RE: VA0039-25 – Variance – Property Line Setback (Coyle/Frechette)

Panhandle Health District (PHD) has reviewed the Bonner County Planning Application referenced above, and has the following comments:

A review of PHD records indicates that parcel (RP001230010110A) associated with this Variance application has been served by an Individual Sewage Disposal System permit (05-09-47236 – Tank Only) and is connected to a Community Sewage System aka “Clarke Community Drainfield” (04-09-10741).

The two “RV snow roof” structures and “storage shed” referred to in the above application appear to meet all setbacks to septic. However, the applicant should be aware that if said structures are sheltering two (2) RV Dwelling Units (150gpd *each*), this parcel may be exceeding its allotted flows (250gpd) to the community drainfield, and the septic tank/ pump chamber may be undersized as well (per IDAPA 58.01.03.007.08).

Any increase in flows or change-of-use requires a wastewater disposal system capable of meeting all current standards as established by the Idaho Subsurface Disposal Rules IDAPA 58.01.03.
