

Dear Bonner County Resident,

Enclosed are your annual **Solid Waste Stickers**, which are required for access to Bonner County Solid Waste collection sites. Please take a few minutes to read the important updates and reminders below to help keep our community clean, efficient, and compliant. There are **no extra or replacement stickers issued** except in cases of verified windshield damage or vehicle accidents or purchase of an additional solid waste fee. Please contact our office in those cases. *Stickers must be presented at the site or disposal fees will apply.*

Landlords, please supply your tenants with their stickers otherwise they will have to pay to utilize the sites.

Having a solid waste sticker allows you to dump up to 3 yards of household trash per day. Household trash includes everyday items such as:

- Food scraps
- Packaging
- Clothing
- Paper
- Yard waste
- Glass and plastics
- Bulkier items like old furniture and mattresses
- Household Hazardous Waste (HHW)
 - Batteries
 - Cleaning products
 - Solvents
 - Paint

Items that do not qualify as household trash although they may come from your home such as construction and demolition materials, tires, or other general items, will be charged according to the fee schedule.

We know these changes may feel significant, but they are needed to ensure fairness in how fees are assessed. Rather than raising rates across the board, these updates focus on ensuring that customers who bring non-household or excessive waste cover the appropriate costs. This approach helps us manage expenses while keeping the base fees affordable for the majority of customers.

We appreciate your understanding and cooperation as we implement these necessary updates.

SOLID WASTE

HELPFUL HINTS

- Place your sticker at the bottom driver side of your windshield
- Only place wood and yard debris in the wood pile/wood boxes (no sod, bags or trash)
- Only place metal items in the metal piles/boxes
- Remove all batteries, and ignitors
- Propane tanks must have the valve removed
- Concrete can only be accepted at Colburn, Idaho Hill and the Dickensheet sites with no protruding rebar or posts
- Please flatten cardboard
- Stumps smaller than 4 ft in diameter are accepted but must have all dirt and rocks removed
- Keep brush, metal and trash separated in your load to make it easier to unload

SAFETY TIPS:

Please drive 10 mph or less in the site.
Check in at the site office.
Please keep children and pets in your vehicle.
Stay within 6 feet of your vehicle.
Follow site attendant directions.
Do not loiter.
