The Bonner County Road & Bridge Department is neutral regarding the proposed street setback. The Applicant discussed this project with us in advance and has made changes to their proposal to address our concerns about structure damage from snow plowing, especially being on the downhill side of the road where snow, ice, and debris can fly a long distance. The proposed changes to have concrete walls with no windows on the north and west sides are a good compromise, and should be adopted as conditions of approval to limit County liability.

The distance is sufficient to avoid the detrimental impacts to utilities in the public ROW being too close to structures.

REF: File V0034-25

TO: Bonner County Planning Department

Cozy Cottage of Idaho, LLC – C/O Dennis McArthur – Representative

Tiger Pittman – Partner of Cozy Cottage of Idaho, LLC

Good morning,

Idaho Department of Water Resources (IDWR) – Northern Regional Office offers the following comments:

- The application proposes development of Lot 1, Monarch Vista Subdivision (newly formed subdivision) and contemplates using an existing groundwater well that is located within Lot 3 of same subdivision. No information related to the ground water well identification either permit No. or well D-Tag information was supplied in the application.
- Any water use(s) from a proposed or an existing ground water well(s) that do not have established water rights, which shall exceed water uses authorized in Idaho Code §42-111 following project completion: **an Application for Permit submission and subsequent Water Permit approval is required prior to the diversion of water for beneficial uses which exceed exempt status use(s)**, and the property owner needs to contact IDWR to discuss water right requirements.
 - Based on current Idaho Code §42-111, the proposed shared ground water well in a named subdivision is authorized to divert for in-home domestic use only to qualify as an exempt water use that doesn't require a water permit filing prior to diversion. If any water use exterior of the home(s) within the subdivision are contemplated e.g. lawn and landscape watering, then a water permit is required by Idaho Code.

Thank you for the opportunity to comment,

Luke Bates – Sr Water Resource Agent
