TO: Dylan Young, Bonner County Planning Department Hearing Coordinator

SixPak LLC C/O Lou Munilla - Applicant

7B Engineering Inc. C/O Travis Haller – Applicant's Representative

Good morning,

The proposed Application specifies there isn't a need for water services but if water use needs arise a private ground water well will be designated/constructed for use.

Idaho Department of Water Resources (IDWR) – Northern Regional Office **doesn't have any conditions of approval requirements for the proposed project** but offer the following information as education for the property owners:

- If water use from the proposed private ground water well exceeds water uses authorized by **Idaho Code §42-111** following project completion, a new Application for Permit is required, and the property owner needs to contact IDWR to discuss water right requirements. Based on application analysis I offer the following additional information regarding **§42-111**:
 - The land division is not within a designated Ground Water Management Area.
 - Any future private ground water well development is not proposed to be a shared well between owners.
 - Domestic Exemption water use authorizes the diversion of water designated by **§42-111(1)(a)(ii)** The use of water for any other purpose, if the total use does not exceed a diversion volume of 2.8-acre-feet per year. This use is typical for light industry/light commercial uses where water usage is minimal and may provide coverage for a variety of uses associated with restrooms, office building, or fire suppression system(s) if applicable.

At this point in time no water right filings are required by nature of the project details provided within ZC0012-25's Application & Narrative.

Thank you for the opportunity to comment,

Bates, Luke

Dylan,

NLI is not opposed to the proposed commercial zone change.

NLI maintains a 3-phase overhead line along the west edge of N Riley Creek Rd and along the southern lot line parallel to those adjacent lots.

This line can be extended to Lot 1 for future commercial (three phase or single phase) services.

Thanks for the opportunity to review and comment--sincerely,

Samuel Ross
