Idaho Code §67-6535 (2): The approval or denial of any application required or authorized pursuant to this chapter shall be in writing and accompanied by a reasoned statement that explains the criteria and standards considered relevant, states the relevant contested facts relied upon, and explains the rationale for the decision based on the applicable provisions of the comprehensive plan, relevant ordinance and statutory provisions, pertinent constitutional principles and factual information contained in the record.

STANDARDS FOR VARIANCE REVIEW:

Prior to approving a variance, the governing body shall review the particular facts and circumstances of each proposed variance in terms of the following standards and shall find adequate evidence showing that such use at the proposed location.

Idaho Code §67-6516	Each governing board shall provide, as part of the zoning ordinance, for the processing of applications for variance permits. A variance is a modification of the bulk and placement requirements of the ordinance as to lot size, lot coverage, width, depth, front yard, side yard, rear yard, setbacks, parking space, height of buildings, or other ordinance provision affecting the size or shape of a structure or the placement of the structure upon lots, or the size of lots. A variance shall not be considered a right or special privilege, but may be granted to an applicant only upon a showing of undue hardship because of characteristics of the site and that the variance is not in conflict with the public interest.
