Application filed: January 21, 2026

Notice provided: Mail: February 5, 2026

Date of Report: March 17, 2026

Appendix: Appendix A – Notice of Public Hearing Record of Mailing
Appendix B – Agency Comments

This application has been reviewed against the standards for a variance in Bonner County Revised Code 12-234 and it has been determined that the request has met the criteria based on the findings of fact and conclusion of law. The referenced application is hereby administratively **approved** per the review below.

Site Plan

Project summary:

The applicants are requesting a 39.35% lot coverage where a maximum of 35% is allowed for the purpose of constructing an addition to a single-family dwelling. The property is zoned Recreation. The project is located off Alpenrose Lane in Section 36, Township 58 North, Range 01 West, Boise-Meridian. The project is within the service areas of North Side Fire District and Lake Pend Oreille School District #84.

Applicable laws:

The following sections of BCRC, Title 12, apply to this project:

- BCRC 12-232, General Provisions
- BCRC 12-233, Application, contents
- BCRC 12-234, Variance, standards for review of applications

BCRC 12-238, Administrative variances
BCRC 12-400, et seq., Development standards
BCRC 12-713, Impervious Surface Standards Near Water
BCRC 12-7.2, et seq., Grading/erosion/stormwater management
BCRC 12-800 et seq., Definitions

Background:

A. Site data:

Land Use: Residential
Platted
Size: 0.429-acres
Zoning Designation: Recreation
Comp Plan Designation: Resort Community (0-2.5 AC)

B. Access:

Alpenrose Lane, a privately owned and privately maintained right-of-way.

C. Environmental factors:

Site does not contain mapped slopes. (USGS)
Site does not contain mapped wetlands. (USFWS)
Site does contain frontage on an unnamed Lake/Pond.
Parcel is within SFHA Zone X and Shaded Zone X per FIRM Panel Number 16017C0735E, Effective Date 11/18/2009.

D. Services:

- Water: Community System
- Sewage: Community System
- Fire: North Side Fire District
- School District: Lake Pend Oreille School District #84

BCRC 12-232, General Provisions

The applicant is requesting a deviation for impervious surface coverage. This request is in accord with this section.

BCRC 12-233, Application, contents

In accordance with BCRC 12-233, the applicant submitted all the required documents and the application was deemed complete on February 3, 2026.

BCRC 12-238, Administrative Variances

In accordance with BCRC 12-238, the applicant is seeking a 12.4% variance to the impervious surface coverage on the subject property.

BCRC 12-234, Variance, standards for review of applications

- (a) **Conditions apply to the property that do not apply generally to other properties in the same zone or vicinity, which conditions are a result of lot**

size, shape, topography, or other circumstances over which the applicant has no control.

Applicant: "The subject 'flag' type lot is unique to the development and not conventional. Due to the narrow approach, the driveway is longer than all others in the development. The new driveway proposed will change the driveway configuration, to a more 'direct' approach to the existing garage, however (due to the longer approach) the asphalt driveway length remains (disproportionally) a large percentage of the coverage as opposed to other lots in the development. The existing layout of the structure (towards the Northerly end of the lot) was the only solution to building the home in 2008.

Staff: Based on GIS information and the submitted site plan, approximately 93% of the subject lot is located within 200ft of the highwater mark of two ponds. Due to the unique shape of the lot, being narrow closer to the roadside, the driveway needs to be longer, therefore taking up more of the allotted impervious surface coverage. The applicant has no control over the shape of the lot.

The subject lot contains almost no mapped slopes, no wetlands, and is within SFHA Zone X and Shaded Zone X. There does not appear to be any environmental conditions that would require this variance.

(b) Special conditions and circumstances do not result from the actions of the applicant.

Applicant: "Applicant purchased the existing (2008) residence in 2024. The existing lot coverage is 34.89%, Applicant is adding approx.. 1,000 SF of additional living space to the existing structure. The proposed total coverage is 39.35% which is within the 20% allowable coverage of 42% (with the requested administrative variance). The proposed improvements will not exceed 42% of the lot coverage. Refer to proposed area summary on site plan (exhibit A)."

Staff: The applicant acquired the subject property via Warranty Deed, Instrument #1029981, on January 31st, 2024. The subject lot was created via 'A Replat of Golden Tee Estates and Golden Tee Estates 1st Addition and Unplatted Land', Book 8, Page 77 Bonner County Records in 2006. There is no evidence showing that the applicant has changed the lot size, shape, or topography since obtaining it. Per Assessor data the original home was constructed in 2008. The applicant had no control over the creation of the lot or the original home that was constructed.

(c) The granting of the variance is not in conflict with the public interest in that it will not be detrimental to the public health, safety, or welfare, or materially injurious to properties or improvements in the vicinity of the subject parcel or lot.

Applicant: "Other than the driveway reconfiguration and minor landscape improvements, the proposed addition will not be visible from Idaho Club Drive, Alpenrose Lane, or the two neighboring properties directly to the East and West. The proposed improvements meet The Idaho Club (TIC) design review guidelines. The proposed addition meets all Bonner County zoning and setback requirements".

Staff: No agency or public comments were received suggesting that the proposal would be detrimental to the public health, safety, or welfare, or materially injurious to properties or improvements in the vicinity of the subject parcel or lot.

BCRC 12-713, Impervious surface standards near water

In accordance with BCRC 12-713, the subject property has 17,344 sqft of land within 200 feet of the shoreland. The maximum impervious surface coverage would therefore be 6,070.4 sqft. Additionally, per the submitted site plan existing structures are located within 75' from the shoreline and the subject property therefore does not qualify for the 50% total impervious surface coverage.

BCRC 12-7.2, et seq., Grading/erosion/stormwater management

Grading/Erosion/Stormwater Management concerns will be addressed during the Building Location Permit phase in accordance with BCRC 12-720. No further review is required for this project.

Agency Review

Agencies were notified of this project on February 5, 2026. A full list of the agencies notified can be found in the attached Appendix A. Agency comments can be found in Appendix B.

The following agencies commented:

At the time this Staff Report was prepared, no agency comments were received.

The following agencies replied "No Comment":

Idaho Transportation Department
Kootenai-Ponderay Sewer District
Idaho Department of Water Resources
Idaho Department of Fish and Game
Idaho Department of Environmental Quality
Panhandle Health District

All other agencies did not reply.

Public Notice & Comments

At the time this Staff Report was prepared, no public comments have been received.

Staff Review Summary:

Approximately 93% of the lot is within 200 feet of two ponds. Due to the narrow shape of the lot, a longer driveway is required, taking up a large portion of the maximum impervious surface coverage allowed for the subject property.

The property has minimal environmental constraints (no wetlands, minimal slopes, and located in SFHA Zone X and Shaded Zone X). The lot was created in 2006 and according to the Assessor data the home was constructed in 2008. Since the current owners acquired the property in 2024, they had no control over the original lot creation or home construction.

No agency or public comments indicated any negative impacts to public health, safety, welfare, or nearby properties.

Conditions of approval:

1. Only the development highlighted on the site plan has been reviewed for variance standards. All other development shown must comply with Bonner County Revised Code.
2. This variance shall not supersede any deed restrictions.
3. A Building Location Permit is required for the highlighted development.
4. Complete the Shore Land Development Standards worksheet and submit with the Building Location Permit.

NOTE: Any determination made by the Planning Director in the administration of the provisions of this title may be appealed to the Board by paying the required fee and notifying the Planning Director in writing of the intent to appeal within ten (10) working days from the date of the determination. Within ten (10) working of receipt of an appeal, the Planning Director shall schedule a meeting with the Board to hear the appeal and shall provide written notice to the appellant of the time and place of the meeting. The Planning Director and appellant shall be provided an opportunity to present the relevant issues to the Board at that meeting. The appellant bears the burden of proof and may be responsible for costs incurred for producing such proof, including engineering or surveying documents for other evidence. The Board's decision shall be final, and further recourse of the appellant shall be as provided by Idaho Code. If no appeal to the Board is filed, the Planning Director's decision shall be deemed final. (BCRC 12-261)

Following any final decision concerning a site-specific land use request, the applicant has a right to request a regulatory taking analysis pursuant to Section 67-8003, Idaho Code (Idaho Code §67-6535(3)).

Please contact this department if you have any questions.

Sincerely,

Alex Feyen, Assistant Director
