REF: AM0012-25

TO: Dylan Young, Bonner County Planning Department Hearing Coordinator

Good morning,

Idaho Department of Water Resources (IDWR) – Northern Regional Office offers the following description of the term “subdivision” as applied to State of Idaho Water Statute:

- IDWR evaluates water right filing requirements related to parcels both within and not in named subdivisions. For water right filing purposes/requirements, IDWR uses the definition of “subdivision” as prescribed in **Idaho Code §50-1301(18)**:
 - A tract of land divided into five (5) or more lots, parcels, or sites for future purpose of sale or building development, whether immediate or future; provided that this definition shall not include a bona fide division or partition of agricultural land for agricultural purposes. A bona fide division or partition of agricultural land for agricultural purposes shall mean the division of land into lots, all of which are five (5) acres or larger and maintained as agricultural lands. Cities or counties may adopt their own definition of subdivision in lieu of this definition.
- The above information is intended to provide clarity on the minor differences between how a respective County may code a minor land division versus what water right filing requirements may be required dependent on whether the diversion of water or beneficial use of water occurs within a named subdivision as defined above or not within.

IDWR doesn't have any substantiating comments to provide related to the requested amendment to Bonner County Revised Code, Title 12.

Thank you for the opportunity to comment,

Bates, Luke
