FROM: Jeff Armstrong, Fire Chief

RE: File ZC0012-25

To Whom it May Concern:

This letter is intended to provide comments in **opposition** to File ZC0012-25 and the request for a zone change from *suburban* to *commercial* on the ~7.175 acre parcel on N Riley Creek in Laclede.

Selkirk Fire (Westside Fire District) is unable to support the rezoning due to a lack of fire protection resources. Currently, the staffing level of the Westside Fire District is one (1) firefighter per day, with an estimated response time of 14 minutes. Additional response and mutual aid (if available) will have a response time of 18-22 minutes. At any standard, this is woefully inadequate to provide for fire protection of development and permissible occupancies defined under Bonner County Code, 12-325 (Commercial).

Understanding the County may still choose to approve the request, the applicant and County should have realistic expectations of the service provided. The applicant should also understand that any development in the area will be subject to a fire review and the application of the requirements of the 2018 International Fire Code, specifically fire flow and suppression systems.
