**GROUP DISCUSSION:**

Presentation from the school transportation district made by James Koehler. He gave a summary of the bus routes for the Sagle area. He stated as a general rule they try to “hub stop”, as door-to-door is almost impossible. He spoke about policies. He spoke about requirements for stops ie. turnarounds, etc. He stated as a rule of thumb they try to never require a bus to have to backup. He stated there are approximately 450 children that ride the bus. He stated there are safety busing zones in place within a mile and half from the schools that allow for bus riders within this radius. He stated that a special needs route requires door-to-door service. In response to a question from Fred Arn, he stated a standard added to new subdivisions might be a good idea to facilitate in determining if a route change may be needed. He stated there are no stops on private roads. He stated two stops need to be fixed. One is at Tower Road and the other is on Falcon Way. He further stated making a left hand turn on Sagle road is going to be difficult once the new highway goes in. He stated, in response to a question from Mark Linscott, development in the Sagle area will not cause an adverse fiscal impact to the school district. Another problem area is Lakeshore at the bridge.

The group discussed the School Facilities and Transportation element. They worked on the language for the Objective, Goals and Policies.

Fred Arn moved to adopt the County Comp Plan Chapter 3 Objectives and Policies page 12 changing the word County to Sagle. S. Joe Wilson seconded the motion. Voted upon and the motion passed.
