All,

It is understood that the TIS for the current CUP is just for the redevelopment of the existing parking lot on the north side of Lakeshore. ITD would have additional comments and required improvements for the full build out of the approved 270 slips based on the Idaho Department of Lands marina expansion permit.

Any future expansion that would include development of additional parking on the south side of Lakeshore Drive on parcel # RP00234007001BA will require improvements for access and pedestrian traffic between parcels serving the marina.
