Which fire district will serve the project sit	e? Northside Fire	
Which power company will serve the proje	ct site? Northern Lig	phts
SITE INFORMATION:		
Please provide a detailed description of the	e following land	features:
Topography (lay of the land), including est Mostly flat, gradually sloping toward the Northwest. Maximum slopes great		um slope, rock outcroppings, benches, etc:
Water courses (lakes, streams, rivers & otl	her bodies of w	ater):
Is site within a floodplain? _ Yes _	No Firm Par	nel #: 16017C0495E Map Designation: X
Springs & wells:		
An existing well in service for Lot 1		
Existing structures (size & use):		
Multiple buildings including single family residence, barns, sheds, and outb	ouildings.	
	· · · · · · · · · · · · · · · · · · ·	
Land cover (timber, pastures, etc): Mostly open p	pasture with treed area at N	W of property.
Are wetlands present on site? 🗌 Yes 🔳 N	No	Source of information: USF&W
Other pertinent information (attach addition	onal pages if ne	eded):

How is the proposed subdivision in accordance with the specific objectives of the comprehensive plan? (Please see attached copy of the goals and objectives):
Property Rights: This proposed subdivision is within the property rights of the owner. No violation of private property rights is proposed.
Population: This proposal creates 1 additional lot, creating a minimal increase in population. Population density will remain typical of the Agricultural/forestry 10 zone.
School Facilities & Transportation: The property exists in the Lake Pend Oreille School District #84 which offers existing bus transportation and schools in Sandpoint and surrounding areas.
Economic Development: This subdivision has the potential to slightly increase the local economy as new residents join the local workforce.
Land Use: Land use will remain compliant with the Agricultural/forestry 10 zone, and stay consistent with the existing land uses and density.
Natural Resources: This proposal does not affect natural resources. The property consists of farmland and pastures that will not be affected by this proposal.
Hazardous Areas: No existing hazardous areas exist on the property. This proposal does not cause risk to nature, property, or people.
Public Services: This proposal will use existing public services as provided to Sandpoint and the surrounding areas.
Transportation: The property has direct access to Nettleingham Road which is a public right-of-way that connects to Highway 95 to the north and Colburn Culver Road to the south.
Recreation: This proposal does not affect recreational facilities or activites in the area.
Special Areas or Sites: This proposal does not affect any special areas or sites in the area.
Housing: This proposal increases the county's potential housing by adding one new lot.
Community Design: The proposed lot design conforms with the rural character of the community and is compatible with surrounding property and land uses.
Implementation: (Not required to complete this element)
I hereby certify that all the information, statements, attachments and exhibits submitted herewith are true to the best of my knowledge. I further grant permission to Bonner County employees and representatives, elected or appointed officials to enter upon the subject land to make examinations, post the property or review the premises relative to the processing of this application.
