REF: CUP0007-25

TO: Bonner County Planning Department

Good morning,

The proposed Application specifies that the new facility(s) water use shall be supplied by an individual ground water well for 1-2 employees daily and that several monitoring wells shall be constructed to meet IDEQ monitoring requirements for associated land-based treatment system.

Idaho Department of Water Resources (IDWR) – Northern Regional Office **doesn't have any conditional requirements for the proposed project** but offers the following information as education based on planned water use(s):

- If domestic water use from the proposed individual ground water well to meet the 1-2 employee(s) daily use(s) exceeds water uses authorized by Idaho Code §42-111 is anticipated, a new Application for Permit is required, and the City of Spirit Lake needs to contact IDWR to discuss water right requirements. This comment presumes the additional "storage, aeration, disinfection, and distribution to the land application crop" doesn't require diversion of ground water proposed from the new private well; if wastewater treatment requires additional ground water source well pumping a new application for permit may be required.
- All new well construction shall comply with Idaho Code §42-235 and IDAPA 37.03.09 – Well Construction Standards Rules.

Thank you for the opportunity to comment,

Luke Bates – Sr Water Resource Agent
