REF: ZC0011-25

TO: Dylan Young, Bonner County Planning Department Hearing Coordinator

Matt Mayberry , ATS Advanced Technology Surveying, Inc.– Applicant's Representative

Good morning,

The proposed Application specifies that water will be served from an individual well to provide water uses for "future dwellings" that will be located on each of the 5-acre parcels.

Idaho Department of Water Resources (IDWR) – Northern Regional Office **doesn't have any conditions of approval requirements for the proposed project** but offer the following information as education for the property owners:

- If water use from the proposed private ground water well exceeds water uses authorized by **Idaho Code §42-111** following project completion, a new Application for Permit is required, and the property owner needs to contact IDWR to discuss water right requirements. Based on application analysis I offer the following additional information regarding **§42-111**:
 - The resulting two parcel land division is not considered a subdivision IAW **Idaho Code §50-1301(18)**.
 - The land division is not within a designated Ground Water Management Area.
 - The well is proposed to be shared at some point in the future between two parcels.
 - Domestic Exemption water use authorizes the diversion of water for homes, organizational camps, public campgrounds, or livestock so long as the **total combined use from the well is less than 13,000 gallons per day and less than a total of ½ acre combined irrigation**. So long as these requirements are not exceeded no water right filing is required by the landowner(s).
 - Typically, combined irrigation of more than ½ acre between landowners results the need to file an Application for Permit to be in compliance with State Statute.

I recommend individual property owner(s) both current and future reach out to IDWR to discuss the merits of pursuing recorded water rights, but at this point in time no water right filings are required by nature of the project details provided within ZC0011-25's Application & Narrative.

Thank you for the opportunity to comment,
