Subj: File V0024-25 – Variance – Waterfront Setback

Appendices: (A) File V0024-25 Hearing Examiner Reasoned Statement
(B) File V0024-25 Hearing Examiner Approved Site Plan

Dear Applicant,

The Bonner County Hearing Examiner approved the referenced application with conditions. Hearing Examiner Rucker approved this project V0024-25, requesting a Variance for a 0' waterfront setback where 40' is required for the construction of a deck, finding that it **is** in accord with the Bonner County Revised Code as enumerated in the following conclusions of law:

Conclusion 1

Conditions apply to the property that **do not** apply generally to other properties in the same zone or vicinity, which conditions are a result of lot size, shape, topography, or other circumstances over which the applicant has no control.

Conclusion 2

Special conditions and circumstances **do not** result from the actions of the applicant.

Conclusion 3

The granting of the variance **is not** in conflict with the public interest in that it **will not** be detrimental to the public health, safety, or welfare, or materially injurious to properties or improvements in the vicinity of the subject parcel or lot. (Ord. 559, 142017)

This decision is based upon the evidence submitted up to the time the Staff Report was prepared and testimony received at the Hearing. Hearing Examiner Rucker has provided a Reasoned Statement attached as Appendix A, adopts the analysis provided in the Staff Report (or as amended in the adopted reasoned statement), and directs Planning Staff to transmit this decision to all interested parties.

The action that could be taken to obtain the variance is to complete the Conditions of Approval as adopted. This action does not result in the taking of private property.

CONDITIONS OF APPROVAL:

- A-1.** Only the development highlighted on the site plan has been reviewed for variance standards. All other development shown must comply with Bonner County Revised Code.
- A-2.** This variance shall not supersede any deed restrictions.
- A-3.** A Floodplain Development permit shall be required for the highlighted development.
- A-4.** A Building Location Permit may be required.
- A-5.** At the time of Building Location Permit, the applicant shall submit a grading, stormwater and erosion control plan, in accordance with BCRC 12-7.2.

Bonner County Revised Code, Section 12-262, provides an opportunity for affected persons to appeal Hearing Examiner decisions with the Planning Director within 28 days after the final written decision of the Hearing Examiner has been issued. Any such appeal must be submitted in accordance with the referenced code section no later than **5:00 p.m., November 4, 2025. AN APPEAL SHALL BE ACCOMPANIED BY A FILING FEE IN ACCORDANCE WITH THE APPROVED FEE SCHEDULE. THE FEES ARE PAYABLE TO THE BONNER COUNTY PLANNING DEPARTMENT.**

NOTE: Following any final decision concerning a site-specific land use request, the applicant has a right to request a regulatory taking analysis pursuant to Section 67- 8003, Idaho Code (*Idaho Code §67-6535(3)*).

Please contact the Planning Department if you have any questions.

Sincerely,

Jacqueline Rucker
Bonner County Hearing Examiner

Appendix A: Reasoned Statement for V0024-25

Per Idaho Code §67-6516:

“A Variance shall not be considered a right or special privilege, but may be granted to an applicant only upon a showing of undue hardship because of characteristics of the site and that the variance is not in conflict with the public interest.”

The following is the supporting evidence that I, Jacqueline S Rucker, Bonner County Hearing Examiner used to determine my decision.

1. BRCR 12-232: General Provisions

a. Evidence:

This Variance application is seeking a 0' waterfront setback where 40 feet is required for the expansion of two existing decks.

2. BRCR 12-233: Application, contents

a. Evidence:

In accordance with BCRC 12-233, the applicant submitted all of the required documents, and the application was deemed complete by the Bonner County Planning Department on August 20, 2025.

3. BCRC 12-234: Variance, standards for review of applications

A. Conclusion 1:

Conditions apply to the property that **do not** apply generally to other properties in the same zone or vicinity, which conditions are a result of lot size, shape, topography, or other circumstances over which the applicant has no control.

1. Evidence:

The subject property has slopes of 30+% over nearly the entire parcel and split by Bottle Bay Road creating a very small and challenging portion for any development.

B. Conclusion 2:

Special conditions and circumstances **do not** result from the actions of the applicant.

1. Evidence:

Per the Bonner County Assessor's data, the original dwelling was constructed in 1975. The applicants purchased the subject property on September 13, 2024, under instrument #1038190.

C. Conclusion 3:

The granting of the variance **is not** in conflict with the public interest in that it **will not** be detrimental to the public health, safety, or welfare, or materially injurious to properties or improvements in the vicinity of the subject parcel or lot. (Ord. 559, 1 4 2017)

1. Evidence:

The Idaho Department of Environmental Quality expressed concerns regarding water quality and stormwater runoff. However, the upgrading of the existing decks does not increase the current footprint but does improve the safety and structural integrity of both decks.

No other agency or public comments were submitted on this request that show evidence that the proposed variance could affect public health, safety, or welfare or be materially injurious to properties or improvements in the vicinity of the subject property.

4. BCRC 12-711, Shoreline Setbacks

a. Evidence:

The subject property contains frontage on Lake Pend Oreille. Per BCRC 12-711 A.1 lakes have a 40' setback for all structures. While this request is proposing a deviation from this standard to allow for a 0' setback, the proposed improvements to the existing decks will not change the current footprint which sits at the 0' point of the 40' setback.

5. BCRC 12-7.2 et seq.: Grading/Erosion/Stormwater Management

a. Evidence:

Stormwater Management concerns will be addressed during the Building Location Permit phase in accordance with BCRC 12-720. No further review is required for this project.

6. BCRC 14-303: Establishment of Floodplain Development Permit

a. Evidence:

Per BCRC 14-303, a Floodplain Development Permit shall be required prior to any development activities due to the fact that the subject parcel is within SFHA Zone AE per FIRM Panel Number 16017C0750E, Effective Date 11/18/2009.

**BONNER COUNTY PLANNING DEPARTMENT
HEARING EXAMINER
STAFF REPORT FOR OCTOBER 1, 2025**

Project Name: **Campbell – Waterfront Setback**

File Number,Type: **FILE #V0024-25**

Request: The applicant is requesting a 0' waterfront setback where 40' is required for the construction of a deck.

Legal Description: 19-57N-1W TAX 10

Location: The project site is located off Bottle Bay Road in Section 19, Township 57 North, Range 1 West, Boise-Meridian.

Parcel Number: RP57N01W196501A

Parcel Size: 6.04-acres

Applicant/Property Owner: Ian Campbell
4501 Bottle Bay Road
Sagle, ID 83860

Application filed: June 17, 2025

Notice provided: Mail: September 2, 2025
Site Posting: September 16, 2025
Published in newspaper: September 2, 2025

Appendices: Appendix A – Notice of Public Hearing Record of Mailing
Appendix B – Agency Comments

Site Plan

Project summary:

The applicant is requesting a 0' waterfront setback where 40 feet is required for the expansion of two existing decks. The 6.04-acre property is zoned Rural 5 (R-5). The project site is located off Bottle Bay Road in Section 19, Township 57 North, Range 1 West, Boise-Meridian.

Applicable laws:

The following sections of BCRC, Title 12, apply to this project:

BCRC 12-232, General provisions
BCRC 12-233, Application, contents
BCRC 12-234, Variance, standards for review of applications
BCRC 12-711, Shoreline Setbacks
BCRC 12-7.2, et seq., Grading/erosion/stormwater management
BCRC 12-800 et seq., Definitions
BCRC 14-303 Establishment of Floodplain Development Permit

Background:

A. Site data:

Land Use: Residential
Unplatted
Size: 6.04-acres
Zoning Designation: Rural 5 (R-5)
Comp Plan Designation: Rural Residential (5-10 AC)

B. Access:

Bottle Bay Road, a Bonner County owned and maintained public right-of-way.

C. Environmental factors:

Site does contain mapped slopes. (USGS)
Site does not contain mapped wetlands. (USFWS)
Site does contain frontage on Lake Pend Oreille.
Parcel is within SFHA Zone AE and Zone X per FIRM Panel Number 16017C0750E, Effective Date 11/18/2009.

D. Services:

- Water: Individual Well
- Sewage: Individual Septic
- Fire: Sagle Fire District
- Power: Avista Utilities
- School District: Lake Pend Oreille School District #84

E. Comprehensive Plan, Zoning and Current Land Use

Compass	Comp Plan	Zoning	Current Land Use & Density
Site	Rural Residential (5-10 AC)	Rural 5	Residential, 6.04-acres
North	Rural Residential (5-10 AC)	Rural 5	Residential, 15.35-acres
East	Lake Pend Oreille	N/A	N/A
South	Rural Residential (5-10 AC)	Rural 10	Residential, 5.36
West	Rural Residential (5-10 AC)	Rural 5	Residential, 15.35-acres

F. BCRC 12-232, General Provisions

In accordance with BCRC 12-232, the applicant is seeking a 100% variance to waterfront setbacks.

G. BCRC 12-233, Application, contents

In accordance with BCRC 12-233, the applicant submitted all the required documents and the application was deemed complete on August 20, 2025.

H. BCRC 12-234, Variances, standards for review of applications

BCRC 12-234 specifies that "The staff, Zoning Commission, hearing examiner and/or Board shall review the particular facts and circumstances of each proposal submitted. To grant a variance, the hearing examiner or the Governing Body must find adequate evidence showing that:"

- (a) Conditions apply to the property that do not apply generally to other properties in the same zone or vicinity, which conditions are a result of lot size, shape, topography, or other circumstances over which the applicant has no control.**

Applicant: "The lot has only a small fraction of usable building site land adjacent to Lake Pend Oreille. The rest of the land is at an extreme slope (45 degrees or greater- a cliff, essentially. A house and separated garage structure were built on the only usable land in the early 70's. A primary and secondary deck were constructed about that time. Both decks are now in significant disrepair and are unsafe and unsightly. Our plan is to improve both decks for both safety and for better appearance from the lake."

Staff: According to GIS LiDAR data, the subject property appears to be primarily made up of slopes of 30+%. The parcel also contains direct frontage on Lake Pend Oreille and is within FEMA SFHA Zone AE and Zone X. SFHA Zone AE does require Floodplain Development permitting.

Bottle Bay Road cuts through the subject property, leaving a small strip of land on the lakeside portion of the property. This long, narrow strip of land is where the existing development on the property lies. The remaining portion of the property, on the West side of Bottle Bay Road, is heavily sloped and would prove challenging to develop.

- (b) Special conditions and circumstances do not result from the actions of the applicant.**

Applicant: "The only action the applicant took was purchasing the parcel in Sept. 2024"

Staff: The applicant acquired the subject property via Warranty Deed, Instrument No. 1038190, recorded on September 13, 2024. According to Assessor data, the original dwelling was constructed in 1975. Based on this information the applicant had no control over the original location of the structure. Per the application and narrative,

the purpose of this variance is to reconstruct and expand existing decks to improve safety and aesthetics.

- (c) The granting of the variance is not in conflict with the public interest in that it will not be detrimental to the public health, safety, or welfare, or materially injurious to properties or improvements in the vicinity of the subject parcel or lot.**

Applicant: "Approval of the variance to improve the decks will not be detrimental to the public health, safety, or welfare, or materially injurious to properties or improvements in the vicinity. Improving the appearance of the decks, house, and garage structure will create a more beautiful lake."

Staff: Idaho Department of Environmental Quality submitted a comment highlighting the importance of development setbacks in protecting water quality. DEQ also recognizes that there are sometimes unique circumstances that may justify reduced setbacks and exceptions should be considered carefully by the local jurisdiction and used only when necessary to accommodate unique circumstances.

No other comments from the public or any public agency or taxing district were received that stated that the proposed project would be detrimental to the public health, safety, or welfare or be materially injurious to the surrounding properties or improvements within the vicinity of this project.

I. BCRC 12-711, Shoreline Setbacks

The subject property contains frontage on Lake Pend Oreille. Per BCRC 12-711 A.1 lakes have a 40' setback for all structures. This request is proposing a deviation from this standard to allow for a 0' setback.

J. Stormwater plan

Stormwater Management concerns will be addressed during the Building Location Permit phase in accordance with BCRC 12-720. No further review is required for this project.

K. BCRC 14-303: Establishment of Floodplain Development Permit

Per BCRC 14-303, a Floodplain Development Permit shall be required in conformance with the provisions of this title prior to the commencement of any development activities within Special Flood Hazard Areas determined in accordance with the provisions of BCRC 14-402.

The subject parcel is within SFHA Zone AE and Zone X per FIRM Panel Number 16017C0750E, Effective Date 11/18/2009. Per the submitted site plan and county GIS, the proposed development occurs within SFHA Zone AE. A floodplain development permit is required.

L. Agency Review

Agencies were notified of this project on September 2, 2025. A full list of the agencies notified can be found in the attached Appendix A.

The following agencies commented:

Idaho Department of Environmental Quality
Panhandle Health District

The following agencies replied "No Comment":

Idaho Transportation Department
Idaho Department of Water Resources
Kootenai Ponderay Sewer District
Idaho Department of Fish and Game
Bonner County Historical Society

All other agencies did not reply.

Public Notice & Comments

At the time this Staff Report was prepared, no public comments were received.

Planner's Initials: KS Date: 09/25/2025 Note:
The final decision rests with the governing body after the completion of the public hearing and consideration of all relevant oral and written testimony and evidence.

Conditions of approval:

- A-1** Only the development highlighted on the site plan has been reviewed for variance standards. All other development shown must comply with Bonner County Revised Code.

- A-2** This variance shall not supersede any deed restrictions.

- A-3** A Building Location Permit shall be required for the highlighted development.

- A-4** At the time of Building Location Permit, the applicant shall submit a grading, stormwater, and erosion control plan, in accordance with BCRC 12-7.2.

- A-5** A Floodplain Development Permit shall be required for the highlighted development.

The complete file is available for review in the Planning Department, 1500 Highway 2, Suite #208, Sandpoint, ID. Some file application material is available online at www.bonnercountyid.gov Bonner County Revised Code (BCRC) is available at the Planning Department or online.

DEQ Comments <deqcomments@deq.idaho.gov>

Fri, Sep 12, 2025 at 3:11 PM

To: Bonner County Planning Department <planning@bonnercountyid.gov>

Development setbacks from stream banks and lake shorelines are an important tool for protecting water quality. Riparian vegetation provides natural filtration of stormwater runoff and provides numerous other benefits to promote healthy surface water ecology. DEQ recognizes that there are sometimes unique circumstances that may justify reduced setbacks. While an individual variance likely has a relatively small impact on water quality, the cumulative impact of development in close proximity to shorelines and stream banks is a significant threat to water quality. DEQ advises local government planning departments to maintain established setbacks whenever possible. Exceptions should be considered carefully by the local jurisdiction and used only when absolutely necessary to accommodate unique circumstances.

If you have any questions about the comments this project has received please contact:

- Katy Baker-Casile for engineering and wastewater.
- Anna Moody for drinking water.
- Shawn Sweetapple for air quality.
- Kevin Aardahl for remediation or RCRA.
- Robert Steed for surface water and setback requirements.

Thank you-

NOTICE OF PUBLIC HEARING

I hereby certify that a true and correct copy of this "Notice of Public Hearing" was digitally transmitted or mailed (postage prepaid) on this **2nd** day of **September 2025**.

Dylan Young

Dylan Young, Hearing Coordinator

This notice was mailed to political subdivisions, property owners within 300 feet of the subject property, and the media on **Tuesday, September 2, 2025**.

NOTICE IS HEREBY GIVEN that the Hearing Examiner will hold a public hearing at **1:30 pm** on **Wednesday, October 1, 2025** in the Bonner County Administration Building, 1500 Highway 2, Sandpoint, Idaho, by Zoom teleconference, and YouTube Livestream to consider the following request:

File V0024-25 - Variance - Waterfront Setback

The applicant is requesting a 0' waterfront setback where 40' is required for the construction of a deck. The ≈6-acre property is zoned Rural-5. The project site is located off Bottle Bay Road in Section 19, Township 57 North, Range 01 West, Boise-Meridian. The project site is within the service areas of Sagle Fire District and Lake Pend Oreille School District #84.

For details regarding this application, Zoom teleconference, or YouTube livestream, visit the Planning Department web site at www.bonnercountyyid.gov/departments/Planning. Staff reports are available online or may be viewed at the planning department approximately a week before the scheduled hearing.

Written statements must be submitted to the planning department record no later than seven (7) days prior to the public hearing. Written statements not exceeding one standard letter sized, single spaced page may be submitted at the public hearing. Statements can be sent to the Bonner County Planning Department at 1500 Highway 2, Suite 208, Sandpoint, Idaho 83864; faxed to 866-537-4935 or e-mailed to planning@bonnercountyyid.gov. The referenced start time stated above reflects the beginning of the hearing. Specific file start time and hearing duration vary.

During the hearing for this application, the public will be given an opportunity to provide testimony and/or evidence regarding how the proposal does or does not comply with the applicable approval criteria of the Bonner County Revised Code. At the close of the public hearing, the governing body will make a decision on the application that may include, but is not limited to, approval, denial, remand, or continuance of the public hearing. Any person needing special accommodations to participate in the public hearing should contact the Bonner County Planning Department at (208) 265-1458 at least 48 hours prior to the scheduled hearing.

If you have no comment or response, you may indicate below and return this form to the Planning Department.

RE: V0024-25 Variance Waterfront Setback

Panhandle Health District has reviewed the Bonner County Planning Application referenced above for RP57N01W196501A (4501 Bottle Bay Road), and has the following comments:

A review of PHD records indicates that parcel associated with this variance application has been served by an Individual Sewage Disposal System (01-09-0403). The deck does not discharge wastewater and would not affect septic. PHD would caution the applicant regarding future construction activities occurring within the vicinity of the septic tank: No parking, driving or structures over the septic tank/ pump chamber; structures must meet a minimum 5-foot setback to the septic tank(s) and/or effluent lines. NOTE: Any future PHD approvals for BLPs will require the submittal of a site plan showing the new construction and how it meets setbacks to septic.

Best Regards,

Sarah Tonyan, REHS
