Thanks for allowing a lot of comments and discussion at this latest workshop. Here's some helpful info from FEMA about floodways and why development should be prohibited there.

<https://www.co.ward.nd.us/DocumentCenter/View/2920/FAQ-Regulating-Within-a-Floodway?bidId=#:~:text=Building%20in%20a%20floodway%20alters,determine%20their%20eligibility%20for%20development>

Also, it sounds like a lot of people are still going to be sending in written comments - some people left earlier who wanted to make comments and now will submit by writing. Their ideas and suggestions deserve as much consideration as those die-hards who stay to the bitter end of the workshop. So I do hope you will consider delaying the public hearing to be able to fully consider and incorporate those suggestions that appear to be common themes, or provide better phrasing that capture commonly held values and community intentions.

Thank you for your thoughtful consideration of our input and for your hard work on this comp plan rewrite.

Thanks!
