

**BONNER COUNTY PLANNING DEPARTMENT
ADMINISTRATIVE DECISION
LETTER/REASONED STATEMENT
ADMINISTRATIVE VARIANCE – FILE
VA0015-25**

Project Name: **Gump–Impervious Surface**

File Number: **FILE #VA0015-25**

Request: The applicant is requesting 38% impervious surface coverage within the shoreland where 35% is required, for the purposes of constructing a Garage/ADU.

Legal Description: 27-60N-4W TAX 39

Location: The project site is located off North Steamboat Bay Road in Section 27, Township 60 North, Range 4 West, Boise-Meridian.

Parcel Number: RP60N04W275860A

Parcel Size: $\cong$ 0.363-acres

Applicant/Property Owner: Brian and Sandra Gump
[REDACTED]
Spokane, WA 99208

Project Representative: Kelly Mays Construction
60 W. Cavanaugh Bay Road
Coolin, ID 83821

Application filed: May 20, 2025

Notice provided: Mail: June 23, 2025

Date of Report: July 28, 2025

Appendix: Appendix A – Notice of Public Hearing Record of Mailing
Appendix B – Agency Comments

This application has been reviewed against the standards for a variance in Bonner County Revised Code 12-234 and it has been determined that the request **has met** the criteria based on the findings of fact and conclusion of law. The references application is hereby administratively **approved** per the review below.

Site Plan

Project summary:

The applicant is requesting a 38% impervious surface coverage within the shoreland where 35% is required, for the purpose of constructing a Garage/ADU. The property is zoned Recreation (Rec). The project site is located North Steamboat Bay Road in Section 27, Township 60 North, Range 4 West, Boise-Meridian.

Applicable laws:

The following sections of BCRC, Title 12, apply to this project:

BCRC 12-232, General Provisions
 BCRC 12-233, Application, contents
 BCRC 12-234, Variance standards
 BCRC 12-238, Administrative Variances
 BCRC 12-713 Impervious Surface Standards Near Water

Background:

A. Site data:

Land Use: Residential
Unplatted
Size: 0.363-acres
Zoning Designation: Recreation
Comp Plan Designation: Resort Community (0-2.5 AC)

B. Access:

North Steamboat Bay Road, a privately owned and privately maintained easement.

C. Environmental factors:

Site does contain mapped slopes between 0-29.9%. (USGS)
Site does not contain mapped wetlands. (USFWS)
Site does contain frontage on Priest Lake.
Parcel is within SFHA Zone AE and Zone X per FIRM Panel Number 16017C0225F,
Effective Date 07/07/2014.

D. Services:

- Water: Individual Well
- Sewage: Coolin Sewer District
- Fire: Cooling Cavanaugh Bay Fire District
- Power: Northern Lights, Inc.
- School District: West Bonner School District #83

BCRC 12-232, General Provisions

The applicant is requesting a variance to the 35% maximum impervious surface coverage near water. This request is in accordance with this provision.

BCRC 12-233, Application, contents

In accordance with BCRC 12-233, the applicant submitted all the required documents, and the application was deemed complete on May 20, 2025.

BCRC 12-238, Administrative Variances

In accordance with BCRC 12-238, the applicant is seeking an 8% variance to the maximum impervious surface .

BCRC 12-713, Impervious Surface Standards Near Water

BCRC 12-713: Sets the maximum "impervious surface" within "shore land" areas at 35%.

BCRC 12-7.2, et seq., Grading/erosion/stormwater management

Stormwater management concerns were addressed with the Building Location Permit, File #BLP2025-0638. A stormwater management plan was submitted to and approved by Bonner County Engineering.

BCRC 12-234, Variance, standards for review of applications

- (a) Conditions apply to the property that do not apply generally to other properties in the same zone or vicinity, which conditions are a result of lot size, shape, topography, or other circumstances over which the applicant has no control.**

Applicant: "The existing lot shape is triangular starting with the pointed end toward the east or access location. This lot was a tax lot and adjoins a platted subdivision to the South. As such, the tax lot boundaries result in a remainder parcel that pinches on its East end and limits access. The proposed garage/adu is located as far to the east of the lot, or away from the lake, as possible. In order to provide access around the garage/adu on the north side, the ADU was positioned one lane width off of the north property line. This provides access but requires construction of additional impervious area within 200ft of the waterline. As such the overall lot coverage is 8% or 400 square feet greater than the code requirement."

Staff: The subject property is unique in the fact that it begins to narrow the closer you get to the road. This requires any structures to be built further into the 200-foot shore land in order to meet street and property line setbacks. Per the application, additional impervious surfaces were created in order to provide emergency access to the single-family dwelling. The overall size of the parcel, and the unique shape, can make development challenging.

- (b) Special conditions and circumstances do not result from the actions of the applicant.**

Applicant: "This variance request is a result of the existing tax lot size and shape. If the lot shape was non-triangular the proposed ADU/Garage could be moved to the east farther in order to place some of the impervious areas outside the 200-ft setback from the lake. In this way the project would have met the county requirements and provided an access around the ADU to the remainder of the lot. This variance does not result in the creation of special conditions or circumstances."

Staff: The applicant acquired the subject property on September 28, 2016, via Warranty Deed, Instrument No. 896224, recorded on October 11, 2016. Since the time of acquisition, there is no indication that the applicant has altered the lot's size, shape, or topography. The applicant has no control over the unique shape of the property that is causing structures to be pushed further into the 200-foot shoreland due to the property narrowing closer to the road.

- (c) The granting of the variance is not in conflict with the public interest in that it will not be detrimental to the public health, safety, or welfare, or materially injurious to properties or improvements in the vicinity of the subject parcel or lot.**

Applicant: "The proposed project is compatible with adjoining land uses. The construction of the garage/adu does not limit access to neighboring lot for emergency or fire vehicles. The position of the proposed garage/adu provides access for emergency vehicles to the existing home. The variance will be for construction of additional impervious driveway area roughly 190 feet from the lake. The stormwater management plan will address treatment and flow control for the stormwater generated by the proposed impervious areas."

Staff: A comment was received from Idaho Department of Environmental Quality expressing the importance of limiting impervious surfaces in the areas of surface water in order to protect water quality by limiting the amount of direct stormwater runoff into lakes. A stormwater management plan was submitted to and approved by the Bonner County Engineering Department during the review of the Building Location Permit related to this variance, File #BLP2025-0638.

No other agency or public comments were received indicating this project would be in conflict with the public interest.

E. Agency Review

Agencies were notified of this project on June 23, 2025. A full list of the agencies notified can be found in the attached Appendix A. Agency comments can be found in Appendix B.

The following agencies commented:

U.S. Army Corps of Engineers
Northern Lights, Inc.
Idaho Department of Environmental Quality

The following agencies replied "No Comment":

Kootenai-Ponderay Sewer District
Idaho Transportation Department
Idaho Department of Fish and Game

All other agencies did not reply.

Public Notice & Comments

At the time this Staff Report was written, two public responses were received with "No Comment".

Staff Review Summary:

The applicant acquired the subject property on September 28, 2016, and there have been no apparent modifications to the lot's size, shape, or topography since that time. The unique shape of the lot and the narrowing the closer you get to the road can make development challenging in the fact that in order to meet street and property line setbacks, structures need to be located closer to the shoreline.

Comments were received from the Idaho Department of Environmental Quality expressing the need to protect the water quality by limiting impervious surfaces. To mitigate these concerns, the applicants submitted a stormwater management plan that was reviewed and approved during the review of the associated Building Location Permit. No other comments were received from the public or any agencies indicating this proposal would be in conflict with the public interest.

Planner's Initials: <u>KS</u> Date: <u>7/28/25</u>
--

CONCLUSIONS: Based on the foregoing findings, the following conclusions are adopted. The proposed administrative variance **is** in accord with the purposes of Title 12. This action does not result in a taking of private property. The action that could be taken to obtain the administrative variance is to complete the Conditions of Approval as adopted.

1. This proposal was reviewed for compliance with the criteria and standards set forth at Sections 12-233 and 12-234, Bonner County Revised Code, storm water management criteria and standards set forth in Chapter 7, Title 12, Bonner County Revised Code, and variance criteria and standards set forth at Section 67-6516, Idaho Code.
2. Conditions apply to the property that **do not** apply generally to other properties in the same zone or vicinity, which conditions are a result of lot size, shape, topography, or other circumstances over which the applicant has no control.
3. Special conditions and circumstances **do not** result from the actions of the applicant.
4. The granting of the variance **is not** in conflict with the public interest in that it **will not** be detrimental to the public health, safety, or welfare, or materially injurious to properties or improvements in the vicinity of the subject parcel or lot.

Conditions of Approval:

1. Only the development highlighted on the site plan has been reviewed for variance standards. All other development shown must comply with Bonner County Revised Code.
2. This variance shall not supersede any deed restrictions.

NOTE: Any determination made by the Planning Director in the administration of the provisions of this title may be appealed to the Board by paying the required fee and notifying the Planning Director in writing of the intent to appeal within ten (10) working

days from the date of the determination. Within ten (10) working of receipt of an appeal, the Planning Director shall schedule a meeting with the Board to hear the appeal and shall provide written notice to the appellant of the time and place of the meeting. The Planning Director and appellant shall be provided an opportunity to present the relevant issues to the Board at that meeting. The appellant bears the burden of proof and may be responsible for costs incurred for producing such proof, including engineering or surveying documents for other evidence. The Board's decision shall be final, and further recourse of the appellant shall be as provided by Idaho Code. If no appeal to the Board is filed, the Planning Director's decision shall be deemed final. (BCRC 12-261)

Following any final decision concerning a site-specific land use request, the applicant has a right to request a regulatory taking analysis pursuant to Section 67-8003, Idaho Code (Idaho Code §67-6535(3)).

Please contact this department if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read 'Alex Feyen', written over a horizontal line.

Alex Feyen, Assistant Director

[EXT SENDER] RE: Bonner County Planning - VA0015-25 Agency Review - Variance - Administrative - Impervious Surface Coverage

1 message

DEQ Comments <deqcomments@deq.idaho.gov>

Thu, Jun 26, 2025 at 2:25 PM

To: Bonner County Planning <planning@bonnercountyid.gov>

Thank you for the opportunity to comment on the requested impervious surface coverage variance VA0015-25. Limiting impervious surface coverage in the areas near surface water bodies helps protect water quality by limiting the amount of direct stormwater runoff into streams and lakes that can carry sediment and other contaminants into surface water. While an individual variance may have minimal localized impacts, the cumulative effects of multiple variances that result in increased impervious surfaces near surface water within the watershed can be expected to have a negative impact on water quality over time. DEQ recommends maintaining the limits in established codes wherever possible, and considering individual variances carefully for very unique situations.

If you have any questions about the comments this project has received please contact:

- Katy Baker-Casile for engineering and wastewater.
- Anna Moody for drinking water.
- Shawn Sweetapple for air quality.
- Kevin Aardahl for remediation or RCRA.
- Robert Steed for surface water and setback requirements.

Thank you-

NOTICE OF AGENCY REVIEW

I hereby certify that a true and correct copy of this "Notice of Agency Review" was digitally transmitted or mailed (postage prepaid) on this **23rd** day of **June 2025**.

Jenna Brown
Jenna Brown, Administrative Assistant III

This notice was mailed to political subdivisions, property owners within 300 feet of the subject property, and the media on **Monday, June 23, 2025**.

File VA0015-25 - Variance - Administrative - Impervious Surface Coverage

The above-named application has been submitted to the Bonner County Planning Department for processing and has been determined to be complete. The applicants are requesting 38% impervious surface coverage within the shoreland where 35% is required, for the purposes of constructing a Garage/ADU. The property is zoned Recreation (Rec). The project is located off of North Steamboat Bay Road in Section 27, Township 60 North, Range 04 West, Boise-Meridian. The project site is within the service areas of Coolin Cavanaugh Bay Fire and Coolin Sewer.

To review this application, go to the Planning Department web site at bonnercountyid.gov/current-projects. If you experience difficulties visiting the project web page, try an alternative browser (Mozilla Firefox or Google Chrome) for access. If you prefer to receive hard copies of the application or have any difficulties reaching this web site, please contact the planning department as soon as possible.

Please review the application relative to your agency's area of expertise and include any recommended conditions of approval and supporting code sections by **July 14, 2025**. If your agency requires any additional information from the applicant, please advise the planning department in writing allowing ample time for applicant response. All comments will be forwarded to the applicant and representatives. If no response is provided, staff will conclude your agency has no objections to the project or recommended conditions.

If you have no comment or response, you may indicate below and return this form to the Planning Department.

NO COMMENT Kootenai-Ponderay Sewer District ^{CA} 7/3/25

Janna,

NLI has reviewed the application for Administrative Variance, VA0015-25.

NLI does not object to the impervious surface coverage variance, however changes to the electrical service may need to be made to ensure the project conforms to BCR

We need at least 36" of working space around the exiting meter base, where NLI owns and maintains the electric meter.

We request more information from the landowner to determine if there will be adequate working space between the proposed structure.

If this adequate working space is available, NLI is not opposed to the project.

If there is not adequate working space around the existing meter base, we request that the governing body / director condition the approval of the variance so the land could be moved outside of the side yard setback and onto the side of the proposed ADU.

The landowner can apply to move the meter base online at www.nli.coop.

We appreciate the opportunity to review and comment on the project-- sincerely,

Samuel Ross

Good afternoon,

The project may require a Section 404: Clean Water Act permit, authorized by the Department of Army if there are impacts (e.g., the discharge of fill material such as rock, gravel, dirt; etc.) to Waters of the United States (WOTUS); and/or their adjacent wetlands.

Respectfully,

Josh

Joshua M. Moore
