

**BONNER COUNTY PLANNING DEPARTMENT
BONNER COUNTY ZONING COMMISSION
STAFF REPORT FOR APRIL 23, 2026**

Project Name: Torchio – Shoreline Setback

File Number, Type: FILE #V0003-26, Variance

Request: The applicant is requesting a Variance to the shoreline standards to allow for a 0-foot shoreline setback, where 40 feet is required, for an existing accessory structure.

Legal Description: 27-59N-1E N2NWSW

Location: The project site is located off Raven Ridge in Section 27, Township 59 North, Range 1 East, Boise-Meridian.

Parcel Number: RP59N01E275400A

Parcel Size: 20-Acres

Applicant: Tony Torchio
[REDACTED]
Veradale, WA 99037

Project Representative: Tony Torchio

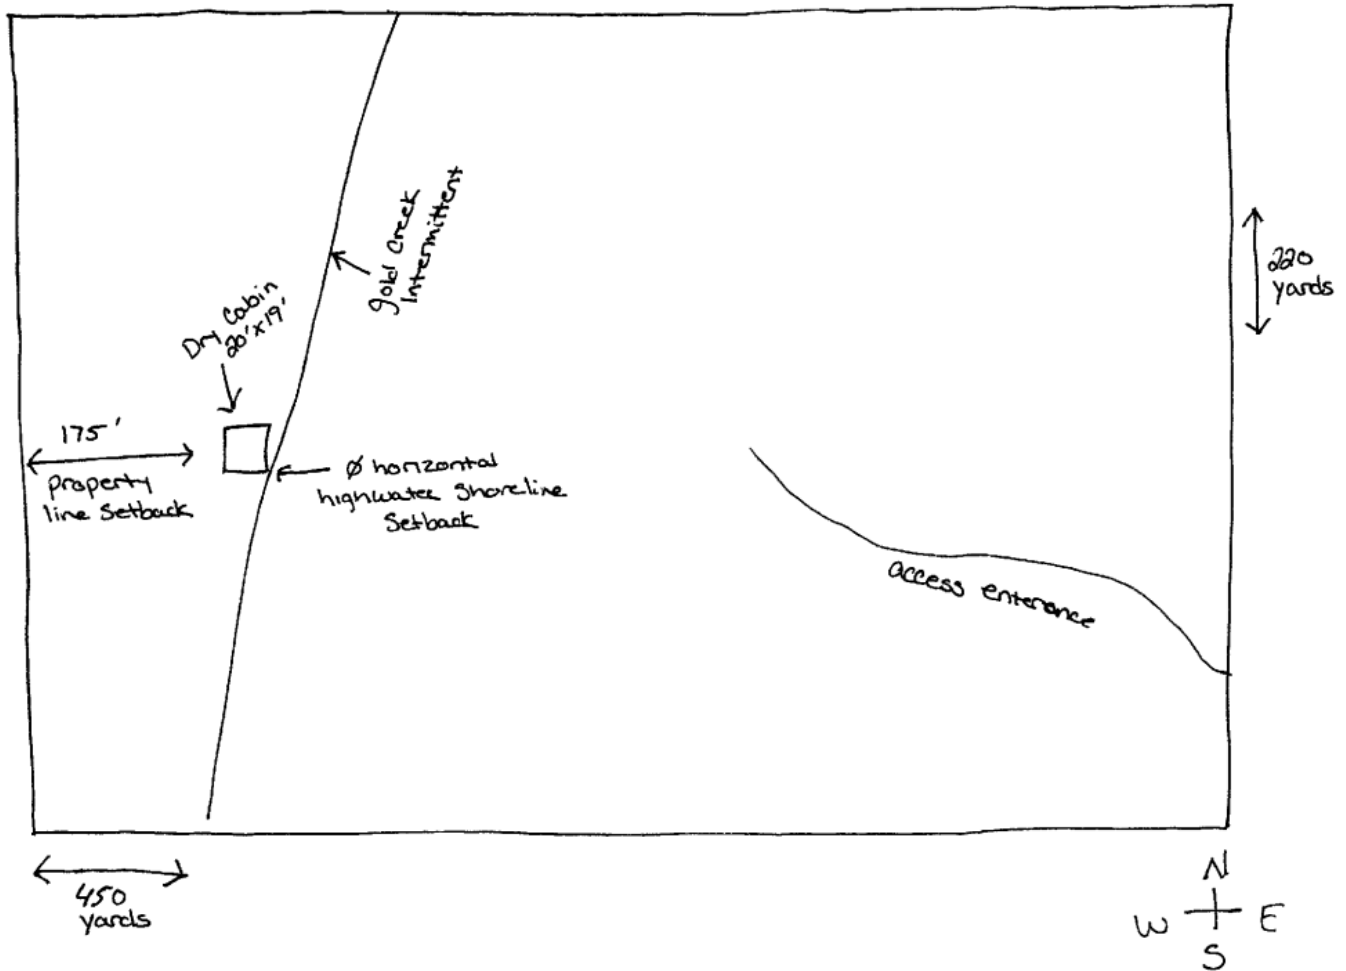

Property owners: Tony Torchio

Application filed: February 3, 2026

Notice provided: Mail: March 17, 2026
Site Posting: March 17, 2026
Published in newspaper: March 17, 2026

Appendix: Appendix A – Notice of Public Hearing Record of Mailing
Appendix B - Agency Comments

Site Plan

Project summary:

The applicant is requesting a Variance to the shoreline standards to allow for a 0-foot shoreline setback, where 40 feet is required, for an existing accessory structure. The 20-acre property is zoned Agricultural/Forestry 20 (A/F-20). The project is located off Raven Ridge in Section 27, Township 59 North, Range 1 East, Boise-Meridian.

Applicable laws:

The following sections of BCRC, Title 12, apply to this project:

- BCRC 12-2.3, Variances, general provisions, application, standards, procedures
- BCRC 12-234, Variance standards
- BCRC 12-322, Agricultural/Forestry District
- BCRC 12-344, Nonconforming Structures

BCRC 12-400, et seq., Development standards
 BCRC 12-7.1, et seq., Shorelines
 BCRC 12-7.2, et seq., Grading/erosion/stormwater management
 BCRC 12-7.3, et seq., Wetlands
 BCRC 12-7.6, et. Seq., Hillsides
 BCRC 12-800 et seq., Definitions

Background:

A. Site data:

Land Use: Residential
 Unplatted
 Size: 20-acres
 Zoning Designation: Agricultural/Forestry 20 (A/F-20)
 Comp Plan Designation: Ag/Forest Land (10-20 AC)

B. Access:

Raven Ridge, a privately owned, and maintained, right-of-way, as per the applicant. Bonner County GIS shows this roadway as "unknown" ownership.

C. Environmental factors:

Site does contain mapped slopes of 15-30+%. (USGS)
 Site does contain mapped wetlands. (USFWS)
 Site does contain frontage on Gold Creek, an intermittent stream. (NHD)
 Parcel is within SFHA Zone X per FIRM Panel Number 16017C0540E Effective Date 11/18/2009. No further floodplain review is required on this proposal.

D. Services:

- Water: Individual system to be developed
- Sewage: Individual septic to be developed
- Fire: Not within a fire district
- Power: No information provided
- School District: Lake Pend Oreille School District #84.

E. Comprehensive Plan, Zoning and Current Land Use

Compass	Comp Plan	Zoning	Current Land Use & Density
Site	Ag/Forest Land (10-20 AC)	Agricultural/Forestry 20 (A/F-20)	Residential, 20-Acres
North	Ag/Forest Land (10-20 AC)	Agricultural/Forestry 20 (A/F-20)	Vacant, 15-Acres
East	Ag/Forest Land (10-20 AC)	Agricultural/Forestry 20 (A/F-20)	Residential, 10-Acres
South	Ag/Forest Land (10-20 AC)	Agricultural/Forestry 20 (A/F-20)	Vacant, 15 & 5-Acres
West	Remote Ag/Forest (40+ AC)	Forest 40 (F)	National Forest, 400-Acres

F. Standards review

BCRC 12-234 specifies that "Staff, the commission and/or board shall review the particular facts and circumstances of each proposal submitted and shall find adequate evidence showing that:

- (a) **Conditions apply to the property that do not apply generally to other properties in the same zone or vicinity, which conditions are a result of lot size, shape, topography, or other circumstances over which the applicant has no control.**

Applicant: *"The subject property is uniquely constrained by a combination of natural features. The building location is situated between outcroppings and trees with an intermittent creek, and most of the property is sloping. This location has less impact on natural topography, geology, and vegetation. The location was chosen by the previous owner and is a circumstance beyond the applicant's control. Moving the building could create potentially severe access issues, as the structure is located deep within the property and requires you to cross the creek to access the structure. Moving the building would create issues because it would take large machinery to move and clear-cutting a path and building site. This will be very difficult to move and will cause extreme ground disturbance."*

Staff: The subject lot is unique in that it has an intermittent stream running through it, in addition to multiple wetlands dividing the parcel. The majority of the parcel is mapped with steep slopes. "Other circumstances" that appear to effect the parcel is a structure that appears to be difficult to access . The structure was constructed prior to the property owner's purchase. Properties in the Ag/Forestry 20 zoning district do not consistently contain slopes, wetlands and streams, and most structures built have adequate access to the structure.

- (b) **Special conditions and circumstances do not result from the actions of the applicant.**

Applicant: *"The property I recently acquired was sold to me with a preexisting structure that was built years prior to me obtaining the land. The building issues were not disclosed by the seller, and the information that was provided to me by the realtor was misleading."*

Staff: The applicant purchased the subject parcel in January of 2026, under instrument # 1056930. The subject structure was constructed by the previous owner, at some point prior to the applicant obtaining the property, and without County knowledge or permits. The applicant had inquired on the parcel and structure prior to purchase and had discussions with a County Planner It was determined that the structure may not need permits, unless the applicant decided to use it as a dwelling. The structure was unknown to Bonner County Planning and is not visible on the GIS mapping. Per conversations with Planning Staff, the realtor handling the sell of the parcel, assured Bonner County Planning, and the applicant that the structure met the required 40-foot setback. Using these discussions, the buyer moved forward with the purchase. Upon learning that the structure did not meet the setback requirements, the applicant immediately sought this variance to bring the parcel and structure into compliance.

- (c) **The granting of the variance is not in conflict with the public interest in that it will not be detrimental to the public health, safety, or welfare, or materially injurious to properties or improvements in the vicinity of the subject parcel or lot.**

Applicant: *"Granting this variance will not pose any detrimental impact on public health, safety, or welfare. The structure was built with a pier and beam foundation that is environmentally friendly and has minimal impact with minimal site disruption. It was built far enough away that it has no contact with the intermittent stream and won't flood. There is no conflict with being materially injurious because this doesn't cause any substantial harm, damage, or disruption to any personal property or improvements. This dry cabin, under 400 square feet with no utilities (water, toilet, power), is isolated deep within the property, surrounded by outcroppings on two sides and densely packed trees with an intermittent creek running by. You can't see, hear, or be disturbed in any capacity. This is the only structure on our property and the only thing that can keep my family safe from the elements and nature while we are here. If this variance is approved, there will be no negative impact on the land, people, or property."*

Staff: This application is for a setback to an intermittent stream, which is a minor stream that does not consistently flow for portions of the year. The structure is already constructed and did not disturb the stream or require machinery and excavation. There does not appear to be any environmental impacts that would be greater than the disturbance required to remove the structure. The structure is remote, and does not appear to affect the neighbors, as evidenced by the fact that its existence was not known to the neighbors or County, until the applicant applied for this Variance. It is hidden in timber and canyons, roughly centered in the 20-acre parcel owned by the applicant. The structure is not within a floodplain or floodway, and provides shelter to the applicant and his family, increasing the health, safety and welfare of the parcel. There does not appear to be any evidence that granting this variance would be in conflict with the public interest. Additionally, no public or agency comments were received that indicated the proposal would be detrimental to the public health, safety, or welfare, or materially injurious to properties or improvements in the vicinity of the subject lot. Idaho Department of Environmental Quality submitted their standard response to shoreline setbacks. In the standard response, they indicate that there are sometimes unique circumstances that may justify reduced setbacks, and also indicate that "While an individual variance likely has a relatively small impact on water quality, the cumulative impact of development in close proximity to shorelines and stream banks is a significant threat to water quality." It appears, that in this case, this is an individual variance with unique circumstances, and that there is no cumulative impact of additional development within this parcel, or area. The Idaho Department of Fish and Game commented that "it is likely that moving the structure would cause more damage than leaving it in place. IDFG recommends that the structure remain in place, but no upgrades be made to it that could cause further impacts to the stream."

G. Stormwater plan

A stormwater management plan may be required at the time of Building Location Permit.

H. Agency Review

Agencies were notified of this project on March 17, 2026. A full list of the agencies notified can be found in the attached Appendix A.

The following agencies commented:

Bonner County Floodplain Review
Panhandle Health District
Idaho Department of Water Resources
Idaho Department of Environmental Quality
Idaho Department of Fish and Game

The following agencies replied "No Comment":

Idaho Transportation Department – Permits
Kootenai/Ponderay Sewer District
TC Energy

All other agencies did not reply.

Public Notice & Comments

At the time this Staff Report was written, public comments were received.

Planner's Initials: ___DF___ Date: ___4/16/26___ Note:

The final decision rests with the governing body after the completion of the public hearing and consideration of all relevant oral and written testimony and evidence.

Decision by the governing body:

ZONING COMMISSION

MOTION TO APPROVE: I, commissioner (insert name) move to approve this request FILE V0003-26, for a Variance to the shoreline standards to allow for a 0-foot shoreline setback, where 40 feet is required, for an existing accessory structure, finding that it is in accord with the Bonner County Revised Code as enumerated in the following conclusions of law:

Conclusion 1

Conditions apply to the property that **do not** apply generally to other properties in the same zone or vicinity, which conditions are a result of lot size, shape, topography, or other circumstances over which the applicant has no control.

Conclusion 2

Special conditions and circumstances **did not** result from the actions of the applicant.

Conclusion 3

The granting of the variance **is not** in conflict with the public interest in that it **will/will not** be detrimental to the public health, safety, or welfare, or materially injurious to properties or improvements in the vicinity of the subject parcel or lot. (Ord. 559, 1-4-2017)

This is based upon the evidence submitted up to the time the Staff Report was prepared and testimony received at this hearing. I further move to adopt the reasoned statement as discussed in deliberation at this hearing and the analysis as set forth in the Staff Report (or as amended during this hearing) and direct planning staff to draft the reasoned statement to reflect this motion as set forth in Idaho Code section 67-6535, have the Chair sign, and transmit to all interested parties. This action does not result in a taking of private property.

Conditions of approval:

Standard Conditions:

- A-1.** Only the development highlighted on the site plan has been reviewed for variance standards. All other development shown must comply with Bonner County Revised Code.
- A-2.** This variance shall not supersede any deed restrictions.
- A-3.** An approved Stormwater Management Plan may be required.
- A-4.** A Building Location Permit may be required.

MOTION TO DENY: I commissioner (insert name) move to deny this request FILE V0003-26, for a Variance to the shoreline standards to allow for a 0-foot shoreline setback, where 40 feet is required, for an existing accessory structure, based upon the following conclusions:

Conclusion 1

Conditions apply to the property that **do/do not** apply generally to other properties in the same zone or vicinity, which conditions are a result of lot size, shape, topography, or other circumstances over which the applicant has no control.

Conclusion 2

Special conditions and circumstances **do/do not** result from the actions of the applicant.

Conclusion 3

The granting of the variance **is/is not** in conflict with the public interest in that it **will/will not** be detrimental to the public health, safety, or welfare, or materially injurious to properties or improvements in the vicinity of the subject parcel or lot. (Ord. 559, 1-4-2017)

This decision is based upon the evidence submitted up to the time the Staff Report was prepared, and testimony received at this hearing. I further move to adopt the reasoned statement as discussed in deliberation at this hearing and the analysis as set forth in the Staff Report (or as amended during this hearing) and direct planning staff to draft the reasoned statement to reflect this motion as set forth in Idaho Code section 67-6535, have the Chair sign, and transmit to all interested parties. This action does not result in a taking of private property. The action that could be taken, if any, to obtain the variance is to:

- 1) File a new application with the Planning Department and meet the standards required by Bonner County Revised Code; or

2) Appeal the decision to the County Commissioners.

The complete file is available for review in the Planning Department, 1500 Highway 2, Suite #208, Sandpoint, ID. Some file application material is available online at www.bonnercountyid.gov Bonner County Revised Code (BCRC) is available at the Planning Department or online.

DEQ Comments <deqcomments@deq.idaho.gov>

Fri, Mar 20, 2026 at 2:23 PM

To: Bonner County Planning Department <planning@bonnercountyid.gov>

Development setbacks from stream banks and lake shorelines are an important tool for protecting water quality. Riparian vegetation provides natural filtration of stormwater runoff and provides numerous other benefits to promote healthy surface water ecology. DEQ recognizes that there are sometimes unique circumstances that may justify reduced setbacks. While an individual variance likely has a relatively small impact on water quality, the cumulative impact of development in close proximity to shorelines and stream banks is a significant threat to water quality. DEQ advises local government planning departments to maintain established setbacks whenever possible. Exceptions should be considered carefully by the local jurisdiction and used only when absolutely necessary to accommodate unique circumstances.

[EXT SENDER] RE: Bonner County Planning - File V0003-26 Agency Review

Horsmon, Merritt <merritt.horsmon@idfg.idaho.gov>
To: Bonner County Planning Department <planning@bonnercountyid.gov>

Fri, Apr 10, 2026 at 9:10 AM

Hi Jeannie,

Please consider this email as comment from Idaho Department of Fish and Game (IDFG) regarding application V0003-26 . The purpose of these comments is to assist the decision-making authority by providing technical information addressing potential effects on wildlife and wildlife habitat and how any adverse effects might be mitigated.

While this is not an ideal situation, it is likely that moving the structure would cause more damage than leaving it in place. IDFG recommends that the structure remain in place, but no upgrades be made to it that could cause further impacts to the stream.

Thank you for the opportunity to review and comment.

REF: V0003-26

TO: Bonner County Planning Department

Good morning,

Idaho Department of Water Resources (IDWR) – Northern Regional Office doesn't have any comments for the proposed setback requested in the application as it isn't within IDWR's jurisdiction, but offers the following information as educational reference to the Applicants:

- Any water use development that contemplates diversion of surface water source(s) (River, Stream, Spring) require an approved Water Permit prior to the diversion of water in accordance with Idaho Code §42-351.

Thank you for the opportunity to comment,

Luke Bates – Sr Water Resource Agent

Idaho Department of Water Resources

Northern Regional Office

7600 N Mineral Dr Suite 100 Coeur D Alene ID 83815-7763

NOTICE OF PUBLIC HEARING

I hereby certify that a true and correct copy of this "Notice of Public Hearing" was digitally transmitted or mailed (postage prepaid) on this 17th day of **March 2026**.

Jeanne L Welter
Jeanne Welter, Systems Technician

This notice was mailed to political subdivisions, property owners within 300 feet of the subject property, and the media on **Tuesday, March 17, 2026**.

NOTICE IS HERBY GIVEN that the Bonner County Zoning Commission will hold a public hearing at **5:30 pm on Thursday, April 23, 2026**, in the Bonner County Administration Building, 1500 Highway 2, Sandpoint, Idaho, by Zoom teleconference, and YouTube Livestream to consider the following requests:

File V0003-26 – Variance – Shoreline Setback: The applicant is requesting a Variance to the shoreline standards to allow for a 0-foot shoreline setback, where 40 feet is required, for an existing accessory structure. The 20-acre property is zoned Agricultural/Forestry 20 (A/F-20). The project is located off Raven Ridge in Section 27, Township 59 North, Range 1 East, Boise-Meridian.

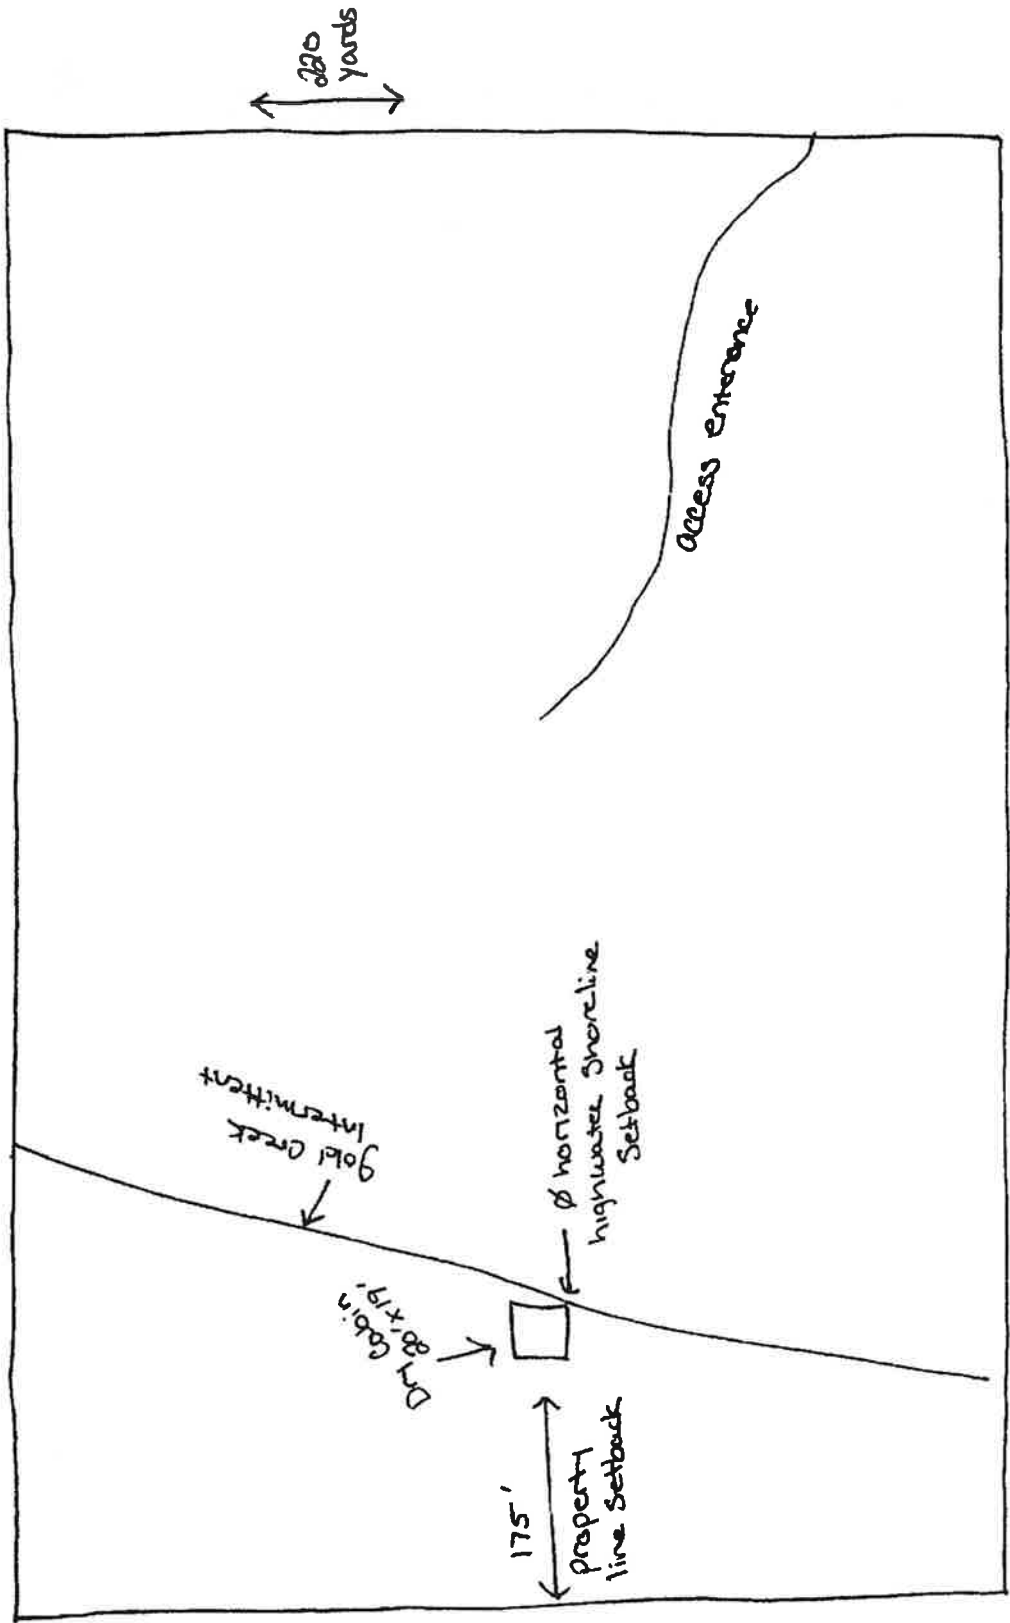

For details regarding this application, Zoom teleconference, or YouTube livestream, visit the Planning Department web site at www.bonnercountyid.gov/departments/Planning. Staff reports are available online or may be viewed at the planning department approximately a week before the scheduled hearing.

Written statements must be submitted to the planning department record no later than seven (7) days prior to the public hearing. Written statements not exceeding one standard letter sized, single spaced page may be submitted at the public hearing. Statements can be sent to the Bonner County Planning Department at 1500 Highway 2, Suite 208, Sandpoint, Idaho 83864; faxed to 866-537-4935 or e-mailed to planning@bonnercountyid.gov. The referenced start time stated above reflects the beginning of the hearing. Specific file start time and hearing duration vary.

During the hearing for this application, the public will be given an opportunity to provide testimony and/or evidence regarding how the proposal does or does not comply with the applicable approval criteria of the Bonner County Revised Code. At the close of the public hearing, the governing body will make a decision on the application that may include, but is not limited to, approval, denial, remand, or continuance of the public hearing. Any person needing special accommodations to participate in the public hearing should contact the Bonner County Planning Department at (208) 265-1458 at least 48 hours prior to the scheduled hearing.

If you have no comment or response, you may indicate below and return this form to the Planning Department.

RE: File V0003-26 – Variance – Shoreline Setback

Bonner County Planning Department,

The Panhandle Health District (PHD) does not have a comment regarding the Shoreline Setback Variance, however, PHD would like to remind the applicant and the County that a dwelling that is plumbed or any structure that produces any wastewater must have a valid Septic Permit and an approved installed Septic System.

Per IDAPA 58.01.03.001.03, Every owner of real property is jointly and individually responsible for:

- i. Storing, treating, and disposing of blackwaste and wastewater generated on that property.
- ii. Connecting all plumbing fixtures on that property that discharge wastewaters to an approved wastewater system or facility.
- iii. Obtaining necessary permits and approvals for installation of individual or subsurface blackwaste and wastewater disposal systems.

Thank you,

Tim French | Registered Environmental Health Specialist
