The state of our union is a tangle ball of confusion. Planned by design I believe. The issues of climate change and gender confusion are just 2 of the multiple ways the domestic enemies of our County, State and Country are using to destabilize this great Republic. When history is ignored and science loses its laws to relativism we are in serious danger!

Wait this one out folks and before you know it the same o cycle will do it's normal shift and all will be well!

Just say "No" to climate Control in the Comp Plan Policies! Let Idahoans be Idahoans not Californians!
