G. Public Notice & Comments

As of the date of this Staff Report, the Planning Department has received public comments.

Standards Review and Staff Analysis:

- **12-111: PURPOSE**

The zoning regulations and districts for the unincorporated areas of Bonner County, as herein established, have been made in accordance with a comprehensive plan and Idaho Code for the purpose of promoting the health, safety and general welfare of the people of Bonner County.

- **12-215: Applications for Zone Changes and Comprehensive Plan Map Amendments, Contents**

Staff: The application was deemed complete on September 9, 2025, and agencies were notified accordingly.

- **12-216: Evaluation of Amendment Proposals**

- Staff and the Governing Bodies shall review the particular facts and circumstances of each proposal submitted and shall determine whether there is adequate evidence that the proposal is not in conflict with the policies of the comprehensive plan. (Ord. 501, 11-18-2008)

Comprehensive Plan Analysis:

Property Rights

Policies:

1. Bonner County should follow the attorney general's checklist, proscribed at Idaho Code §67-8003 and provided in the "Property Rights" component of the county's comprehensive plan, for all land use decisions.
2. For all land use decisions, findings of fact and conclusions of law should be adopted that reflect the justifications for exactions, conditions and restrictions and should confirm that a taking of private property has not occurred.
3. The property rights of the applicant, adjoining and nearby landowners and future generations should be considered, as well as the short-term and long-term consequences of decisions.
4. Bonner County should review all rezoning requests (down-zoning and up-zoning) pursuant to the Idaho State Code, Title 67, Chapter 65 – Local Land Use Planning Act. The approval of conditional rezoning or denial of a request for rezoning may be subject to the regulatory taking analysis provided for by Idaho Code Section 67-8003.

Staff: The application was routed to neighbors 300' from the property line, informing neighbors of the proposed zone change. As of the date of this staff report, Bonner County has received public comments. This proposal has been reviewed for compliance with Bonner County Revised Code and findings of fact will be adopted with the decision and recommendation of this project. This proposal does not appear to be in conflict with the policies of this component.

Population

Policies:

1. Population projections should be analyzed regularly to determine if changes need to be made to the Comprehensive Plan goals, objectives and policies and/or the Zoning Ordinance to ensure that the public and community needs are being met through land use decisions.
2. Population forecasts and census data should be used to evaluate housing and school needs and impacts to the transportation system and other county services.
3. Bonner County should cooperate with its incorporated cities and neighboring counties to address growth challenges within the ACI areas and coordinate planning efforts whenever possible.

Staff: Bonner County, according to 2023 population estimates census data, has seen a 11.55% increase in population since the 2020 census was performed; increasing from 47,103 to an estimated 52,547. With the increase in the population, there is upward pressure on housing needs in Bonner County, both in the unincorporated

portion of the County, and in the incorporated cities. This proposal does not appear to be in conflict with the policies of this component.

School Facilities & Transportation

Policies:

1. Current data regarding school capacity and transportation issues as provided by the School Districts will be included in the assessment of all land use proposals.
2. Bonner County should examine the impacts of land use proposals to the school system and should seek mitigation from developers such as providing facilities, safety features, fees or other measures as permitted by Idaho Code, to address the impact of the proposals.

Staff: The Lake Pend Oreille School District #84 and Lake Pend Oreille School Transportation that serves the property were notified of the proposed zone change. Lake Pend Oreille School District did not comment as to how an increase in density and development would or would not adversely impact the district's ability to provide adequate school services (and facilities) for new and existing students. The Transportation department did not provide a comment. This project does not appear to conflict with this component.

Economic Development

Policies:

1. Small scale cottage businesses and home occupations should be allowed in all areas of the county. Reasonable conditions on such uses should be set to minimize adverse impacts to the neighborhood based on factors including, but not limited to, hours of operation and traffic volume generated by the business.
2. Develop land use regulations to allow Bonner County's agricultural heritage to be maintained by enabling local food production, distribution, congregation, and retail sales. Examples include community gardens, school gardens, farm related education programs, farmers or public markets, and other small-scale, collaborative initiatives.
3. Develop standards for commercial and industrial development that are appropriate for the surrounding community, including: appropriate site sizes, use types, buffering and design standards that encourage both attractive and efficient function, while protecting the environment.
4. Review and update land use regulations for employee housing to support the goal of enabling this use in proximity to commercial, industrial and agricultural uses.

Staff: This proposal does not appear to be in conflict with the policies of the economic development component.

Land Use

Policies:

1. Commercial and industrial uses, in areas identified in the Comprehensive plan suitable for such development, should be unconditionally permitted. Evaluation of suitability should be based on availability of urban services, adequate access to hard surfaced publicly maintained roads and other factors that may impact the surrounding community.
2. Commercial and industrial uses may be conditionally permitted in areas not identified for such uses in the Comprehensive Plan if a critical review of the proposed use determines that with appropriate conditions the use will not adversely impact the surrounding area.

Staff: The proposed zone change from Rural-10 to Rural-5 does not appear to conflict with the policies of this component. The Rural zones do allow for some commercial and industrial uses, either permitted or conditionally permitted, per BCRC 12-3.3. Per the application, the intent of this zone change is to later divide the property in half for residential purposes.

Natural Resources

Policies:

1. Watershed standards should be employed in land use codes to protect water quality.
2. Best management practices for waterway setbacks should be instituted to reduce erosion and sedimentation into waterways.
3. Development standards should be designed to encourage clustered development resulting in the preservation of open space and wildlife habitat.
4. Bonner County should recognize its critical wildlife habitat and create development standards to protect these areas and mitigate development impacts to these habitats.
5. Protect water quality by creating standards for development in close proximity to shorelines.
6. Productive farmland, timberland and mining lands should be identified and protected from adverse effects of adjoining developments.

Staff: Impacts to natural resources were not identified by any agency. Furthermore, Bonner County Revised Code has regulations to protect natural resources. This project does not appear to be in conflict with the policies of this component.

Hazardous Areas

Policies:

1. Flood mitigation standards should be adopted that meet or exceed the National Flood Insurance Program minimum requirements.
2. Residential, commercial or industrial development within the floodway should be discouraged.
3. Fill within the floodplain should be discouraged.
4. The county's wildland fire, urban/wildland interface policies and plans should be integrated into development standards.
5. Excessive slopes should be identified and development discouraged by providing lower densities within these areas.
6. Multiple points of ingress/egress should be considered for large developments
7. Development should be avoided in avalanche zones.

Staff: The subject property is not located in a mapped floodplain. The subject parcel contains few mapped slopes of over 30% grade. Furthermore, the property does have access to emergency services. The risk of avalanches in this area appears to be minimal. The proposal does not appear to be in conflict with these policies.

Public Services, Facilities & Utilities

Policies:

1. Encourage high-density development to take place within the boundaries of existing sewer and water areas.
2. Bonner County should seek comment from existing service providers on their ability to serve future developments without adversely impacting the ability of the utility providers to serve current users.
3. Bonner County should provide adequate facilities for responsible disposal of solid waste to protect the health and welfare of the public as well as the County's natural resources.

Staff: Current services on this property include individual well, Northern Lights, Inc., Bonner County EMS & Sheriff, and Sagle Fire District. All the above-mentioned agencies were notified of this file and did not respond as to how this zone change could affect their ability to provide services. This proposal does not appear to be in conflict with the policies of this component.

Transportation

Policies:

1. A long-term transportation system plan should be developed and regularly updated to ensure reasonable levels of service can be maintained in the future, and that needs for future road extensions or transportation corridors are identified as early as possible.
2. Development in areas that are not served by county standard roads or where transportation is inadequate should be discouraged.
3. Bike and pedestrian trails should be considered in development proposals to connect the communities with existing and planned bike and walking paths wherever possible.

Staff: This proposal does not appear to be in conflict with the policies of this component.

Recreation

Policies:

1. Bonner County is encouraged to develop a waterways and park access program to preserve and develop access to public recreational lands and waterways. The program should include retaining access parcels that may be acquired from tax sales or private donations.
2. A plan for a system of green belts and pathways (bike and pedestrian) should be considered as areas develop, so that a connected system can be developed and preserved.
3. Under no circumstances, will Bonner County require access easements on private property as a condition of development. This policy does not preclude providing voluntary incentives to developers in return for access easements.

Staff: Recreational opportunities that are available in Bonner County are anticipated to remain the same with this zone change. This proposal does not appear to be in conflict with the policies of this component.

Special Areas or Sites

Policies:

1. A generalized map of the known pre-historic and historic sites should be developed so that future developments are aware of special areas of concern and are connected with the historical society and Native American tribes for appropriate preservation and protection.
2. Bonner County should implement road side development standards for recognized scenic byways to protect the view sheds.

3. Special areas should be recognized and addressed when development is proposed in these areas.

Staff: Bonner County Historical Society was notified of this proposal and did not provide comments. This proposal does not appear to be in conflict with the policies of this component.

Housing

Policies:

1. Encourage development of a variety of housing options including mobile home parks, tiny home communities and recreational vehicle parks located in areas that are compatible with their density.
2. Work with municipalities and private parties to find solutions for all types of housing projects and developments.
3. Clustering of housing in developments to save on infrastructure and transportation costs should be encouraged through mechanisms such as density bonuses.
4. Bonner County recognizes opportunities should be made for assisted living and group shelters.
5. Enable workforce housing in direct proximity to agricultural, commercial and industrial uses.

Staff: This proposed rezone may result in more opportunities for a variety of housing options in Bonner County; therefore, it does not appear to be in conflict with the policies of this component.

Community Design

Policies:

1. To promote and preserve the natural features and rural atmosphere of the community, the county should enact development standards that address development within scenic byways and design standards that account for waterfront setbacks, wildlife corridors, commercial and industrial landscaping, requirements for reduced lighting, cluster development, rural rather than urban setback standards and other design objectives aimed at preserving the rural, natural character of the community.
2. Allow unique and flexible design standards such that new development within older neighborhoods and historic settlements is compatible with those unique neighborhoods.
3. Allow particularized design standards to address waterfront and mountaintop developments which may differ from standard design objectives.

Staff: This proposal does not appear to be in conflict with the policies of this component.

Agriculture:

Policies:

1. Residential uses should continue being permitted in Agricultural zoning districts.
2. Protect agricultural uses and activities from land use conflicts or interference created by residential, commercial or industrial development.
3. Land use regulations should support home occupations, cottage industries and farm-based family businesses on agricultural parcels. Examples include farm stands and other agri-business pursuits.
4. Bonner County acknowledges the provisions of Idaho State's Right to Farm Act. Those shall be considered in the land use decisions.

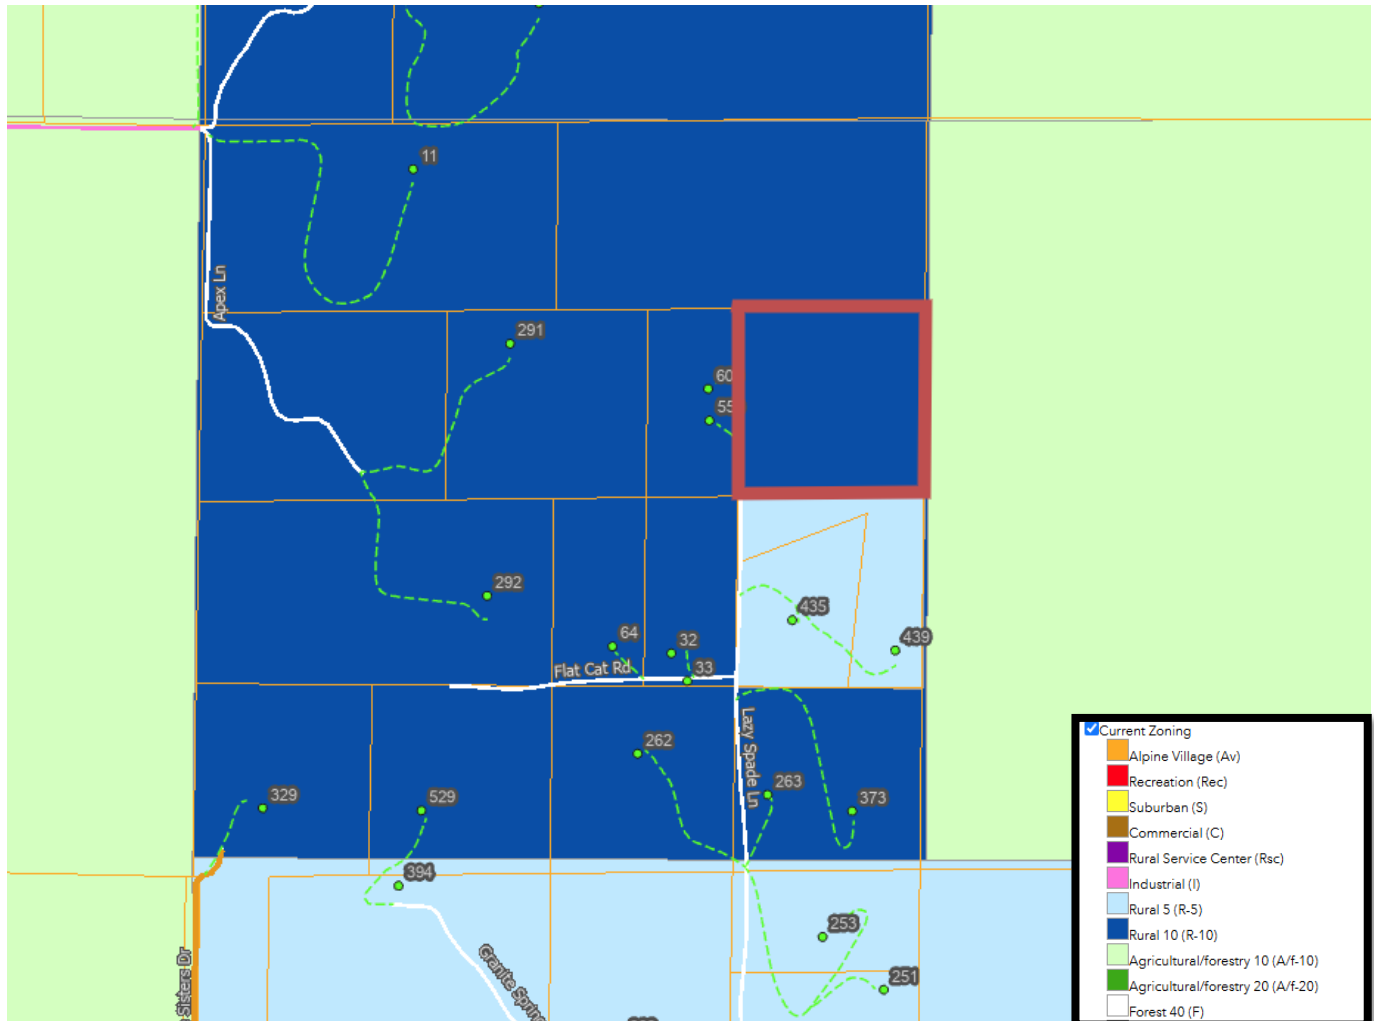

Staff: This proposal does not appear to be in conflict with the policies of this component as farming and agricultural pursuits are encouraged in the Rural Zoning Districts.

- **12-320.1:** Zoning Districts and Map Designation, Purpose:
 - The purpose statements for each zone and map designation set forth in the following sections shall be used to guide the application of the zones and designations to all lands in unincorporated Bonner County. The purpose statements also shall guide interpretation and application of land use regulations within the zones and designations, and any changes to the range of permitted uses within each zone through amendments to this title. (Ord. 501, 11-18-2008)
- **12-320.2:** Zoning Districts and Map Designations Established:
 - In accordance with the provisions of Idaho Code and the objectives set forth in this code, all land in the unincorporated areas of Bonner County is hereby classified according to the following zoning designations and zoning map symbols, which shall be applied as shown on the official zoning district map.

Existing Comprehensive Plan Designation:

Rural Residential: The Rural Residential area provides for residential development in areas where urban services are not available and slopes may vary up to 30%. These areas include hazard areas and critical wildlife habitats, where lower densities reduce potential impacts to resources and exposures to loss of property or lives. Small-scale agricultural uses and residential development are permitted.

Existing Zoning:

BCRC 12-323: RURAL DISTRICT (B-1, Rural 10):

A. The rural district is established to allow low density residential uses that are compatible with rural pursuits. The purpose can be accomplished by:

1. Limiting residential densities and permitted uses to those that are compatible with rural character and nearby resource production districts and sites and can be adequately supported by rural service levels.
2. Allowing small scale farming and forestry activities, and tourism and recreation uses that can be supported by rural service levels and are compatible with rural character.
3. Encouraging conservation development configurations that create permanent open space or farming areas, protect sensitive environmental features, reduce infrastructure costs and/or enhance recreational opportunities.

B. Use of this zone is appropriate in areas designated by the comprehensive plan as follows:

1. R-10 in areas designated as rural residential in the comprehensive plan that meet one or more of the following criteria:

- a. Characterized by slopes that are steeper than thirty percent (30%).
- b. Located within critical wildlife habitat as identified by federal, state or local agencies.
- c. Contain prime agricultural soils.
- d. Served by a network of public and/or private roadways that generally do not meet applicable roadway standards set forth in title 2 (public roads) of this code or appendix A (private roads) of this title or are absent.
- e. Within the floodway.
- f. Contain limited access to public services.

Proposed Zoning:

BCRC 12-323 RURAL DISTRICT (B-2, RURAL-5):

B. Use of this zone is appropriate in areas designated by the comprehensive plan as follows:

2. R-5 in areas designated rural residential in the comprehensive plan that are already developed at or near the one dwelling unit per five (5) acre density and/or do not meet the criteria for R-10 above.

Comparisons of the Rural-10 and Rural-5 for the parcel.

Rural 10:

Characterized by Slopes Steeper Than 30%:

The subject lot does not appear to be characterized by slopes steeper than 30% (as shown in the GIS LiDAR image). The only slopes steeper than 30% are located in the southeastern corner of the subject parcel. According to the land use portion of the comprehensive plan for density ranges, properties that are level to moderately slopes are appropriately sized to be 5-10 acres.

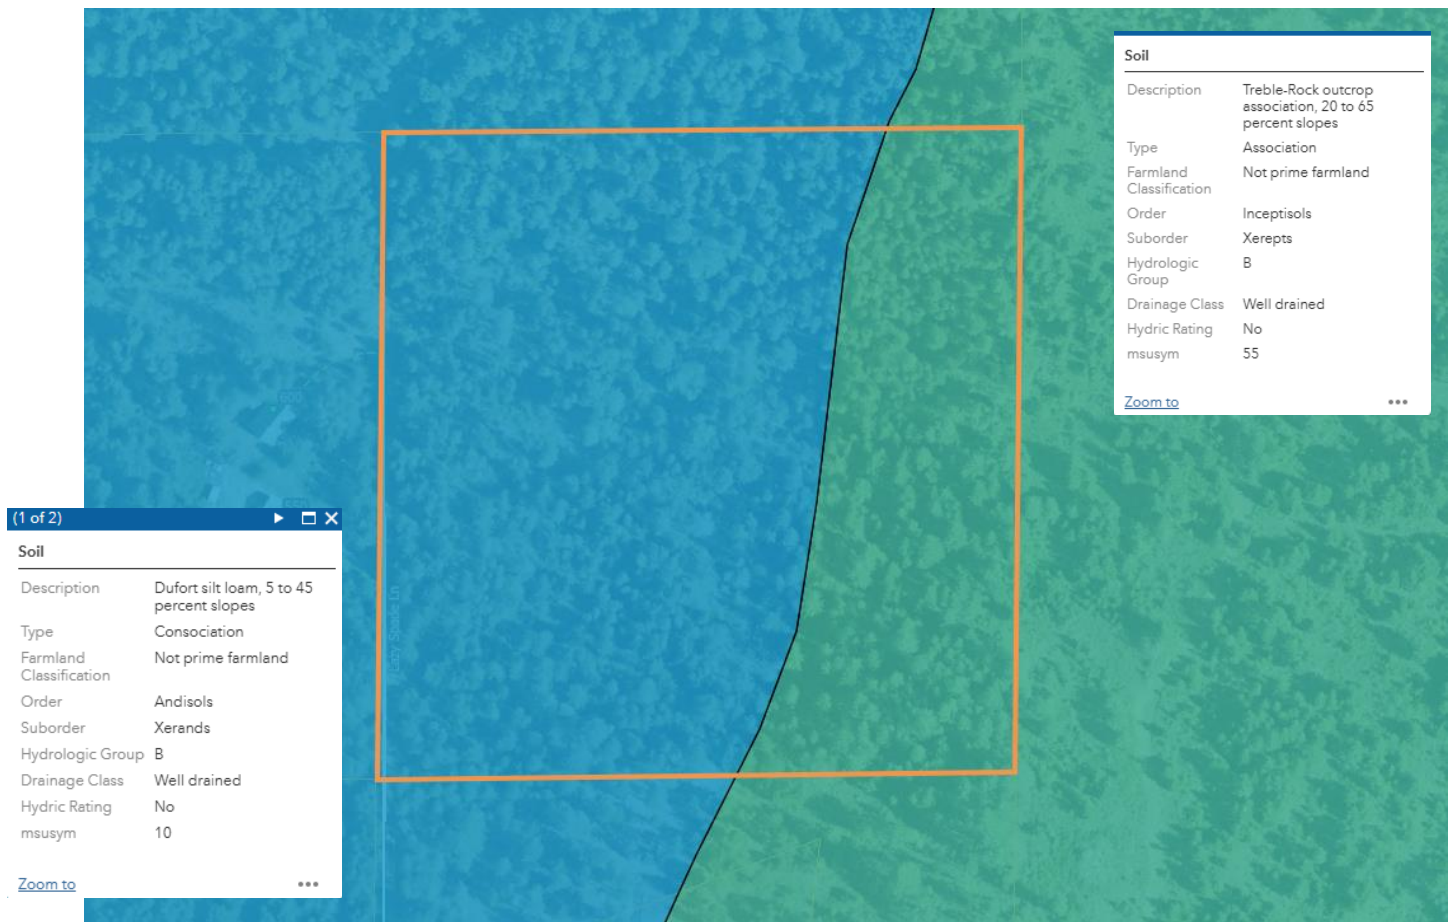

Located Within Critical Wildlife Habitat:

No critical wildlife area was determined by any public agency. Additionally, GIS data does not show the property located within any critical wildlife area.

Contains Prime Agricultural Soils:

The parcel contains two types of soil: Dufort silt loam, 5 to 45 percent slopes and Treble-Rock outcrop association, 20 to 65 percent slopes. According to the Natural Resources component of the Bonner County Comprehensive Plan, *"All other soil types not classified as Prime Farmland or Farmland of Statewide Importance are classified as Not-Prime Farmland"*.

Served by a Network of Public/Private Roads:

Access to the site is currently provided by Lazy Spade Lane, a privately owned and privately maintained easement that connects to Granite Springs Road, a privately owned and privately maintained easement which further connects to Sunset Road, a Bonner County owned and maintained public right-of-way.

Within the Floodway:

The subject parcel is not located within a mapped floodway per FIRM Panel Number 16017C1175E, Effective date 11/18/2009.

Contain Limited Access to Public Services:

The subject parcel has access to public services. Public services that are available to this property include: Sagle Fire District, Bonner County EMS & Sherriff, and Northern Lights, Inc.

Rural 5:

Comprehensive Plan Designation of Rural Residential:

The subject parcel currently has a Land Use designation of "Rural Residential (5-10 AC), which is compatible with either of the Rural zoning districts.

Developed at or Near the One Dwelling Unit Per Five (5) Acres:

| RP54N02W184501A | 10 | R-10/R-5 | 1 Residence |

Within 1200 feet of the subject parcel, there are 16 individual parcels or lots. It appears that approximately 6 of the properties in this area are developed at one dwelling per 5 acres. The closest Rural 5 zoning district borders the subject property to the South.

And/or

Does not meet the criteria for R-10:

The subject property does not appear to be characterized by steep slopes of 30+% or greater, it does not have any identified critical wildlife habitat, it is not within a mapped floodway, it does have access to public services, and it is served by a network of public/private roads. Additionally, there are no prime farmland soils located on the subject property.

Zoning Commission recommendation: APPROVE

Date: October 23, 2025

VOTE: 3-1

Note: This is only a recommendation. The final decision rests with the governing body after the completion of the public hearing and consideration of all relevant oral and written testimony and evidence.

Zone Change - Motion by the Governing Body:

BOARD OF COUNTY COMMISSIONERS

MOTION TO APPROVE: I move to approve this project, FILE ZC0011-25, requesting a zone change from Rural-10 to Rural-5, finding that it is not in conflict with the policies of the Bonner County Comprehensive Plan and Bonner County Revised Code as enumerated in the following conclusions of law:

Conclusion 1

The proposal **is not** in conflict with the policies of the Bonner County Comprehensive Plan.

Conclusion 2

This proposal **was** reviewed for compliance with Title 12, Bonner County Revised Code, and **was** found to be in compliance.

Conclusion 3

The proposal **is** in accord with the purpose of the Rural 5 zoning district, provided at Chapter 3, Title 12, Bonner County Revised Code.

This decision is based upon the evidence submitted up to the time the Staff Report was prepared, and testimony received at this hearing. I further move to adopt the reasoned statement as discussed in deliberation at this hearing and the analysis as set forth in the Staff Report (or as amended during this hearing) and direct planning staff to draft the reasoned statement to reflect this motion as set forth in Idaho Code section 67-6535, have the Chair sign, and transmit to all interested parties. This action does not result in a taking of private property.

Zone Change Ordinance Motion: Roll Call Vote

I move to approve an Ordinance of Bonner County, Idaho, the number to be assigned, citing its authority, and providing for the amendment of the Official Zoning Map of Bonner County by the classification of lands located in Section 18, Township 54 North, Range 02 West, Boise Meridian, Bonner County, Idaho to Rural-5, and providing for an effective date.

BOARD OF COUNTY COMMISSIONERS

MOTION TO DENY: I move to deny this project, FILE ZC0011-25, requesting a zone change from Rural-10 to Rural-5, based upon the following conclusions:

Conclusion 1

The proposal **is/is not** in conflict with the policies of the Bonner County Comprehensive Plan.

Conclusion 2

This proposal was reviewed for compliance with Title 12, Bonner County Revised Code, and **was/was not** found to be in compliance.

Conclusion 3

The proposal **is/is not** in accord with the purpose of the Rural 5 zoning district, provided at Chapter 3, Title 12, Bonner County Revised Code.

This decision is based upon the evidence submitted up to the time the Staff Report was prepared, and testimony received at this hearing. I further move to adopt the reasoned statement as discussed in deliberation at this hearing and the analysis as set forth in the Staff Report (or as amended during this hearing) and direct planning staff to draft the reasoned statement to reflect this motion as set forth in Idaho Code section 67-6535, have the Chair sign, and transmit to all interested parties. This action does not result in a taking of private property. The action that could be taken, if any, to obtain this zone change is to:

1. File a new application with the Planning Department and meet the standards required by Bonner County Revised Code; or
2. Pursue such remedies as may be applicable at Title 67, Chapter 65, Idaho Code.

The complete file is available for review in the Planning Department, 1500 Highway 2, Suite #208, Sandpoint, ID. Staff reports are available online prior to the scheduled hearing at www.bonnercountyid.gov Bonner County Revised Code (BCRC) is available at the Planning Department or online.

REF: ZC0011-25

TO: Dylan Young, Bonner County Planning Department Hearing Coordinator

Matt Mayberry , ATS Advanced Technology Surveying, Inc.– Applicant's Representative

Good morning,

The proposed Application specifies that water will be served from an individual well to provide water uses for "future dwellings" that will be located on each of the 5-acre parcels.

Idaho Department of Water Resources (IDWR) – Northern Regional Office **doesn't have any conditions of approval requirements for the proposed project** but offer the following information as education for the property owners:

- If water use from the proposed private ground water well exceeds water uses authorized by **Idaho Code §42-111** following project completion, a new Application for Permit is required, and the property owner needs to contact IDWR to discuss water right requirements. Based on application analysis I offer the following additional information regarding **§42-111**:
 - The resulting two parcel land division is not considered a subdivision IAW **Idaho Code §50-1301(18)**.
 - The land division is not within a designated Ground Water Management Area.
 - The well is proposed to be shared at some point in the future between two parcels.
 - Domestic Exemption water use authorizes the diversion of water for homes, organizational camps, public campgrounds, or livestock so long as the **total combined use from the well is less than 13,000 gallons per day and less than a total of ½ acre combined irrigation**. So long as these requirements are not exceeded no water right filing is required by the landowner(s).
 - Typically, combined irrigation of more than ½ acre between landowners results the need to file an Application for Permit to be in compliance with State Statute.

I recommend individual property owner(s) both current and future reach out to IDWR to discuss the merits of pursuing recorded water rights, but at this point in time no water right filings are required by nature of the project details provided within ZC0011-25's Application & Narrative.

Thank you for the opportunity to comment,

NOTICE OF PUBLIC HEARING

I hereby certify that a true and correct copy of this "Notice of Public Hearing" was digitally transmitted or mailed (postage prepaid) on this **23rd** day of **September 2025**.

Dylan Young

Dylan Young, Hearing Coordinator

This notice was mailed to political subdivisions, property owners within 300 feet of the subject property, and the media on **Tuesday, September 23, 2025**.

NOTICE IS HEREBY GIVEN that the Bonner County Zoning Commission will hold a public hearing at **5:30 pm on Thursday October 23, 2025** in the Bonner County Administration Building, 1500 Highway 2, Sandpoint, Idaho, by Zoom teleconference, and YouTube Livestream to consider the following request:

File ZC0011-25 – Smith - Rural 10 to Rural 5

The applicant is requesting a Zone Change from Rural 10 to Rural 5. The 10-acre property is zoned Rural 10. The project site is located off Lazy Spade Lane in Section 18, Township 54 North, Range 2 West, Boise-Meridian. The project site is within the service area of Sagle Fire District.

For details regarding this application, Zoom teleconference, or YouTube livestream, visit the Planning Department web site at www.bonnercountyid.gov/departments/Planning. Staff reports are available online or may be viewed at the planning department approximately a week before the scheduled hearing.

Written statements must be submitted to the planning department record no later than seven (7) days prior to the public hearing. Written statements not exceeding one standard letter sized, single spaced page may be submitted at the public hearing. Statements can be sent to the Bonner County Planning Department at 1500 Highway 2, Suite 208, Sandpoint, Idaho 83864; faxed to 866-537-4935 or e-mailed to planning@bonnercountyid.gov. The referenced start time stated above reflects the beginning of the hearing. Specific file start time and hearing duration vary.

During the hearing for this application, the public will be given an opportunity to provide testimony and/or evidence regarding how the proposal does or does not comply with the applicable approval criteria of the Bonner County Revised Code. At the close of the public hearing, the governing body will make a decision on the application that may include, but is not limited to, approval, denial, remand, or continuance of the public hearing. Any person needing special accommodations to participate in the public hearing should contact the Bonner County Planning Department at (208) 265-1458 at least 48 hours prior to the scheduled hearing.

ZC0011-25 Staff Report

The Zoning Commission at the October 23, 2025 public hearing recommended approval of the referenced application.

MOTION TO RECOMMEND APPROVAL: Commissioner Blaser moved to recommend approval to the Board of County Commissioners on the project, FILE ZC0003-25, requesting a zone change from Rural-10 to Rural-5, finding that it is not in conflict with policies of the Bonner County Comprehensive Plan and Bonner County Revised Code as enumerated in the following conclusions of law,

Conclusion 1

The proposal **is not** in conflict with the policies of the Bonner County Comprehensive Plan.

Conclusion 2

This proposal was reviewed for compliance with Title 12, Bonner County Revised Code, and **was** found to be in compliance.

Conclusion 3

The proposal **is** in accord with the purpose of the Rural 5 zoning designation, provided at Chapter 3, Title 12, Bonner County Revised Code.

This recommendation is based upon the evidence submitted up to the time the Staff Report was prepared and testimony received at this hearing. Commissioner Blaser moved to adopt the reasoned statement as discussed in deliberation at this hearing and the analysis as set forth in the Staff Report (or as amended during this hearing) and direct planning staff to draft the reasoned statement to reflect this motion as set forth in Idaho Code section 67-6535, have the Chair sign, and

transmit to all interested parties. This action does not result in a taking of private property.

Commissioner Mauk seconded the motion.

Commissioner Johnson: AYE
Commissioner Poulsen: AYE
Commissioner Blaser: AYE
Commissioner Mauk: NAY

Voted upon and the Chair declared the Motion passed, 3-1.

Please contact the Planning Department if you have any questions.

Sincerely,

LAND USE DECISION-MAKING WORKSHEET ZONE CHANGE RURAL 10 TO RURAL 5

Idaho Code §67-6535 (2): The approval or denial of any application required or authorized pursuant to this chapter shall be in writing and accompanied by a reasoned statement that explains the criteria and standards considered relevant, states the relevant contested facts relied upon, and explains the rationale for the decision based on the applicable provisions of the comprehensive plan, relevant ordinance and statutory provisions, pertinent constitutional principles and factual information contained in the record.

STANDARDS FOR ZONE CHANGE REVIEW:

Prior to rendering a decision on a zone change, the governing body shall review the particular facts and circumstances of each proposed zone change in terms of the following standards and shall find adequate evidence showing that such use at the proposed location will:

| | |
|--------------------|--|
| IC §67-6511 | The governing board shall analyze proposed changes to zoning ordinances to ensure that they are not in conflict with the policies of the adopted comprehensive plan. If the request is found by the governing board to be in conflict with the adopted plan, or would result in demonstrable adverse impacts upon the delivery of services by any political subdivision providing public services, including school districts, within the planning jurisdiction, the governing board may require the request to be submitted to the planning or planning and zoning commission or, in absence of a commission, the governing board may consider an amendment to the comprehensive plan pursuant to the notice and hearing procedures provided in section 67-6509, Idaho Code. After the plan has been amended, the zoning ordinance may then be considered for amendment pursuant to paragraph (b) of this subsection. |
|--------------------|--|

| | | |
|------------|-----------|---|
| YES | NO | List the relevant evidence from the <u>record</u> that supports your conclusion and the rationale for the conclusion. |
|------------|-----------|---|

The Zoning Commission unanimously agreed that this proposal is not in conflict with the policies of the comprehensive plan and adopted the analysis found in the Staff Report.
