Bonner County Planning Department:

I reviewed the application for Conditional Use Permit, File MOD0001-24, and have the following comments and recommendations.

The proposed plan for use on this property includes water uses that may require a water right. The application includes property uses that might qualify for **domestic exemption under I.C. Sec. 42-111** (a), but may be satisfied within the limitations of 42-111 (b) if their daily water usage totals no more than 0.04 CFS and 2,500 gallons per day with irrigation of less than ½ acre. We are presently adjudicating water rights in the proposed area of use, and the applicant may be eligible to file a water right claim for any water uses established lawfully through historical beneficial use. If the water uses do not qualify for exemption and were not established prior to the mandatory permit statutes, then an Application for Permit may be needed.

It is recommended that the applicant contact our office for assistance filing a Notice of Claim to a Water Right or an Application for Permit for their water use.

Sincerely,

Tammy Alleman | Water Right Agent
