Planning Department,

The Bonner County Road & Bridge Department is opposed to this vacation request as currently proposed. Larch St is a County maintained road, and we are currently turning around equipment using prescriptive ROW beyond the end of the dedicated ROW. This prescriptive turn-around area is not correctly described on the application, which only describes a 50ft wide strip of ROW. Without this ROW, we would need a new place dedicated to the County to turn equipment around at the new terminus. Our standard turn-around is a 60ft radius bulb cul-de-sac. If such a turn-around were to be dedicated, we may support a revised application to vacate the remainder of the road beyond that new dedicated turn-around.

The County entered into an agreement with the City of Priest River in 2025 regarding upgrades and maintenance to this roadway. Under this agreement, the County is teamed up with the City to hard surface the entire road with BST surfacing, and after the final chip seal planned this summer 2026, the maintenance responsibilities for the end of Larch St will be transferred to the City of Priest River. With that in mind, the City will be the entity needing a turn-around at the end of the road moving forward, and in discussing this with the City, this need for a dedicated turn-around is also a concern of theirs.
