The Road & Bridge Department is opposed to this proposed vacation request. Bloom Lake Road has been used for generations by Idahoans to access Dennick Lake, Bloom Lake, and IDL land for the purposes of camping, fishing, hunting, and recreation. Recent efforts to block off that recreational access through the use of gates are disheartening. While we have not been able to locate documentation for the public status of all of Bloom Lake Road, it seems to us that there is an argument that could be made that the notorious public use of this road for decades could constitute some access rights. For our part, Bonner County Road & Bridge would not support a vacation of the documented County-owned portions of public right of way that are under our jurisdiction and which are part of that historical access corridor. Instead, we would like to see a combined effort between IDL, Bonner County, the public, and conservation groups to restore public access to these recreation areas instead of putting the final nail in the coffin and shutting the door for public access forever. It is our opinion that this vacation request would only be for the benefit of a handful of private properties, and would not be in the interest of the greater public good.

Dylan,

NLI is not opposed to the vacation of the public right of way, however, NLI often relies on these platted ROWs to extend electrical services to the platted lots and beyond.

NLI currently does not have utilities or equipment in that portion of right of way to be vacated, but if we were to extend power north, Lot 1 and those lots further north, may lose the entitlement granted by the plat.

This could prove to be problematic for those landowners and residents should the desire an electrical service in the future.

Thanks for allowing the opportunity to review and comment--sincerely,

Samuel Ross
