

**BONNER COUNTY PLANNING DEPARTMENT
BONNER COUNTY ZONING COMMISSION
STAFF REPORT FOR FEBRUARY 12, 2026**

Project Name: Full Throttle Small Engine Repair, LLC

File Number, Type: HO0007-25, Home Occupation III

Request: The applicant is requesting a Home Occupation Permit Tier 3 for small engine and automobile repair services.

Legal Description: 1-55N-4W TAX 8

Location: The project is located off Vay Road in Section 1, Township 55 North, Range 4 West, Boise-Meridian.

Parcel Number: RP55N04W018200A

Parcel Size: ~5.66-acres

Applicant: Rodney E Williams
5124 Vay Road
Priest River, ID 83856

Project Representative: Colton Williams
5124 Vay Road
Priest River, ID 83856

Property owner: Same as applicant

Application filed: November 18, 2025

Notice provided: Mail: January 6, 2026
Site Posting: January 27, 2026
Published in newspaper: January 6, 2026

Enclosure: Appendix A – Notice of Public Hearing Record of Mailing
Appendix B – Agency Comments

Site Plan

Project summary:

The applicant is requesting a Home Occupation Permit Tier 3 for small engine and automobile repair services. The ≈ 5.660 -acre property is zoned Rural 5. The project site is located off Vay Road in Section 1, Township 55 North, Range 04 West, Boise-Meridian.

Applicable laws:

The following sections of BCRC, Title 12, apply to this project:

- BCRC 12-220, et seq, conditional use permit, application and standards
- BCRC 12-333, Commercial Use Table
- BCRC 12-411, Density and Dimensional Standards; Forestry, Agricultural/Forestry and Rural Zones.
- BCRC 12-4.2, Performance standards for all uses
- BCRC 12-4.3, Parking standards
- BCRC 12-4.4, Sign standards
- BCRC 12-4.5, Design standards
- BCRC 12-4.6, Landscaping and screening standards
- BCRC 12-4.8, Standards for Specific Uses (Home Occupation I, II, and III)
- BCRC 12-7.2, Grading, stormwater management and erosion control

Background:

A. Site data:

- Residential
- Unplatted
- Size: ~5.66 acres
- Zone: Rural-5
- Land Use: Rural Residential (5-10 AC)

B. Access:

- Vay Road, a Bonner County owned and maintained public right-of-way.

C. Environmental factors:

- Site does not contain mapped slopes, per USGS.
- Site does not contain mapped wetlands. (USFWS)
- Site does not contain a mapped river/stream/frontage on lake.
- Floodplain Review: Parcel is within SFHA Zone X per FIRM Panel Number 16017C0895E, Effective Date 11/18/2009.

D. Services:

- Water: Individual Well
- Sewage: Individual Septic System
- Fire: Sagle Fire District
- Power: Northern Lights Inc.
- School District: West Bonner School District #83

E. Comprehensive Plan, Zoning and Current Land Use

Compass	Comp Plan	Zoning	Current Land Use & Density
Site	Rural Residential (5-10 AC)	Rural 5 (R-5)	Residential, 5.66-acres
North	Rural Residential (5-10 AC)	Rural 5 (R-5)	Residential, 7.23-acres
East	Rural Residential (5-10 AC)	Rural 5 (R-5)	Public (Church), 5.003-acres
South	Rural Residential (5-10 AC)	Rural 5 (R-5)	Residential, 5.101-acres
West	Rural Residential (5-10 AC)	Rural 5 (R-5)	Residential, 50.521-acres

F. Agency Review

Taxing districts and agencies were notified of this project on January 6, 2026. A full list of the agencies noticed is attached as Appendix A of this Staff Report.

The following agencies commented:

Idaho Department of Water Resources
Bonner County Planning-Floodplain Review

The following agencies replied "No Comment":

Idaho Department of Environmental Quality

Idaho Department of Fish and Game
Kootenai/Ponderay Sewer District
Idaho Transportation Department
TC Energy

All other agencies did not reply.

Public Notice & Comments

As of the date of the staff report, the Planning Department has received public comments on this project.

Standards Review and Staff Analysis:

BCRC 12-223: CONDITIONAL USE PERMITS, STANDARDS FOR REVIEW OF APPLICATIONS, PROCEDURES:

The Zoning Commission or Hearing Examiner, except as otherwise provided in this title, is charged with conducting at least one public hearing on the conditional use permit application, at which time interested persons shall have an opportunity to be heard. The Zoning Commission or Hearing Examiner shall review the particular facts and circumstances of each proposal submitted. To grant a conditional use permit, the Zoning Commission or Hearing Examiner must find that the proposal is not in conflict with the policies of the comprehensive plan, as found in the adopted Implementation Component, and that the proposed use will neither create a hazard nor be dangerous to persons on or adjacent to the property.

BCRC 12-333, Commercial Use Table (Home Occupation III)

Use	Zoning District								
	F	A/F	R	S	C	I	RSC	REC	AV
Home Occupation III (14)		C (2)	C (2)	C	P		P	C	C

- (2) Where access to the site is by road, the road shall be located within a recorded easement or public right of way, and constructed to provide adequate emergency vehicle access (including, but not limited to, fire, medical, and law enforcement), except where subject to the terms of an approved special use permit issued by a state or federal agency.

STAFF: The subject property has direct frontage on Vay Road, a Bonner County owned and maintained public right-of-way.

- (14) Use subject to the applicable home occupation permit per standards in section 12-489 of this title.

STAFF: This staff report contains a separate analysis of BCRC 12-489 regarding this proposal.

BCRC 12-411: Density and Dimensional Standards; Forestry, Agricultural/Forestry and Rural Zones

STAFF: Based on Table 4-1, under BCRC 12-411, the required property line setback for structures in the R-5 zone is 25 feet. The structure proposed for use was permitted at 40 feet from the property line and passed final inspection on 9/6/2017. It is shown on the site plan as being 33 feet from the property line along the road, meeting this standard.

BCRC 12-421, Performance standards for all uses

No land or building in any district shall be used or occupied in any manner creating dangerous, injurious, or otherwise objectionable conditions which could adversely affect the surrounding areas or adjoining premises, except that any use permitted by this title may be undertaken and maintained if acceptable measures and safeguards to reduce dangerous and objectionable conditions to acceptable limits as established by the following performance requirements:

A: Fire Hazards: Any activity involving the use or storage of flammable or explosive materials shall be protected by adequate firefighting and fire prevention equipment. Such hazards shall be kept removed from adjacent activities to a distance which is compatible with the potential fire danger involved as specified in the international fire code as adopted by the state of Idaho. (See also section 12-487 of this chapter.)

Staff: See Conditions of Approval.

B: Radioactivity Or Electrical Disturbance: No activity shall emit harmful radioactivity at any point, or electrical disturbance adversely affecting the operation of any equipment at any point other than that of the creator of such disturbance.

Staff: No harmful radioactivity or electrical disturbances are anticipated from the proposed use.

C: Noise: "Objectionable noise", as defined in this subsection, which is due to volume, frequency or beat shall be muffled or otherwise controlled. Air raid sirens and related apparatus used solely for public purposes are exempt from the requirement. "Objectionable noise" is defined as:

1. Residential land use resulting in greater than sixty (60) decibels at the property line of the lot or parcel developed with the residential land use.
2. Commercial land use resulting in greater than sixty five (65) decibels at the property line of the lot or parcel developed with the commercial land use.
3. Industrial land use resulting in greater than seventy (70) decibels at the property line of the lot or parcel developed with the industrial land use.

Staff: Per the applicant, the hours of operation are 8am to 4pm, Monday through Friday. Noise associated with tools and work will be minimized by the work being done inside the insulated shop during these times. **See Conditions of Approval.**

D: Vibration: No vibration shall be permitted which is discernible without the use of vibration detection instruments on any adjoining lot or property.

Staff: Per the applicant, no vibrations will result from this use. **See Conditions of Approval.**

E: Air Pollution: Any use must be operated and maintained in conformance with the minimum air pollution control standards and regulations established by the health authority.

Staff: **See Conditions of Approval.**

G: Water Pollution: Any use must be operated and maintained to conformance with the minimum water pollution control standards and regulations established by the health authority.

Staff: **See Conditions of Approval.**

H: Enforcement Provisions: The planning director, prior to giving zoning approval, may require the submission of statements and plans indicating the manner in which dangerous and objectionable elements involved in processing and in equipment operations are to be eliminated or reduced to acceptable limits and tolerances.

Staff: **See Conditions of Approval.**

I: Measurement Procedures: Methods and procedures for the determination of the existence of any dangerous and objectionable elements shall conform to applicable standard measurement procedures published by the American Standards Institute, New York; the Manufacturing Chemists' Association, Inc., Washington, D.C.; the United States bureau of mines; and the health authority.

Staff: **See Conditions of Approval.**

BCRC 12-4.3, Parking standards

REQUIRED: Parking spaces required shall be exclusive of drives and access lanes and each space will be provided with adequate ingress and egress.

STAFF: See analysis of BCRC 12-489 for parking requirements.

BCRC 12-4.4, Sign standards

STAFF: Per applicant, one sign not exceeding 4 sq. ft. will be affixed to the side of the building.

BCRC 12-4.5, Design standards

BCRC 12-451 Applicability

The standards in section 12-453 of this chapter apply to all new development in the commercial, industrial where commercial uses and services are proposed, and rural service

center district, as well as all other commercial, multi-family, public and industrial development in other zoning districts unless otherwise noted.

STAFF: The existing structure associated with this proposed use will require a Change of Use Permit to be submitted to the Planning Department. **See Conditions of Approval.**

BCRC 12-453 (F): Lighting Standards

1. Lighting shall be directed downward to the intended area to be lighted. All exterior lighting fixtures shall incorporate cutoff shields to prevent spillover into residential areas. Broadcast lighting fixtures that project lighting outward rather than downward are discouraged. Outdoor lighting shall be arranged so that the light is directed downward and away from adjoining properties. Temporary high intensity construction lights should be oriented so as to reduce or eliminate glare onto adjoining properties.
2. Freestanding light fixtures shall be limited to fourteen feet (14') in height.
3. Vehicular roadway and highway lighting shall be subject to the county requirements.
4. Mercury vapor light fixtures are prohibited.
5. When using decorative miniature lighting strings, bulbs larger than eleven (11) watts each shall not be used. Low wattage, light emitting diode devices and other lighting that reduces electrical use is encouraged.
6. Backlit awnings are prohibited.

STAFF: The applicant is not proposing any lighting beyond the one exterior entrance light already existing on the face of the shop, directed away from the roadway. **See Conditions of Approval.**

BCRC 12-4.6, Landscaping and screening standards

BCRC 12-461: Applicability

The standards in this subchapter shall apply to all new development in the commercial, industrial and rural service center districts and all other commercial, multi-family, public and industrial development in other districts unless otherwise noted. For remodels or additions, the standards in this subchapter shall apply where the value of the additions equals or exceeds fifty percent (50%) of the market value of the existing structure and/or site improvements as determined by the Bonner County assessor's office over any five (5) year time period. For other additions or remodels, the landscaping standards shall only apply to the specific areas being improved. For instance, if a commercial use is adding additional parking, the new parking area must feature landscaping per the standards in this subchapter.

STAFF: This standard does not apply, as the structure is existing, and there are no improvements being made. The existing parking and outdoor storage is blocked from public view by the structure and natural vegetation.

BCRC 12-489, Home Occupations I, II, and III

Home Occupation II Standards:

- a. Is carried out by those residing in the dwelling and up to two (2) additional employees.

STAFF: The applicant is not proposing any additional employees, beyond those residing on the premises.

- b. Use is clearly incidental and secondary to the use of the property for dwelling purposes.

STAFF: The applicant is the landowner and resides on the property.

- c. Whereas the business activity may be conducted in other than the dwelling, there shall be no visible evidence of the conduct of such home occupation other than one sign, not exceeding four (4) square feet in area, nonilluminated and meeting applicable setback requirements.

STAFF: The applicant is proposing one sign on the side of the building, which will not exceed 4 sq. ft. Per the applicant's site plan, the existing structure where the proposed use will be operated meets the applicable setback requirements of the zoning district. It was permitted under BLP2016-0084, showing a 40-foot setback, and passed a final inspection on 9/16/2017.

- d. Customers/clients may come to the site, provided the following criteria are met:
(1) Where access to the site is by road, the road shall meet minimum private road standards set forth in [appendix A](#) of this title.

STAFF: The subject property has direct frontage on Vay Road, a Bonner County owned and maintained public right-of-way.

(2) Sales in connection with the activity are limited to merchandise handcrafted on site or items accessory to a service (i.e., hair care products for beauty salon).

(3) Customers/clients are prohibited on the premises prior to six o'clock (6:00) A.M. and after eight o'clock (8:00) P.M.

STAFF: The applicant is proposing to operate between 8am-4pm, Monday through Friday. There are no sales or retail operations proposed, other than the sale of mechanical parts used in the commission of the service.

- e. Vehicular traffic generated by such home occupation shall not exceed fourteen (14) vehicle trips per day on average. Any need for parking generated by the conduct of such occupation shall be met off the street and other than in a required front or side yard.

STAFF: Home Occupation III standards increase this standard to 18 vehicle trips per day on average. **See analysis below.**

- f. Certain activities are prohibited:
(1) Automobile, truck and heavy equipment repair;
(2) Auto body work or painting;

- (3) Parking and storage of heavy equipment;
- (4) Stables, kennels, animal husbandry or farming activities, except as provided in this title;
- (5) Any activities involving more than five (5) customer or business visits per day; and
- (6) Any use of a nature that is similar to those listed in this section or which creates impacts on the surrounding neighborhood similar to those created by the uses listed in this section.

STAFF: Automobile, truck, and heavy equipment repair is allowed under Home Occupation Permit III standards. **See analysis below.**

- g. Additional parking requirements:
 - (1) One for a nonresident (if applicable).
 - (2) One for patrons if services are rendered on site.

STAFF: The applicant submitted a site plan showing a large parking area sufficient for this requirement.

- h. No equipment or process shall be used in such home occupation which creates objectionable noise, vibration, glare, fumes, odors or electrical interference.

STAFF: Per the applicant, the hours of operation are 8am to 4pm, Monday through Friday. Noise associated with tools and work will be minimized by the work being done inside the insulated shop during these times.

- i. Manufacturing shall be limited to the small-scale assembly of already manufactured parts, but does not preclude production of small, individually handcrafted items, furniture or other wood items as long as the activity meets the other standards of this chapter.

STAFF: This application does not propose manufacturing parts beyond the listed standard.

Home Occupation III: Subject to a conditional use permit and the same performance standards as home occupation II, with the following exceptions and/or additions:

- 1. Is carried out by those residing in the dwelling and up to four (4) additional employees.

STAFF: The applicant is not proposing any additional employees, beyond those residing on the premises.

- 2. Limited activities and outside storage of materials and/or equipment are permitted, provided the site is sufficiently screened from the street and surrounding properties, as determined by the Zoning Commission.

STAFF: The applicant's site plan shows outdoor parking/storage on the West side of the structure, opposite the road. **See Conditions of Approval.**

3. Vehicular traffic generated by such home occupation shall not exceed eighteen (18) vehicle trips per day on average.

STAFF: The applicant has proposed a maximum of 3 customers per day. **See Conditions of Approval.**

4. Automobile, truck, heavy equipment and small engine repair may be considered as a tier III home occupation, and are subject to the following minimum standards:

a. Outdoor activity associated with the repair business shall be limited to a maximum of two percent (2%) of the total site acreage or to a specified area established by the Zoning Commission or hearing examiner. Landscaping and screening to provide buffering for outdoor storage of equipment or materials shall be provided in accord with section 12-465, table 4-5 of this chapter.

b. An accessory structure for the repair business not to exceed one thousand five hundred (1,500) square feet may be permitted.

c. No more than three (3) vehicles associated with the repair business which are being repaired or awaiting repairs shall be stored on the site at any given time.

d. The business shall comply with all building, fire and environmental code regulations established by local, state or federal jurisdictions.

e. The business owner shall provide an annual written report to the planning department confirming continued compliance with these standards and any other conditions of permit approval. (Ord. 501, 11-18-2008; amd. Ord. 661, 3-18-2022)

STAFF: The subject parcel is 5.660-acres. 2% of this area is 4931 sq. ft. that the applicant may utilize for outdoor activity associated with the repair business. The applicant has indicated that 3 vehicles may be stored outside. BCRC 12-431 (B) states that parking spaces shall be no less than 200 sq. ft. in area. This proposal would equal 600 sq. ft. of outdoor storage being used. The site plan submitted shows an approximate 1400 sq. ft. parking area.

The applicant has an existing 5000 sq. ft. shop and is proposing to utilize just 1,500 square feet for this use, rather than constructing a new building. The applicant is expecting up to 3 customers per day, and at no time shall the use have more than three (3) vehicles under repair or awaiting repair stored on the site at any given time.

See Conditions of Approval.

BCRC 12-7.2, Grading, stormwater management and erosion control

STAFF: A grading, stormwater management, and erosion control plan, in accordance with 12-7.2, may be required at the time of Building Location Permit.
SEE CONDITIONS OF APPROVAL.

G. Comprehensive Plan Land Use Designation

Rural Residential:

The Rural Residential area provides for residential development in areas where urban services are not available and slopes may vary up to 30%. These areas include hazard areas and critical wildlife habitats, where lower densities reduce potential impacts to resources and exposures to loss of property or lives. Small-scale agricultural uses and residential development are permitted.

Comprehensive Plan Analysis:

Property Right

Policies:

1. Follow the attorney general's checklist, prescribed at Idaho Code §67-8003 and provided in the "Property Rights" component of the county's comprehensive plan, for all land use decisions.
2. Adopt a reasoned statement and conclusions of law, in accordance with Idaho Code 67-6535, for all quasi-judicial land use decisions that reflect the justifications for exactions, conditions and restrictions and confirm that a taking of private property has not occurred.
3. In all land use decisions, consider the property rights of the applicant, adjoining and nearby landowners and future generations, as well as the short-term and long-term consequences of decisions.
4. Review all rezoning requests (down-zoning and up-zoning) pursuant to the Idaho State Code, Title 67, Chapter 65 – Local Land Use Planning Act. The approval of

conditional rezoning or denial of a request for rezoning is subject to the regulatory taking analysis provided for by Idaho Code Section 67-8003.

Applicant: We are the owners of the property, conducting business on our property.

Staff: The application was routed to landowners within 300' of the property lines, informing them of the proposed Home Occupation; one public comment has been received, regarding a non-existing code section. This proposal has been reviewed for compliance with Bonner County Revised Code and a reasoned statement will be adopted with the decision of this project, in accordance Idaho Code 67-6535. This proposal does not appear to be in conflict with the policies of this component.

Population

Policies:

1. Regularly analyze population projections to determine if changes need to be made to the Comprehensive Plan Goals, Objectives and Policies and/or the Zoning Ordinance, to ensure that the public and community needs are being met through land use decisions.
2. Use population forecasts and census data to evaluate housing and impacts to the transportation system and other county services.
3. Cooperate with incorporated cities and neighboring counties to address growth challenges within the Areas of Impact and coordinate planning efforts to the extent possible.

Applicant: No response.

Staff: Bonner County, according to 2022 population estimates census data, has seen a 9.1% increase in population since the 2020 census was performed; increasing from 47,105 to an estimated 51,414. With the increase in the population, there is an upward pressure on housing needs in Bonner County, both in the unincorporated portion of the County, and in the incorporated cities. This proposal does not change density of the subject parcel and does not appear to be in conflict with the policies of this component.

School Facilities & Transportation

Policies:

1. Current data regarding school capacity and transportation issues as provided by the School Districts will be included in the assessment of all land use proposals.
2. Consider the impacts of land use proposals on the school service and seek mitigation from developers such as providing facilities, safety features, or other measures as permitted by Idaho Code, to address the impacts of the proposals.
3. Encourage school districts to proactively review development applications to determine particular school needs and concerns.

4. Encourage construction of trails and bicycle paths to allow safe passage of students to and from schools.
5. Consider the long-term consequences of land use proposals, including the adequacy of existing school facilities, transportation services, and the siting of future schools.

Applicant: None.

Staff: West Bonner School District #83 was notified of the proposed conditional use permit; no comments were received. This proposal does not appear to be in conflict with the policies of this component.

Economic Development

Policies:

1. Allow small scale cottage businesses and home occupations in all areas of the county. Set reasonable conditions on such uses to minimize adverse impacts to the neighborhood based on factors including, but not limited to, hours of operation and traffic volume generated by the business.
2. Develop land use regulations to allow the county's agricultural heritage to be maintained by enabling local food production, distribution, congregation, and retail sales. Examples include community gardens, school gardens, farm related education programs, farmers or public markets, and other small-scale, collaborative initiatives.
3. Develop standards for commercial and industrial development that are appropriate for the surrounding community, including: appropriate site sizes, use types, buffering and design standards that encourage both attractive and efficient function while protecting the environment.
4. Mitigate the potential impacts of economic development activities that cause adverse factors such as noise, light glare, odors, fumes and vibrations on the surrounding community.
5. Support local economic development by increasing support for outdoor recreation in the county. Encourage and protect public access to public lands and water, while protecting the surrounding areas from adverse impacts through mitigation and standards.
6. Allow for campgrounds and recreational uses while protecting the surrounding areas from adverse impacts through mitigation and standards.
7. Support local businesses by enabling development of workforce housing in proximity to commercial, industrial, agricultural, and recreational uses, through review and updating of land use regulations.

Applicant: None.

Staff: This proposal for a Home Occupation Permit is supported by policy 1 of this component. This proposal does not appear to be in conflict with the other policies of this component.

Land Use

Policies:

1. Develop and maintain a Future Land Use Map and Land Use Regulations that acknowledge and preserve the County's agricultural, timber and mining lands, water and wildlife resources, and identify and avoid hazard areas. Provide areas for economic growth, encourage affordable housing and center growth in areas where adequate public and private services can be provided.
2. Encourage clustered development for medium and large scale commercial and industrial uses.
3. Commercial and industrial uses should be located and operated in a manner to ensure the protection of our natural resources including clean air and water, dark skies, and overall environmental quality and rural character of the county.
4. Reflect in the use tables that commercial and industrial uses should be unconditionally permitted in areas identified by the Comprehensive Plan as suitable and zoned for those uses. Evaluation of suitability should be based on availability of urban services, adequate access to hard surfaced publicly maintained roads and other factors that may impact the surrounding community.
5. Reflect in the use tables that commercial and industrial uses may be conditionally permitted in areas not identified for such uses in the Comprehensive Plan if a critical review of the proposed use determines that with appropriate conditions the use will not adversely impact the surrounding area.
6. Based upon the land use analysis completed in 2025, a sufficient number of residential parcels exist or could be created within current zoning density. Therefore, modification of zoning to provide increased density should be rare.
7. Land use applications should be supported by a review, evaluation, or approval by the applicable state agency for sanitary services.
8. Consider avenues to create incentives for land conservation through zoning and subdivision laws to preserve various significant archaeological, ecological, historical, wildlife, and scenic sites that have been recognized in the county as unique and important to preserve.
9. Minimize the creation of lots that cannot receive the appropriate sanitary services.
10. Maintain the Alpine Village zoning district to provide adequate design and development standards for the high-density recreational community with steep slopes and heavy snowfall at elevations above 3500'.

11. Urban development is better suited in urban areas. Idaho Code 67-6502 (a through m) promotes the health, safety and general welfare of the people of the state. Subsection (f) encourages urban and urban type development within incorporated cities. All nine cities within the county provide or are associated with urban water and sewer systems which allow and depend on higher density to make the services fiscally feasible and sustainable.
12. Due to the wildfire threat in the county, consider evacuation routes when making land use decisions and updating land use code.
13. The mapping of land use designations should have homogeneity with the surrounding area. Areas have specific, individual land use designations which results in homogeneity across the landscape. Islands of different land use designations defy the sense of rural context, especially if the land uses are markedly dissimilar.
14. The land uses describe the general uses and characteristics of each of the map designations. Since the Comprehensive Plan Map covers approximately 1.1 million acres, the map is general in nature, and it is recognized that some areas may have or may lack features and characteristics that cause them to differ somewhat from what is in their land use description. It is not reasonable to expect that every parcel within a land use designation will conform to every detail of the geographic characteristics of the area as a whole.

Applicant: Residential and business.

Staff: The proposed Home Occupation Permit III is a conditionally permitted use in the Rural-5 zone. Appropriate conditions will be in place to help minimize any adverse impacts on the surrounding area.

Natural Resources

Policies:

1. Institute best management practices for waterway setbacks to reduce erosion and sedimentation into waterways.
2. Design development standards that encourage clustered development resulting in the preservation of open space and wildlife habitat.
3. Recognize critical wildlife habitats, as identified by US Fish and Wildlife, and create development standards to protect these areas and mitigate development impacts to these habitats.
4. Protect water quality by creating standards for development in close proximity to shorelines.
5. Provide a copy (physical copy or digital link) of the Lake Assist Guidebook to property owners or their representatives applying for a building location permit on shoreline properties. Make a digital link to the Guidebook available via the Planning Department web page.

6. Implement shoreline development land use regulations that address those areas where the County can enforce such regulations effectively.
7. To the extent of the County's jurisdiction, and consistent with the Clean Water Act, protect delineated wetlands.
8. Identify and protect productive farmland, timberland and mining lands from adverse effects of adjoining developments.

Applicant: None.

Staff: This site does not contain any water courses, wetlands, floodplains or critical wildlife habitat. This proposal does not appear to be in conflict with the policies of this component.

Hazardous Areas

Policies:

1. Adopt flood mitigation standards that meet or exceed the National Flood Insurance Program minimum requirements.
2. Discourage residential, commercial or industrial development within floodways.
3. Discourage fill within the floodplain.
4. Integrate the county's wildland fire policies and plans into development standards.
5. Identify and discourage developments on excessive slopes with lower density zoning in these areas.
6. Establish regulation and development densities of new development in floodplains. Regulate the location and density of new development in floodplains to reduce the potential for the loss of lives and property in those areas.
7. Land divisions should be designed to reduce exposure to wildland fire and to provide for adequate ingress and egress routes as determined by the applicable Fire Authority Having Jurisdiction.
8. Discourage the issuance of building location permits within areas of excessive slopes, unstable areas and avalanche zones.

Applicant: None.

Staff: The area of use on the subject property is not located within a mapped floodplain. Furthermore, the property is provided with emergency services. This proposal does not appear to be in conflict with the policies of this component.

Public Services, Facilities & Utilities

Policies:

1. Encourage high-density development to take place within the boundaries of existing sewer and water districts with adequate capacity.
2. Seek comments from existing service providers on their ability to serve future developments without adversely impacting the ability of the utility providers to serve current users.
3. Provide adequate facilities for responsible disposal of solid waste to protect the health and welfare of the public as well as the County's natural resources.
4. New development should be adequately served by fire protection, roads, sanitary services, schools, law enforcement, ambulance, power and emergency services, and other public services as determined by the relevant service provider.
5. Require developers to provide infrastructure, utilities or financial support to offset the capital costs of expansion of services required by the proposed development.
6. Require adequate provisions for future utility services in areas of commercial, industrial, residential or other similar uses.

Applicant: None.

Staff: This proposal does not appear to be in conflict with the policies of this component.

Transportation**Policies:**

1. Develop and regularly update a long-term County highway system plan to ensure reasonable levels of service can be maintained in the future, and that needs for future road extensions or transportation corridors are identified as early as possible.
2. Discourage development in areas that are not served by county standard roads or where transportation is inadequate.
3. Future development should not adversely impact the existing County highway system by significantly reducing the quality or level of service or creating hazards or congestion.
4. Roads are encouraged to be built to County Standards and at the expense of the developer.
5. Roads within new development should provide adequate access for fire and emergency vehicles as well as routes of escape.
6. Future access roads should be designed and built to integrate with the State and County systems of roads without overburdening the County highway system.

7. Encourage cluster development to reduce transportation costs, road building and environmental impacts.
8. The county intends for certain intense land use developments to provide hard surfaced roads.
9. Consider bike ways and pedestrian paths in development plans to provide an integrated community County highway system wherever possible.
10. To communicate and work cooperatively with other jurisdictions within the county to ensure the best possible flow of traffic county-wide.

Applicant: None.

Staff: The subject property has direct frontage on a Bonner County owned and maintained road. This proposal does not appear to be in conflict with the policies of this component.

Recreation

Policies:

1. Develop a waterways and public land access program to preserve and develop access to public recreational lands and waterways. The program should include retaining access parcels that may be acquired from tax sales or private donations.
2. Protect and encourage public and private recreational opportunities as an important asset that supports a key segment of the County's economy.
3. Consider a plan for a system of green belts and pathways (bike and pedestrian) as areas developed, so that a connected system can be developed and preserved. Under no circumstances will the County require recreational access easements on private property as a condition of development. This policy does not preclude providing voluntary incentives to developers in return for recreational access easements.
4. Ensure the public's legal recreational accesses and amenities are not obstructed or adversely impacted by future development.
5. Adverse impacts of recreational development on adjacent neighborhoods should be mitigated.

Applicant: None.

Staff: Current recreational opportunities for the general public that are available in Bonner County are expected to remain the same with this proposal.

Special Areas or Sites

Policies:

1. Develop a generalized map of the known pre-historic and historic sites so that future developments are aware of special areas of concern and are connected with the historical society and Native American tribes for appropriate preservation and protection.
2. Implement roadside development standards for recognized scenic byways to protect the view sheds.
3. Recognize and address Special areas when development is proposed in these areas.
4. Confirm if historical structures or sites exist within a land use application area, and if identified coordinate with the applicable agency.

Applicant: None.

Staff: This proposal does not appear to conflict with the policies of this component.

Housing

Policies:

1. Enable development of a variety of housing options including manufactured home parks, and tiny home communities located in areas that are compatible with their density.
2. Coordinate with municipalities and private parties to explore solutions for various types of housing projects and developments in areas appropriate for their level of density.
3. Encourage clustering of housing in developments to save on infrastructure and transportation costs through mechanisms such as density bonuses.
4. Provide opportunities for assisted living and group shelters.
5. Enable temporary and seasonal employee labor housing in direct proximity to agricultural, commercial, recreational, and industrial uses or where infrastructure and emergency services support those uses.

Applicant: Single dwelling and small guest house for the owners.

Staff: This proposal will not have an effect on the housing in Bonner County and therefore does not appear to be in conflict with the policies of this component.

Community Design

Policies:

1. To promote and preserve the natural features and rural atmosphere of the community, enact development standards that address development within scenic byways and design standards that account for waterfront setbacks, commercial and industrial landscaping, requirements for reduced lighting, cluster development,

rural rather than urban setback standards, and other design objectives aimed at preserving the rural, natural character of the community.

2. Allow unique and flexible design standards such that new development within older neighborhoods and historic settlements is compatible with those unique neighborhoods.
3. Allow particularized design standards to address the unique environmental conditions of waterfront and mountaintop developments which may differ from standard design objectives.
4. Locate new development in areas with similar densities and compatible uses.
5. The adverse impacts of new development on adjacent areas should be minimized.
6. Consider the protection of natural resources, rural features and surrounding uses of the community in the design and location of new development.

Applicant: No response.

Staff: Conditions will be applied to this proposal that mitigate/reduce the effect on neighboring properties. This proposal does not appear to be in conflict with the policies of this component.

Agriculture

Policies:

1. Continue allowing residential uses consistent with the allowable density in Agricultural zoning districts.
2. Protect agricultural uses and activities from land use conflicts or interference created by residential, commercial or industrial development.
3. Enable farm-based family businesses on agricultural parcels with land use regulations. Examples include farm stands and other agri-business pursuits.
4. The County acknowledges the provisions of Idaho State's Right to Farm Act. Those shall be considered in the land use decisions.
5. Support the local economy by encouraging production, distribution, and retail sales of locally grown food and other agricultural products.
6. Protect environmental quality so that agriculture continues to be a viable use in the County.

Applicant: None.

Staff: This proposal does not appear to conflict with the policies of this component.

Planner's Initials: DF

Date: February 5, 2026

Note: The final decision rests with the governing body after the completion of the public hearing and consideration of all relevant oral and written testimony and evidence.

Decision by the governing body:

ZONING COMMISSION

MOTION TO APPROVE: I move to approve this project, FILE HO0007-25, for a Home Occupation Permit Tier III for small engine and automobile repair services, located in Section 1, Township 55 North, Range 4 West, Boise Meridian, finding that it is in accord with the Bonner County Revised Code as enumerated in the following conclusions of law:

Conclusion 1

The proposed conditional use permit **is not** in conflict with the policies of the Comprehensive Plan.

Conclusion 2

This proposal was reviewed for compliance with Title 12, Bonner County Revised Code, and **was** found to be in compliance.

Conclusion 3

The proposed use **will not** create a hazard and **will not** be dangerous to persons on or adjacent to the property.

This decision is based upon the evidence submitted up to the time the Staff Report was prepared and testimony received at this hearing. I further adopt the reasoned statement as discussed in deliberation at this hearing and the analysis as set forth in the Staff Report (or as amended during this hearing) and direct planning staff to draft the reasoned statements to reflect this motion as set forth in Idaho Code section 67-6535, have the Chair sign, and transmit to all interested parties. This action does not result in the taking of private property. The action that could be taken to obtain the approval of the Conditional Use Permit is to complete the Conditions of Approval as adopted.

MOTION TO DENY: I move to deny this project, FILE HO0007-25, for a Home Occupation Permit Tier III for small engine and automobile repair services, located in Section 1, Township 55 North, Range 4 West, Boise Meridian, based upon the following conclusions:

Conclusion 1

The proposed conditional use permit **is/is not** in conflict with the policies of the Comprehensive Plan.

Conclusion 2

This proposal was reviewed for compliance with Title 12, Bonner County Revised Code, and **was/was not** found to be in compliance.

Conclusion 3

The proposed use **will/will not** create a hazard and **will/will not** be dangerous to persons on or adjacent to the property.

This decision is based upon the evidence submitted up to the time the Staff Report was prepared, and testimony received at this hearing. I further adopt the reasoned statement as discussed in deliberation at this hearing and the analysis as set forth in the Staff Report (or as amended during this hearing) and direct planning staff to draft the reasoned statements to reflect this motion as set forth in Idaho Code section 67-6535, have the Chair sign, and transmit to all interested parties. This action does not result in a taking of private property. The action that could be taken, if any, to obtain the conditional use permit is to:

1. File a new application with the Planning Department and meet the standards required by Bonner County Revised Code; or
2. Pursue such remedies as may be applicable at Title 67, Chapter 65, Idaho Code.

Conditions of approval:

Standard continuing permit conditions. To be met for the life of the use:

- A-1** The use shall be developed and shall be operated in accordance with the approved site plan.
- A-2** The Conditional Use Permit shall not supersede deed restrictions.
- A-3** The Conditional Use Permit shall expire if not issued within two (2) calendar years from the date of approval, or once issued, if the use has not commenced within two (2) calendar years from the date of issuance. At any time prior to the expiration date of the Conditional Use Permit, the applicant may make a written request to the Planning Director for an extension of the Conditional Use Permit for a period up to two (2) years. The Planning and Zoning Commission may consider such request for extension at any public hearing. The extension request must be approved or denied prior to the expiration date of the Conditional Use Permit.
- A-4** The requirements of BCRC 12-421, or as hereafter amended, shall be met for the life of the use.
- A-5** Outdoor activity associated with the repair business shall be limited to a maximum of two percent (2%) of the total site acreage or to a specified area established by the Zoning Commission or hearing examiner. Landscaping and screening to provide buffering for outdoor storage of equipment or materials shall be provided in accord with section 12-465, table 4-5 of this chapter.
- A-6** The portion of the structure used for the repair business not to exceed one thousand five hundred (1,500) square feet.
- A-7** No more than three (3) vehicles associated with the repair business which are being repaired or awaiting repairs shall be stored on the site at any given time.

- A-8** The business shall comply with all building, fire and environmental code regulations established by local, state or federal jurisdictions.
- A-9** The business owner shall provide an annual written report to the planning department confirming continued compliance with these standards and any other conditions of permit approval.
- A-10** Parking spots for at least three (3) vehicles are required for the proposed use.
- A-11** A landscape plan, in accordance with BCRC 12-465, Table 4-5, shall be submitted at the time of building location permit.
- A-12** The applicant shall apply for a Building Location Permit for the Change of Use to the existing structure.
- A-13** A grading, stormwater management, and erosion control plan, in accordance with 12-7.2, may be required at the time of Building Location Permit.
- A-14** Total employees shall not exceed those residing in the dwelling and up to four (4) additional employees.
- A-15** Vehicular traffic generated by such home occupation shall not exceed eighteen (18) vehicle trips per day on average.
- A-16** A lighting plan, in accordance with BCRC 12-453 (F), shall be submitted at the time of Building Location Permit.

The complete file is available for review in the Planning Department, 1500 Highway 2, Suite #208, Sandpoint, ID. Staff reports are available online prior to the hearing at www.bonnercountyid.gov Bonner County Revised Code (BCRC) is available at the Planning Department or online.

TO: Bonner County Planning Department

Good morning,

Idaho Department of Water Resources (IDWR) has received a Notice of Claim in the Clark Fork Pend Oreille River Basin Adjudication (CFPRBA) process, Water Right No. 96-16794, associated with Domestic use from a ground water well by Rod & Debbie Williams, that if recommended as claimed provides domestic water use on parcel RP55N04W018200A.

HO0007-25 contemplates development of property for auto repair/service shop related functions that don't specify additional water use(s) specific to auto maintenance functions. IDWR doesn't assess any additional water right requirements related to this small business application.

Thank you for the opportunity to comment,

**From:** Bonner County Planning Department <planning@bonnercountyid.gov>**Sent:** Tuesday, January 6, 2026 11:38 AM**To:** Alan Brinkmeier <alan.brinkmeier@bonnercountyid.gov>; Amber Burgess <clerk@ebsewerdistrict.com>; Army Corps of Engineers <CENWW-RD-CDA@usace.army.mil>; Avista Copr - Jay West <jay.west@avistacorp.com>; Avista Corp - Peggy George <peggy.george@avistacorp.com>; Becky Meyer <becky.meyer@lposd.org>; Bill Berg <billb@bbsewer.org>; Bonner County Assessors <assessorsgroup@bonnercountyid.gov>; BONNER COUNTY HISTORICAL SOCIETY AND MUSEUM

NOTICE OF PUBLIC HEARING

I hereby certify that a true and correct copy of this "Notice of Public Hearing" was digitally transmitted or mailed (postage prepaid) on this 6th day of **January 2026**.

Jeanne L. Welter
Jeanne Welter, Systems Technician

This notice was mailed to political subdivisions, property owners within 1400 feet of the subject property, and the media on **Tuesday, January 6, 2026**.

NOTICE IS HERBY GIVEN that the Bonner County Zoning Commission will hold a public hearing at **5:30 pm on Thursday, February 12, 2026**, in the Bonner County Administration Building, 1500 Highway 2, Sandpoint, Idaho, by Zoom teleconference, and YouTube Livestream to consider the following requests:

File HO0007-25 – Home Occupation Tier 3 – Small Engine & Automotive Repair: The applicant is requesting a Home Occupation Permit Tier 3 for small engine and automobile repair services. The ≈5.660-acre property is zoned Rural 5. The project site is located off Vay Road in Section 1, Township 55 North, Range 04 West, Boise-Meridian. The project site is within the service areas of Sagle Fire District and West Bonner School District #83.

For details regarding this application, Zoom teleconference, or YouTube livestream, visit the Planning Department web site at www.bonnercountyid.gov/departments/Planning. Staff reports are available online or may be viewed at the planning department approximately a week before the scheduled hearing.

Written statements must be submitted to the planning department record no later than seven (7) days prior to the public hearing. Written statements not exceeding one standard letter sized, single spaced page may be submitted at the public hearing. Statements can be sent to the Bonner County Planning Department at 1500 Highway 2, Suite 208, Sandpoint, Idaho 83864; faxed to 866-537-4935 or e-mailed to planning@bonnercountyid.gov. The referenced start time stated above reflects the beginning of the hearing. Specific file start time and hearing duration vary.

During the hearing for this application, the public will be given an opportunity to provide testimony and/or evidence regarding how the proposal does or does not comply with the applicable approval criteria of the Bonner County Revised Code. At the close of the public hearing, the governing body will make a decision on the application that may include, but is not limited to, approval, denial, remand, or continuance of the public hearing. Any person needing special accommodations to participate in the public hearing should contact the Bonner County Planning Department at (208) 265-1458 at least 48 hours prior to the scheduled hearing.

If you have no comment or response, you may indicate below and return this form to the Planning Department.
