Good afternoon,

Idaho Department of Water Resources (IDWR) – Northern Regional Office offers the following comments:

- The Short Plat Application for Priest River Pines 1st Addition contemplates 4 lots after minor land division within Bonner County that would result in potential new individual ground water well(s) that do not have established water rights to serve residential parcel(s). For any ground water source use(s) which shall exceed water uses authorized in Idaho Code §42-111 following project completion: a new Application for Permit is required prior to the diversion of water, and the property owner(s) may contact IDWR to discuss water right requirements.
- Any water use development that contemplates diversion of surface water source(s) (River, Stream, Spring) require an approved Water Permit prior to the diversion of water in accordance with Idaho Code §42-351.
- **IDWR has no conditional requirements to the proposal at this time.**

Thank you for the opportunity to comment,

Luke Bates – Sr Water Resource Agent
