

Mr. David Weeks, Water Quality Engineer
Idaho Department of Environmental Quality
1410 N. Hilton St.
Boise, ID 83706

Feb. 12, 2025

Mr. Scott Brown, P.E.
1319 North Division Ave.
Sandpoint, Idaho 83864

Mr. Weeks:

This is a will-service letter for Mr. Brown and his future potential housing development on Bottle Bay Road in Sagle, ID. Mountain Springs Water Corporation has the capacity of potable water to provide 29 additional water hook ups for Mr. Brown. Currently he has two additional hook ups in operation. This will serve letter is valid through February 12, 2026. It replaces all previous will serve letters.

Mountain Springs Water Corporation has reviewed and accepted the proposed plans and specifications as presented by Mr. Brown. The board of directors has voted and approved to own and operate all parts of the water distribution system associated with the Bahia Del Sol development. The transfer of ownership will occur after the project has been completed, inspected and approved by DEQ with the condition that Bahia Del Sol will take financial responsibility for any repairs or deficiencies in the first year of operation.

If you have further questions, please call me at 208-610-5266.

Sincerely,

Gerald H. Lewis DVM
