[EXT SENDER] RE: Bonner County Planning - VA0019-25 Agency Review - Variance - Administrative - Shoreline Setback

1 message

DEQ Comments <deqcomments@deq.idaho.gov>

Thu, Jan 8, 2026 at 2:35 PM

To: Bonner County Planning <planning@bonnercountyid.gov>

Development setbacks from stream banks and lake shorelines are an important tool for protecting water quality. Riparian vegetation provides natural filtration of stormwater runoff and provides numerous other benefits to promote healthy surface water ecology. DEQ recognizes that there are sometimes unique circumstances that may justify reduced setbacks. While an individual variance likely has a relatively small impact on water quality, the cumulative impact of development in close proximity to shorelines and stream banks is a significant threat to water quality. DEQ advises local government planning departments to maintain established setbacks whenever possible. Exceptions should be considered carefully by the local jurisdiction and used only when absolutely necessary to accommodate unique circumstances.

If you have any questions about the comments this project has received please contact:

- Katy Baker-Casile for engineering and wastewater.
- Anna Moody for drinking water.
- Shawn Sweetapple for air quality.
- Kevin Aardahl for remediation or RCRA.
- Robert Steed for surface water and setback requirements.

Thank you-

Idaho Department of Environmental Quality
2110 Ironwood Parkway, Coeur d'Alene, Idaho 83814
Office Line: 208.769.1422

IDAHO DEPARTMENT OF FISH AND GAME

PANHANDLE REGION

2885 West Kathleen Avenue
Coeur d'Alene, Idaho 83815

Brad Little / Governor
Jim Fredericks / Director

January 29, 2026

Bonner County Planning Department
1500 Highway 2, Suite 208
Sandpoint, ID 83864

REFERENCE: VA0019-25 – Shoreline Setback

The Idaho Department of Fish and Game (IDFG) has reviewed the above request for a shoreline setback variance for 33 feet where 40 feet is required for the repair and expansion of a deck and staircase. The purpose of these comments is to assist the decision-making authority by providing technical information that can be used to minimize fish and wildlife impacts.

Bonner County Code (subchapter 7.1) states the purpose of the shoreline setback chapter is to preserve both the quality and quantity of Bonner County water resources. Additionally, it aims to reduce erosion and sedimentation into waterways.

Bonner County Code (subchapter 7.2) states that the purpose of the subchapter is to protect property, surface water and groundwater against significant adverse effects from excavation, filling, clearing, unstable earthworks, soil erosion, sedimentation and stormwater runoff, and to provide maximum safety in the development and design of building sites, roads and other service amenities.

Although we recognize that there are extenuating circumstances that justify reducing waterfront setbacks, they remain an important tool for the protection of water quality. Mitigation for reduced waterfront setbacks can be in the form of a stormwater and erosion plan, biofiltration swales, or riparian buffers.

Should this variance be granted, IDFG recommends the following:

- The applicant retains as much of the native riparian vegetation as practical to maintain a riparian buffer between new construction and Priest Lake. Additional native plantings on disturbed soil or erosive banks would help to ameliorate any negative effects to water quality and sedimentation.
- Adhering to the most up to date erosion and sedimentation siltation best management practices (BMPs) during construction and maintaining or establishing riparian buffers. One resource to find and evaluate appropriate BMPs is the Idaho DEQ *Idaho Catalog of*

Keeping Idaho's Wildlife Heritage

Storm Water Best Management Practices available online at
<https://www2.deq.idaho.gov/admin/LEIA/api/document/download/14968>

- An approved stormwater plan, prepared by a licensed professional engineer, be implemented.

If variances to Bonner County Code become regularly allowed, we would expect that to lead to modified shorelines, increased nutrient inputs into Priest Lake, declines in water quality, and subsequent negative affects to the fishery.

Thank you for the opportunity to comment and please don't hesitate to contact the Panhandle Regional Office with additional questions or continued collaboration. We welcome the opportunity to work further with the county on this and other projects that may affect Idaho's fish and wildlife.

Sincerely,

Carson Watkins
Panhandle Regional Supervisor

Janna Brown, Administrative Assistant III

This notice was mailed to political subdivisions, property owners within 300 feet of the subject property, and the media on **Friday, January 2, 2026**.

File VA0019-25 - Variance - Administrative - Shoreline setback

The above-named application has been submitted to the Bonner County Planning Department for processing and has been determined to be complete. The applicants are requesting a Variance to the shoreline setbacks, to allow for a 33-foot setback where 40 feet is required. The parcel is zoned Recreation (Rec). The project site is located off Kalispell Bay Rd. in Section 6, Township 60 North, Range 4 West, Boise-Meridian. The project site is within the service areas of West Priest Lake Fire District and Kalispell Bay Water & Sewer District.

To review this application, go to the Planning Department web site at bonnercountyid.gov/current-projects. If you experience difficulties visiting the project web page, try an alternative browser (Mozilla Firefox or Google Chrome) for access. If you prefer to receive hard copies of the application or have any difficulties reaching this web site, please contact the planning department as soon as possible.

Please review the application relative to your agency's area of expertise and include any recommended conditions of approval and supporting code sections by **February 2, 2026**. If your agency requires any additional information from the applicant, please advise the planning department in writing allowing ample time for applicant response. All comments will be forwarded to the applicant and representatives. If no response is provided, staff will conclude your agency has no objections to the project or recommended conditions.

If you have no comment or response, you may indicate below and return this form to the Planning Department.

NO COMMENT Kootenai - Ponderay Sewer District 1/2/2026
