Hi Jenna,

Please consider this email as comment from Idaho Department of Fish and Game (IDFG) regarding application V0027-23 submitted by Doug and Julie Heiskell . The purpose of these comments is to assist the decision-making authority by providing technical information addressing potential effects on wildlife and wildlife habitat and how any adverse effects might be mitigated.

Should this variance be granted, IDFG recommends the applicant retain as much of the native vegetation as practicable to maintain a shoreline riparian buffer. Additional native planting would help to ameliorate any negative effects to water quality. This is of increased importance due to the steep topography of the lot.

Thank you for the opportunity to comment,

Merritt Horsmon
