Bonner County Road & Bridge has the following comments:

1. In our previous review of this file, we stated that the Applicant would need to file for commercial approach encroachment permits from our department for the proposed entrances into their parcel. The Applicant has done so, and built the approaches to our standards. No further action is required.
2. There has been much discussion of late regarding the public road status of Al's Welding Road. The road was originally a private road, but began receiving maintenance by Bonner County in the 1990's when a Road & Bridge Dept employee lived on the road and drove the grader in and out for winter plowing, which established a precedent which never stopped. Idaho requires only 5 years of public maintenance and public use to establish prescriptive public right of way per Idaho Code 40-202(3). That threshold has been more than adequately met in the ~30 years of public maintenance and public use the road has received, and there is no doubt that the road is a public road at this point, receiving full maintenance by Bonner County.
