Hi there,

It is my understanding that there are a handful of people that want to see "climate change" included in our comp plan. I'd like it on record that this constituent (me) does NOT want climate change mentioned in our comp plan. This is a highly controversial subject. My guess is that the few people who want this included do not represent the majority of Bonner County Residents.

My vote is AGAINST including climate change in our comp plan. I am happy to elaborate if needed.

Thank you,

Kristen Dodd
