ZC0006-25 Staff Report

The Zoning Commission at the June 26, 2025 public hearing recommended approval of the referenced application.

MOTION TO RECOMMEND APPROVAL: Commissioner Poulsen moved to recommend approval to the Board of County Commissioners on the project, FILE ZC0006-25, requesting a zone change from Rural-10 to Rural-5, on 10-acres, generally located in Section 6, Township 55 North, Range 05 West, Boise Meridian, Bonner County, Idaho, finding that it is not in conflict with policies of the Bonner County Comprehensive Plan and Bonner County Revised Code as enumerated in the following conclusions of law,

Conclusion 1

The proposal **is not** in conflict with the policies of the Bonner County Comprehensive Plan.

Conclusion 2

This proposal was reviewed for compliance with Title 12, Bonner County Revised Code, and **is** found to be in compliance.

Conclusion 3

The proposal **is** in accord with the purpose of the Suburban zoning designation, provided at Chapter 3, Title 12, Bonner County Revised Code.

This recommendation is based upon the evidence submitted up to the time the Staff Report was prepared and testimony received at this hearing. Commissioner Poulsen moved to adopt the reasoned statement as discussed in deliberation at this hearing and the analysis as set forth in the Staff Report (or as amended during this

hearing) and direct planning staff to draft the reasoned statement to reflect this motion as set forth in Idaho Code section 67-6535, have the Chair sign, and transmit to all interested parties. This action does not result in a taking of private property.

Commissioner Clark seconded the motion.

Voted upon and the Chair declared the Motion passed, unanimously.

Please contact the Planning Department if you have any questions.

Sincerely,

Jacob Marble, Chair
Bonner County Planning Commission

LAND USE DECISION-MAKING WORKSHEET ZONE CHANGE RURAL 10 TO RURAL 5

Idaho Code §67-6535 (2): The approval or denial of any application required or authorized pursuant to this chapter shall be in writing and accompanied by a reasoned statement that explains the criteria and standards considered relevant, states the relevant contested facts relied upon, and explains the rationale for the decision based on the applicable provisions of the comprehensive plan, relevant ordinance and statutory provisions, pertinent constitutional principles and factual information contained in the record.

STANDARDS FOR ZONE CHANGE REVIEW:

Prior to rendering a decision on a zone change, the governing body shall review the particular facts and circumstances of each proposed zone change in terms of the following standards and shall find adequate evidence showing that such use at the proposed location will:

IC §67-6511	The governing board shall analyze proposed changes to zoning ordinances to ensure that they are not in conflict with the policies of the adopted comprehensive plan. If the request is found by the governing board to be in conflict with the adopted plan, or would result in demonstrable adverse impacts upon the delivery of services by any political subdivision providing public services, including school districts, within the planning jurisdiction, the governing board may require the request to be submitted to the planning or planning and zoning commission or, in absence of a commission, the governing board may consider an amendment to the comprehensive plan pursuant to the notice and hearing procedures provided in section 67-6509, Idaho Code. After the plan has been amended, the zoning ordinance may then be considered for amendment pursuant to paragraph (b) of this subsection.

All other agencies did not reply.

G. Public Notice & Comments

As of the date of this Staff Report, no public comments have been received.

Standards Review and Staff Analysis:

- **12-215:** Applications for Zone Changes and Comprehensive Plan Map Amendments, Contents
 - All required documents were submitted, and this application was considered complete on April 1, 2025 and routed to agencies accordingly.
- **12-216:** Evaluation of Amendment Proposals
 - Staff and the Governing Bodies shall review the particular facts and circumstances of each proposal submitted and shall determine whether there is adequate evidence that the proposal is not in conflict with the policies of the comprehensive plan. (Ord. 501, 11-18-2008)

Comprehensive Plan Analysis:**Property Rights****Policies:**

1. Bonner County should follow the attorney general’s checklist, proscribed at Idaho Code §67-8003 and provided in the “Property Rights” component of the county’s comprehensive plan, for all land use decisions.
2. For all land use decisions, findings of fact and conclusions of law should be adopted that reflect the justifications for exactions, conditions and restrictions and should confirm that a taking of private property has not occurred.
3. The property rights of the applicant, adjoining and nearby landowners and future generations should be considered, as well as the short-term and long-term consequences of decisions.

4. Bonner County should review all rezoning requests (down-zoning and up-zoning) pursuant to the Idaho State Code, Title 67, Chapter 65 – Local Land Use Planning Act. The approval of conditional rezoning or denial of a request for rezoning may be subject to the regulatory taking analysis provided for by Idaho Code Section 67-8003.

Staff: The application was routed to neighbors 300' from the property line, informing neighbors of the proposed zone change. As of the date of this staff report, Bonner County has not received public comments. This proposal has been reviewed for compliance with Bonner County Revised Code and findings of fact will be adopted with the decision and recommendation of this project. This proposal does not appear to be in conflict with the policies of this component.

Population

Policies:

1. Population projections should be analyzed regularly to determine if changes need to be made to the Comprehensive Plan goals, objectives and policies and/or the Zoning Ordinance to ensure that the public and community needs are being met through land use decisions.
2. Population forecasts and census data should be used to evaluate housing and school needs, and impacts to the transportation system and other county services.
3. Bonner County should cooperate with its incorporated cities and neighboring counties to address growth challenges within the ACI areas and coordinate planning efforts whenever possible.

Staff: Bonner County, according to 2023 population estimates census data, has seen a 11.55% increase in population since the 2020 census was performed; increasing from 47,103 to an estimated 52,547. With the increase in the population, there is upward pressure on housing needs in Bonner County, both in the unincorporated portion of the County, and in the incorporated cities. This proposal is not within any Areas of Impact. This proposal does not appear to be in conflict with the policies of this component.

School Facilities & Transportation

Policies:

1. Current data regarding school capacity and transportation issues as provided by the School Districts will be included in the assessment of all land use proposals.
2. Bonner County should examine the impacts of land use proposals to the school system and should seek mitigation from developers such as providing facilities, safety features, fees or other measures as permitted by Idaho Code, to address the impact of the proposals.

Staff: The West Bonner School District #83 and the West Bonner School Transportation Department was notified of the proposed zone change and did not comment as to how an increase in density and development would or would not

adversely impact the district's ability to provide adequate school services (and facilities) for new and existing students. This project does not appear to conflict with this component.

Economic Development

Policies:

1. Small scale cottage businesses and home occupations should be allowed in all areas of the county. Reasonable conditions on such uses should be set to minimize adverse impacts to the neighborhood based on factors including, but not limited to, hours of operation and traffic volume generated by the business.
2. Develop land use regulations to allow Bonner County's agricultural heritage to be maintained by enabling local food production, distribution, congregation, and retail sales. Examples include community gardens, school gardens, farm related education programs, farmers or public markets, and other small-scale, collaborative initiatives.
3. Develop standards for commercial and industrial development that are appropriate for the surrounding community, including: appropriate site sizes, use types, buffering and design standards that encourage both attractive and efficient function, while protecting the environment.
4. Review and update land use regulations for employee housing to support the goal of enabling this use in proximity to commercial, industrial and agricultural uses.

Staff: This proposal does not appear to be in conflict with the policies of the economic development component.

Land Use

Policies:

1. Commercial and industrial uses, in areas identified in the Comprehensive plan suitable for such development, should be unconditionally permitted. Evaluation of suitability should be based on availability of urban services, adequate access to hard surfaced publicly maintained roads and other factors that may impact the surrounding community.
2. Commercial and industrial uses may be conditionally permitted in areas not identified for such uses in the Comprehensive Plan if a critical review of the proposed use determines that with appropriate conditions the use will not adversely impact the surrounding area.

Staff: The proposed zone change from Rural-10 to Rural-5 does not appear to conflict with the policies of this component. The Rural Zone does allow for some commercial and industrial uses, either permitted for conditionally permitted, per BCRC 12-3.3. Per the application, the intent of this zone change is to later divide the property in half for residential purposes.

Natural Resources

Policies:

1. Watershed standards should be employed in land use codes to protect water quality.
2. Best management practices for waterway setbacks should be instituted to reduce erosion and sedimentation into waterways.
3. Development standards should be designed to encourage clustered development resulting in the preservation of open space and wildlife habitat.
4. Bonner County should recognize its critical wildlife habitat and create development standards to protect these areas and mitigate development impacts to these habitats.
5. Protect water quality by creating standards for development in close proximity to shorelines.
6. Productive farmland, timberland and mining lands should be identified and protected from adverse effects of adjoining developments.

Staff: Impacts to natural resources were not identified by any agency. Furthermore, Bonner County Revised Code has regulations to protect natural resources. This project does not appear to be in conflict with the policies of this component.

Hazardous Areas

Policies:

1. Flood mitigation standards should be adopted that meet or exceed the National Flood Insurance Program minimum requirements.
2. Residential, commercial or industrial development within the floodway should be discouraged.
3. Fill within the floodplain should be discouraged.
4. The county's wildland fire, urban/wildland interface policies and plans should be integrated into development standards.
5. Excessive slopes should be identified and development discouraged by providing lower densities within these areas.
6. Multiple points of ingress/egress should be considered for large developments
7. Development should be avoided in avalanche zones.

Staff: The subject property is not located in a mapped floodplain. Based on GIS LiDAR data, the property appears to be made up primarily of 5-10% slopes, however, this

appears to be following the tree coverage on the property. Furthermore, the property is afforded emergency services. The risk of avalanches in this area appear to be minimal. The proposal does not appear to be in conflict with these policies.

Public Services, Facilities & Utilities

Policies:

1. Encourage high-density development to take place within the boundaries of existing sewer and water areas.
2. Bonner County should seek comment from existing service providers on their ability to serve future developments without adversely impacting the ability of the utility providers to serve current users.
3. Bonner County should provide adequate facilities for responsible disposal of solid waste to protect the health and welfare of the public as well as the County's natural resources.

Staff: Current services on this property include individual well, individual septic, Avista Utilities, Bonner County EMS & Sherrif, and West Pend Oreille Fire District. All the above-mentioned agencies were routed for comment and did not respond as to how this zone change could affect their ability to provide services. This proposal does not appear to be in conflict with the policies of this component.

Transportation

Policies:

1. A long-term transportation system plan should be developed and regularly updated to ensure reasonable levels of service can be maintained in the future, and that needs for future road extensions or transportation corridors are identified as early as possible.
2. Development in areas that are not served by county standard roads or where transportation is inadequate should be discouraged.
3. Bike and pedestrian trails should be considered in development proposals to connect the communities with existing and planned bike and walking paths wherever possible.

Staff: This proposal does not appear to be in conflict with the policies of this component.

Recreation

Policies:

1. Bonner County is encouraged to develop a waterways and park access program to preserve and develop access to public recreational lands and waterways. The program

should include retaining access parcels that may be acquired from tax sales or private donations.

2. A plan for a system of green belts and pathways (bike and pedestrian) should be considered as areas develop, so that a connected system can be developed and preserved.

3. Under no circumstances, will Bonner County require access easements on private property as a condition of development. This policy does not preclude providing voluntary incentives to developers in return for access easements.

Staff: Recreational opportunities that are available in Bonner County are anticipated to remain the same with this zone change. This proposal does not appear to be in conflict with the policies of this component.

Special Areas or Sites

Policies:

1. A generalized map of the known pre-historic and historic sites should be developed so that future developments are aware of special areas of concern and are connected with the historical society and Native American tribes for appropriate preservation and protection.

2. Bonner County should implement road side development standards for recognized scenic byways to protect the view sheds.

3. Special areas should be recognized and addressed when development is proposed in these areas.

Staff: This proposal does not appear to be in conflict with the policies of this component.

Housing

Policies:

1. Encourage development of a variety of housing options including mobile home parks, tiny home communities and recreational vehicle parks located in areas that are compatible with their density.

2. Work with municipalities and private parties to find solutions for all types of housing projects and developments.

3. Clustering of housing in developments to save on infrastructure and transportation costs should be encouraged through mechanisms such as density bonuses.

4. Bonner County recognizes opportunities should be made for assisted living and group shelters.

5. Enable workforce housing in direct proximity to agricultural, commercial and industrial uses.

Staff: This proposed rezone may result in more opportunities for a variety of housing options in Bonner County; therefore, it does not appear to be in conflict with the policies of this component.

Community Design

Policies:

1. To promote and preserve the natural features and rural atmosphere of the community, the county should enact development standards that address development within scenic byways and design standards that account for waterfront setbacks, wildlife corridors, commercial and industrial landscaping, requirements for reduced lighting, cluster development, rural rather than urban setback standards and other design objectives aimed at preserving the rural, natural character of the community.

2. Allow unique and flexible design standards such that new development within older neighborhoods and historic settlements is compatible with those unique neighborhoods.

3. Allow particularized design standards to address waterfront and mountaintop developments which may differ from standard design objectives.

Staff: This proposal does not appear to be in conflict with the policies of this component.

Agriculture:

Policies:

1. Residential uses should continue being permitted in Agricultural zoning districts.

2. Protect agricultural uses and activities from land use conflicts or interference created by residential, commercial or industrial development.

3. Land use regulations should support home occupations, cottage industries and farm-based family businesses on agricultural parcels. Examples include farm stands and other agri-business pursuits.

4. Bonner County acknowledges the provisions of Idaho State's Right to Farm Act. Those shall be considered in the land use decisions.

Staff: This proposal does not appear to be in conflict with the policies of this component as farming and agricultural pursuits are encouraged in the Rural Zoning Districts.

- **12-320.1:** Zoning Districts and Map Designation, Purpose:
 - The purpose statements for each zone and map designation set forth in the following sections shall be used to guide the application of the zones and designations to all lands in unincorporated Bonner County. The purpose statements also shall guide interpretation and application of land use regulations within the zones and designations, and any changes to the range of permitted uses within each zone through amendments to this title. (Ord. 501, 11-18-2008)
- **12-320.2:** Zoning Districts and Map Designations Established:
 - In accordance with the provisions of Idaho Code and the objectives set forth in this code, all land in the unincorporated areas of Bonner County is hereby classified according to the following zoning designations and zoning map symbols, which shall be applied as shown on the official zoning district map.

Existing Comprehensive Plan Designation:

Rural Residential: The Rural Residential area provides for residential development in areas where urban services are not available and slopes may vary up to 30%. These areas include hazard areas and critical wildlife habitats, where lower densities reduce potential impacts to resources and exposures to loss of property or lives. Small-scale agricultural uses and residential development are permitted.

Existing Zoning

BCRC 12-323: RURAL DISTRICT (B-1, Rural 10):

A. The rural district is established to allow low density residential uses that are compatible with rural pursuits. The purpose can be accomplished by:

1. Limiting residential densities and permitted uses to those that are compatible with rural character and nearby resource production districts and sites and can be adequately supported by rural service levels.
2. Allowing small scale farming and forestry activities, and tourism and recreation uses that can be supported by rural service levels and are compatible with rural character.
3. Encouraging conservation development configurations that create permanent open space or farming areas, protect sensitive environmental features, reduce infrastructure costs and/or enhance recreational opportunities.

B. Use of this zone is appropriate in areas designated by the comprehensive plan as follows:

1. R-10 in areas designated as rural residential in the comprehensive plan that meet one or more of the following criteria:
 - a. Characterized by slopes that are steeper than thirty percent (30%).
 - b. Located within critical wildlife habitat as identified by federal, state or local agencies.
 - c. Contain prime agricultural soils.
 - d. Served by a network of public and/or private roadways that generally do not meet applicable roadway standards set forth in title 2 (public roads) of this code or appendix A (private roads) of this title or are absent.
 - e. Within the floodway.
 - f. Contain limited access to public services.

Proposed Zoning:

BCRC 12-323 RURAL DISTRICT (B-2, RURAL-5):

B. Use of this zone is appropriate in areas designated by the comprehensive plan as follows:

2. R-5 in areas designated rural residential in the comprehensive plan that are already developed at or near the one dwelling unit per five (5) acre density and/or do not meet the criteria for R-10 above. (Ord. 501, 11-18-2008)

Comparisons of the Rural-10 and Rural-5 for the parcel.

Rural-10 Standards	Rural-5 Standards
Characterized by slopes steeper than 30%	Developed at or near the one dwelling unit per five (5) acres

• Located within critical wildlife habitat • Contain prime agricultural soils • Served by a network of public/private roads • Within the floodway • Contain limited access to public services	And/or • Does not meet the criteria for R-10
---	---

Rural 10:

Characterized by Slopes Steeper Than 30%:

The subject lot does not appear to be characterized by slopes steeper than 30% (as shown in the GIS LiDAR image). The slopes on the property appear to follow existing trails/road and associated with the tree coverage. According to the land use portion of the comprehensive plan for density ranges, properties that are level to moderately slopes are appropriately sized to be 5-10 acres.

Located Within Critical Wildlife Habitat:

No critical wildlife area was determined by any public agency. Additionally, GIS data does not show the property within any critical wildlife habitat area.

Contains Prime Agricultural Soils:

The parcel is made up entirely of Bonner gravelly ashy silt, 0 to 4 percent slopes. This falls under the designation of "All areas are Prime Farmland". Per the natural resources component the land capability classification is 3s. Class 3 soils have severe limitations that reduce the choice of plants or require special conservation practices, or both. Subclass "s" is made up of soils that have soil limitations within the rooting zone, such as shallowness of the rooting zone, stones, low moisture-holding capacity, low fertility that is difficult to correct, and salinity or sodium content.

Served by a Network of Public/Private Roads:

Access to the site is currently provided by Doris Lane, a privately owned and maintained road, with a connection to Dry Creek Road, a Bonner County owned and privately maintained easement, which further connects to Hoo Doo Loop, a Bonner County Owned and maintained public right-of-way. Bonner County Road and Bridge did not provide comments on the Zone Change.

Within the Floodway:

The subject parcel is not located within a mapped floodway per FIRM Panel Number 16017C0850E, Effective date 11/18/2009

Contain Limited Access to Public Services:

The subject parcel has access to public services. Public services that are available to this property include: West Pend Oreille Fire District, Bonner County EMS & Sherriff, and Avista Utilities.

Rural 5:

Comprehensive Plan Designation of Rural Residential:

The subject parcel currently has a Land Use designation of "Rural Residential (5-10 AC), which is compatible with either of the Rural zoning districts.

Developed at or Near the One Dwelling Unit Per Five (5) Acres:

Within 1200 feet of the subject parcel, there are 26 individual parcels or lots. It appears most surrounding properties in the immediate area are developed at 5+ acres. There are fifteen (15) parcels within 1,200 feet of this project that are developed with one dwelling per 5 acres. The closest Rural 5 zoning district borders the subject property to the East.

And/or

Does not meet the criteria for R-10:

The subject property does not appear to be characterized by steep slopes of 30+% or greater, it does not have any identified critical wildlife habitat, it is not within a mapped floodway, it does have access to public services, and it is served by a network of public/private roads. The property does contain soil that is considered "All areas are prime farmland".

Note: The final decision rests with the governing body after the completion of the public hearing and consideration of all relevant oral and written testimony and evidence.

Zone Change - Motion by the Governing Body:

ZONING COMMISSION

MOTION TO RECOMMEND APPROVAL: I move to recommend approval of this project to the Board of County Commissioners, FILE ZC0006-25, requesting a zone change from Rural-10 to Rural-5, finding that it is not in conflict with the policies of the Bonner County Comprehensive Plan and Bonner County Revised Code as enumerated in the following conclusions of law:

Conclusion 1

The proposal **is not** in conflict with the policies of the Bonner County Comprehensive Plan.

Conclusion 2

This proposal **was** reviewed for compliance with Title 12, Bonner County Revised Code, and **was** found to be in compliance.

Conclusion 3

The proposal **is** in accord with the purpose of the Rural 5 zoning district, provided at Chapter 3, Title 12, Bonner County Revised Code.

This decision is based upon the evidence submitted up to the time the Staff Report was prepared, and testimony received at this hearing. I further move to adopt the reasoned statement as discussed in deliberation at this hearing and the analysis as set forth in the Staff Report (or as amended during this hearing) and direct planning staff to draft the reasoned statement to reflect this motion as set forth in Idaho Code section 67-6535, have

the Chair sign, and transmit to all interested parties. This action does not result in a taking of private property.

ZONING COMMISSION

MOTION TO RECCOMEND DENIAL: I move to recommend denial of this project to the Board of County Commissioners, FILE ZC0006-25, requesting a zone change from Rural-10 to Rural-5, based upon the following conclusions:

Conclusion 1

The proposal **is/is not** in conflict with the policies of the Bonner County Comprehensive Plan.

Conclusion 2

This proposal was reviewed for compliance with Title 12, Bonner County Revised Code, and **was/was not** found to be in compliance.

Conclusion 3

The proposal **is/is not** in accord with the purpose of the Rural 5 zoning district, provided at Chapter 3, Title 12, Bonner County Revised Code.

This decision is based upon the evidence submitted up to the time the Staff Report was prepared, and testimony received at this hearing. I further move to adopt the reasoned statement as discussed in deliberation at this hearing and the analysis as set forth in the Staff Report (or as amended during this hearing) and direct planning staff to draft the reasoned statement to reflect this motion as set forth in Idaho Code section 67-6535, have the Chair sign, and transmit to all interested parties. This action does not result in a taking of private property. The action that could be taken, if any, to obtain the zone change is to:

1. File a new application with the Planning Department and meet the standards required by Bonner County Revised Code; or
2. Pursue such remedies as may be applicable at Title 67, Chapter 65, Idaho Code.

The complete file is available for review in the Planning Department, 1500 Highway 2, Suite #208, Sandpoint, ID. Staff reports are available online prior to the scheduled hearing at www.bonnercountyid.gov Bonner County Revised Code (BCRC) is available at the Planning Department or online

LAND USE DECISION-MAKING WORKSHEET ZONE CHANGE RURAL 10 TO RURAL 5

Idaho Code §67-6535 (2): The approval or denial of any application required or authorized pursuant to this chapter shall be in writing and accompanied by a reasoned statement that explains the criteria and standards considered relevant, states the relevant contested facts relied upon, and explains the rationale for the decision based on the applicable provisions of the comprehensive plan, relevant ordinance and statutory provisions, pertinent constitutional principles and factual information contained in the record.

STANDARDS FOR ZONE CHANGE REVIEW:

Prior to rendering a decision on a zone change, the governing body shall review the particular facts and circumstances of each proposed zone change in terms of the following standards and shall find adequate evidence showing that such use at the proposed location will:

IC §67-6511	The governing board shall analyze proposed changes to zoning ordinances to ensure that they are not in conflict with the policies of the adopted comprehensive plan. If the request is found by the governing board to be in conflict with the adopted plan, or would result in demonstrable adverse impacts upon the delivery of services by any political subdivision providing public services, including school districts, within the planning jurisdiction, the governing board may require the request to be submitted to the planning or planning and zoning commission or, in absence of a commission, the governing board may consider an amendment to the comprehensive plan pursuant to the notice and hearing procedures provided in section 67-6509, Idaho Code. After the plan has been amended, the zoning ordinance may then be considered for amendment pursuant to paragraph (b) of this subsection.
YES NO	List the relevant evidence from the <u>record</u> that supports your conclusion and the rationale for the conclusion.
BCRC 12-215	Whether the application and the documentation provided by the applicant sufficiently meets the applicant contents criteria.
YES NO	List the evidence from the <u>record</u> that supports your conclusion and the rationale for the conclusion.
