The Idaho Transportation Department (ITD) would like to provide the following comments regarding the proposed Comprehensive Plan Amendment under AM 0001-15.

ITD is neutral on the proposed Comprehensive Map change from Rural Residential 5-10AC to Transition. The subject parcel has an existing unpermitted approach onto US-95 approximately 250' south of Dufort Road. Applicant is requested to apply for access encroachment permit from ITD. Approach Permits can be applied for online at: <https://gisp.itd.idaho.gov/portal/apps/sites/#/itd-permits/pages/approaches>

ITD would like the applicant to be informed about the Department's ongoing efforts for the expansion of US-95 from Dufort Rd to Lakeshore Dr. In the early 2000s, ITD completed two complex environmental documents for US-95 in northern Idaho.

- US-95 Sandpoint North and South Environmental Impact Statement (1999) and Environmental Assessment (2005)
- US-95 Garwood to Sagle Environmental Impact Statement (2010)

Both studies included part of the US-95 Dufort Road to Lakeshore Drive project area. They identified future needs and potential improvements to US-95. They also identified how highway improvements could impact the environment. For more information on the proposed improvements to US-95 in the area the applicant is encouraged to visit the project website: <https://itdprojects.idaho.gov/pages/us-95-dufort-to-lakeshore>

ITD needs more information on the increase of traffic volumes the commercial updates will cause. Specifically, an estimate of the number of cars using E Dufort Rd from US-95 for this particular commercial business.

Idaho Transportation has no comment if they access the property through Dufort Road. The approach they have off of US 95 is not permitted and must be either permitted if they want to use it or obliterated.

If they want to permit it they can pay here: <https://otc.cdc.nicusa.com/Public2.aspx?portal=id&organization=ITD%20Online%20-%20District%201>

And apply here: <https://survey123.arcgis.com/share/a2d69aa0e44c403e8182b92724c6dd3e?portalUrl=https://gisp.itd.idaho.gov/portal>

NLI is not opposed to project AM0001-25.

The parcel at 475 Old Highway 95 and 22 E Dufort Rd has a "residential" electrical service.

Changes to this line and service may be needed to accommodate those land uses permitted in the Transition Land Use Designation and subsequent zoning districts. The cost of these changes will be at the expense of the applicant/owner.

Thank you for allowing us to review and comment-- sincerely,

RE: AM0001-25

Panhandle Health District (PHD) has reviewed the Bonner County Planning Application referenced above, and has the following comments regarding the proposed zone change:

- The applicant states that the existing plumbed structures are served by an Individual Sewage Disposal System. A review of PHD records did not find any septic permits associated with this parcel (RP56N02W320651A). It is unclear whether this home is discharging to an approved septic system (permitted or valid vested right).
- If the proposal involves an increase in wastewater flows or a change-of-use from the original use (i.e - residential to commercial or industrial) the applicant must contact PHD to discuss the feasibility of the proposal. A septic system capable of meeting all current standards as established by the Idaho Subsurface Sewage Disposal Rules IDAPA 58.01.03 will be required.

PHD recommends that the applicant contacts PHD as early into the planning process as possible to determine whether the project as proposed is feasible.
