Hi Jenna,

Please consider this email as comment from Idaho Department of Fish and Game (IDFG) regarding application VA0019-23. The purpose of these comments is to assist the decision-making authority by providing technical information addressing potential effects on wildlife and wildlife habitat and how any adverse effects might be mitigated.

IDFG recommends that the applicant follow all current BMP's for sedimentation/erosion during both the demolition and the construction of this project. The area is near one of our known kokanee spawning areas along the shoreline of Priest Lake.

Thank you for the opportunity to review and comment,

Merritt Horsmon
