To: Bonner County Planning <planning@bonnercountyid.gov>

Development setbacks from stream banks and lake shorelines are an important tool for protecting water quality. Riparian vegetation provides natural filtration of stormwater runoff and provides numerous other benefits to promote healthy surface water ecology. DEQ recognizes that there are sometimes unique circumstances that may justify reduced setbacks. While an individual variance likely has a relatively small impact on water quality, the cumulative impact of development in close proximity to shorelines and stream banks is a significant threat to water quality. DEQ advises local government planning departments to maintain established setbacks whenever possible. Exceptions should be considered carefully by the local jurisdiction and used only when absolutely necessary to accommodate unique circumstances.

If you have any questions about the comments this project has received please contact:

- Katy Baker-Casile for engineering and wastewater.
- Anna Moody for drinking water.
- Shawn Sweetapple for air quality.
- Kevin Aardahl for remediation or RCRA.
- Robert Steed for surface water and setback requirements.

Thank you-

File VA0032-25 - Variance - Administrative - Shoreline setback

The above-named application has been submitted to the Bonner County Planning Department for processing and has been determined to be complete. The applicant is requesting a Variance to the setback standards, to allow a 37-foot shoreline setback, where 40 feet is required. The parcel is zoned Recreation (Rec). The project site is located off West Horton Creek Road in Section 3, Township 60 North, Range 4 West, Boise-Meridian. The project site is within the service areas of East Priest Lake Fire District.

To review this application, go to the Planning Department web site at bonnercountyid.gov/current-projects. If you experience difficulties visiting the project web page, try an alternative browser (Mozilla Firefox or Google Chrome) for access. If you prefer to receive hard copies of the application or have any difficulties reaching this web site, please contact the planning department as soon as possible.

Please review the application relative to your agency's area of expertise and include any recommended conditions of approval and supporting code sections by **February 23, 2026**. If your agency requires any additional information from the applicant, please advise the planning department in writing allowing ample time for applicant response. All comments will be forwarded to the applicant and representatives. If no response is provided, staff will conclude your agency has no objections to the project or recommended conditions.

If you have no comment or response, you may indicate below and return this form to the Planning Department.
