The Bonner County Road & Bridge Department is opposed to the requested 2ft street setback variance from the edge of Creekside Drive right of way. The road is a County maintained road, and structures this close to the road create issues with our ability to maintain the road, plow snow, trim brush, etc. effectively without taking special care not to damage buildings. For example, snow, ice, and rocks can fly 30ft off of the blades of passing snow plows. When doing brushing projects, pulverizing stumps and brush with the attachment on our excavator can throw woody debris quite a distance, all of which can damage siding, windows, etc.

Utilities need to be installed outside of the road prism and as near as practical to the edge of the public right of way according to the Bonner County Road Standards Manual Section 2.5E. This puts power lines and other utilities too close to the edge of the building or forces the utilities to be installed closer to the road to maintain a reasonable separation from the structures. Utilities being closer to the road impacts our ability to upgrade and improve the road in the future, and in many cases forces the utilities into the area reserved for roadside ditches and drainage, further impacting our ability to create and maintain suitably deep ditches. According to the electric companies, they need a minimum of 10ft separation from structures, and this proposed location would make the outer 8ft of the public ROW unsuitable for utility installations if/when the need arises in the future if this 2ft setback were to be permitted.

While the original structure was not the fault of the applicant, expanding the structure and worsening an already problematic setback situation is untenable to our department, and has impacts into the far future.

Jeannie,

NLI is not opposed to the proposed variance.

We have overhead lines feeding that lot and lots in the vicinity.

The proposed changes to the structure will not affect our right of way or operations.

Thanks for the opportunity to review and comment--sincerely,

Samuel Ross
