Hello,

I agree with the many concerns concerning the direction of planning in Bonner Co.

✓ Agreed that meetings be spaced throughout the county at times and locations that taxpayers can attend. Seems that too often officials that Sandpoint IS the total of Bonner Co.

✓ Agreed that planning most often means more revenue as the only goal.. disperse new business throughout the county and support new housing efforts concurrently.

Agreed an eye towards green building and lowering the impact of tourist and new builds and PUBLIC TRANSIT a must to connect expanses of the county.

✓ enough for now thanks for listening
