[EXT SENDER] RE: Bonner County Planning - File S0004-25 - Agency Review

1 message

DEQ Comments <deqcomments@deq.idaho.gov>

Wed, Jan 7, 2026 at 9:53 AM

To: Bonner County Planning Department <planning@bonnercountyid.gov>

The subject application and supporting file documents for S0004-25 meets the definition of a public drinking water system. The applicant/owners are required to meet the Idaho Rules for Public Drinking Water Systems (IDAPA 58.01.08).

The applicant/owners were notified of this requirement during in person meetings with the Idaho Department of Environmental Quality April 15 and May 8, 2025. Subsequent correspondence indicated the plat would be for 4 lots, as indicated in the originally hydrogeological review and now is listed as 10 lots.

- The well location and construction must first be assessed and approved by DEQ, with an *in-person* site visit. If it cannot be approved to meet Idaho Rules, another drinking water site and source must be approved. This includes the submittal of a well site evaluation report by an Idaho licensed professional engineer or professional geologist.
- DEQ issued comments on the preliminary Well Site Evaluation on September 5, 2025. No revised submittal has been received by DEQ to date. DEQ approval must be received prior to the construction of any water system component.
- A facility plan and preliminary engineering report (PER) developed by an Idaho licensed professional engineer, which includes relevant requirements listed in IDAPA 58.01.08 Section 500 through 560, must be submitted to and approved by DEQ.
- Plans and specifications for the drinking water infrastructure to serve this project must be submitted to DEQ by an Idaho licensed professional engineer and approved by DEQ before commencing construction, and the well pump test must be performed and approved in accordance with DEQ requirements.
- Initial water quality monitoring must be performed.
- Additionally, requirements may include demonstration of Technical, Financial, and Managerial capacity, and the future need for a licensed water system operator.
- Contact DEQ, Coeur d'Alene for further information and to discuss this project - (208) 769-1422.

If you have any questions about the comments this project has received please contact:

- Katy Baker-Casile for engineering and wastewater.
- Anna Moody for drinking water.
- Shawn Sweetapple for air quality.
- Kevin Aardahl for remediation or RCRA.
- Robert Steed for surface water and setback requirements.

Thank you-

IDAHO DEPARTMENT OF FISH AND GAME

PANHANDLE REGION

2885 West Kathleen Avenue

Coeur d'Alene, Idaho 83815

Brad Little / Governor
Jim Fredericks / Director

January 12, 2026

Bonner County Planning Department
1500 Highway 2, Suite 208
Sandpoint, ID 83864

REFERENCE: S0004-25 – Pack Acres

The Idaho Department of Fish and Game (IDFG) has reviewed the above-named application proposing to divide one (1) approximately 12.75 acre parcel into ten (10) lots, ranging in size from approximately 1 to 3 acres. The parcel is zoned Industrial and is within the Spirit Lake area of impact located off Old Forest Road. The purpose of these comments is to assist the decision-making authority by providing technical information that can be used to minimize fish and wildlife impacts.

Each new subdivision displaces wildlife, fragments habitat, restricts animal movements, and permanently reduces the capability of Bonner County to support future wildlife populations. The following suggestions, if implemented and included in covenants where applicable, will reduce but not ameliorate impacts to wildlife from this proposal. Unfortunately, other proposals in this area will likely follow in the future, leading to additional cumulative impacts to the County's wildlife populations.

There are no waterways or wetlands located on the property. The property is bordered by a large, intact State of Idaho parcel to the east, and rural development on all other sides. It is currently partially timbered and mostly flat.

Deer and turkey may remain in the area and may be problematic to residents. The area is rurally developed, and the large, intact tract of timber to the east provides wildlife habitat. Moose, elk, black bear, and mountain lion may occasionally pass through. The Department will not be responsible for losses of domestic animals (dogs, cats, livestock), ornamental plants, or private property.

As the amount of suburban development in the area continues to grow, we have seen an increase in the number of deer and elk caught in fencing. Wrought-iron fences have proven particularly hazardous to deer in suburban areas, with adults impaled on fence spikes and fawns trapped between bars. This can be disturbing to residents, may damage property, and creates an undue burden on IDFG staff resources. If perimeter fencing cannot be avoided, we recommend wildlife-

Keeping Idaho's Wildlife Heritage

Equal Opportunity Employer • 208-769-1414 • Fax: 208-769-1418 • Idaho Relay (TDD) Service: 1-800-377-3529 • <https://idfg.idaho.gov>

friendly fencing (such as post and rail) that allows animals to move through unrestricted. Woven wire and chain link fencing result in entanglement and injury to deer and elk. Exclusion fencing (e.g., chain link with slats, wood slat) is recommended for smaller areas such as gardens or pet runs. Wildlife friendly fencing guides are available online.

Subdivision development in rural areas and along busy highways will increase traffic and contribute directly to injury and mortality of numerous birds, reptiles, amphibians, small mammals, deer, and elk from vehicle collisions. Further development in the area may increase this hazard to both wildlife and drivers.

Recommendations:

- As much natural vegetation and timber as practical for construction and fire prevention be left intact
- All exterior lighting be downcast

The following are general wildlife considerations for residential development:

- 1) Avoid storing residential garbage outside, bear-proof dumpsters should be used, and an adequate garbage collection system should be designed and implemented.
- 2) Due to several recent incidences of big game mortality due to the ingestion of yew, Idaho Fish and Game strongly discourages the planting of any toxic yew species in the proposed subdivision. Four types of yew or their hybrids are commonly found in residential and commercial landscapes across the west. Japanese yew is the most common type planted in Idaho. All four are toxic to a variety of animals, including domestic livestock, horses, wild ungulates (deer and elk), dogs, cats, and humans:
 - Japanese yew (*Taxus cuspidate*)—native to Japan and neighboring regions; many varieties are widely planted in the US; a shrub or small tree, with some varieties reaching 40 feet tall.
 - English yew or European yew (*Taxus baccata*)—native to Eurasia; many varieties are widely planted in the US; a shrub or small tree, with some varieties reaching 50 feet tall.
 - Chinese yew (*Taxus chinensis*, *T. sumatrana*, *T. celebica*)—native to Asia; a few varieties of these three species are sometime planted in the US; a shrub or small tree.
 - Canadian yew, Northern yew (*Taxus canadensis*)—native to eastern North America; a few varieties are planted in the US; a low-growing shrub to 5 feet tall.
- 3) Residents should be informed on how to avoid attracting bears, raccoons, and skunks. For instance, cleaning barbecue grills frequently, to avoid leaving pet food outside, not distributing bird feed on the ground, and protecting compost piles and fruit trees.
- 4) Purposely feeding wild animals creates an unnatural situation and may cause local population increases, which may create an unwanted nuisance for neighboring residents and, eventually, the resident that is providing the food. An increase in the local deer population creates a hazard for motorists and animals. Many animals are hit by cars when moving from one feeding area to another. Additionally, when being chased by dogs, deer

can become tangled in garden fences, run through picture windows, or dart into oncoming traffic. Also, concentrating large numbers of animals in a small area can facilitate local disease outbreaks and/or attract predators, such as mountain lions.

- 5) **DO NOT FEED BEARS.** Bears that obtain human food, garbage or pet foods lose their natural fear of humans and can become dangerous. Bears that are habituated to these unnatural food sources can damage vehicles, tear into tents, cabins, or barns, or aggressively approach people looking for food. Bears that continue to seek human food may require trapping and euthanization. Bears displaying dangerous behavior toward people will require euthanization. This is an undesirable situation, as it is labor intensive and an unnecessary waste of wildlife.
- 6) Birdseed or corn distributed on the ground may attract wild turkeys, waterfowl, and bears. This unnatural situation often increases the local waterfowl and turkey population, which frequently causes damage to private property and leads to human/wildlife conflicts. IDFG will not be responsible for property damage caused by waterfowl or wild turkeys, nor will the Department trap and remove birds that have become accustomed to being fed by residents. Bird feeders should be routinely cleaned to prevent the spread of disease.

Thank you for the opportunity to comment.

Sincerely,

Carson Watkins
Panhandle Regional Supervisor

REF: S0004-25

TO: Bonner County Planning Department

Good morning,

Idaho Department of Water Resources (IDWR) has received and permit approved Water Right No. 96-18662 which authorizes diversion from two (2) ground water Points of Diversion for Industrial, Commercial, and Fire Protection use(s) owned by Pack Properties LLC. The Will Serve letter annotates the property associated with this application is within the Place of Use for development under Permit 96-18662.

Thank you for the opportunity to comment,

1 message

Robert Beachler <Robert.Beachler@itd.idaho.gov>

Tue, Dec 16, 2025 at 12:44 PM

To: Bonner County Planning Department <planning@bonnercountyid.gov>

The Idaho Transportation Department would like to provide the following comments for File S0004-25 – Preliminary Plat of Pack Acres .

The preliminary plat of Pack Acres and proposed parcels have current reasonable access of Old Forest Road. The proposed plat depicted two new drainage easements at the end Aoi Lane and Millie Lane that parallel the SH-41 right-of-way line. The construction of these facilities are required to be constructed from developer's parcel. Equipment and materials are not to access, store or operate in the state highway right-of-way. Prior to construction the developer shall survey and stake out the state highway right-of-way line to ensure there are no encroachments into the state highway right-of-way.

Robert Beachler

District 1 Planning Program Manager

NOTICE OF PUBLIC HEARING

I hereby certify that a true and correct copy of this "Notice of Public Hearing" was digitally transmitted or mailed (postage prepaid) on this **16th** day of **December 2025**.

Jeannie L. Welter
Jeannie Welter, Systems Technician

This notice was mailed to political subdivisions, property owners within 300 feet of the subject property, and the media on **Tuesday, December 16, 2025**.

NOTICE IS HEREBY GIVEN that the Zoning Commission will hold a public hearing at **5:30 pm** on **Thursday, January 22, 2026**, in the Bonner County Administration Building, 1500 Highway 2, Sandpoint, Idaho, by Zoom teleconference, and YouTube Livestream to consider the following request:

File S0004-25 - Preliminary Plat Subdivision - Pack Acres: The applicants are proposing to divide a 12.747-acre lot into 10 lots, ranging from 1-3.003-acres. The property is zoned Industrial. The project is located off Old Forest Road in Section 31, Township 54 North, Range 04 West, Boise-Meridian. The project is located within the Spirit Lake Area of Impact and the service area of Spirit Lake Fire District, and Avista Utilities.

For details regarding this application, Zoom teleconference, or YouTube livestream, visit the Planning Department web site at www.bonnercountyid.gov/departments/Planning. Staff reports are available online or may be viewed at the planning department approximately a week before the scheduled hearing.

Written statements must be submitted to the planning department record no later than seven (7) days prior to the public hearing. Written statements not exceeding one standard letter sized, single spaced page may be submitted at the public hearing. Statements can be sent to the Bonner County Planning Department at 1500 Highway 2, Suite 208, Sandpoint, Idaho 83864; faxed to 866-537-4935 or e-mailed to planning@bonnercountyid.gov. The referenced start time stated above reflects the beginning of the hearing. Specific file start time and hearing duration vary.

During the hearing for this application, the public will be given an opportunity to provide testimony and/or evidence regarding how the proposal does or does not comply with the applicable approval criteria of the Bonner County Revised Code. At the close of the public hearing, the governing body will make a decision on the application that may include, but is not limited to, approval, denial, remand, or continuance of the public hearing. Any person needing special accommodations to participate in the public hearing should contact the Bonner County Planning Department at (208) 265-1458 at least 48 hours prior to the scheduled hearing.

If you have no comment or response, you may indicate below and return this form to the Planning Department.

RE: File S0004-25-Preliminary Plat Subdivision-Pack Acres

To whom it may concern –

This letter is intended as Panhandle Health District (PHD) comments regarding the Bonner County application S0004-25. PHD has the following comments:

- If this proposal will require PHD to review & lift sanitary restrictions for the proposed subdivision, then the applicant must submit a completed PHD Land Development Application to our office, along with all requisite fees and associated documents. It does not appear that PHD has a current application for the proposed “Short Plat-Pack Acres.” subdivision.
- The application indicates the lots will be served by “Individual Septic Systems and Shared Wells.” It appears this subdivision will meet the public water system criteria.

The applicant or representative should refer to panhandlehealthdistrict.org for an application or additional information, or contact our office at (208) 265-6384.

Regards,

Aubrey Naylor, REHS-Panhandle Health District
