Presented by:

Bonner County Noxious Weeds

In cooperation with the University of Idaho

Wednesday, May 3, 2023

8:00 am – 12:00 pm

(Check-in begins at 8:00, presentations begin at 8:30)

Sandpoint Organic Agriculture Center

Wickson Conference Hall (2nd floor)

10881 N. Boyer Rd.

Sandpoint, ID 83864

3 Recertification Credits (anticipated)

Agenda

8:00 – Registration, Check-In, Welcome

8:30-9:30 – Weed Control in Range & Pastures

Management of stubborn annual & perennial invasive weeds in range & pasture settings will be the focus of this presentation. New chemistries and the old favorites from various manufacturers will be presented along with adjuvant options/updates.

Presented by: Joel Fields, Wilbur-Ellis VM Specialist

9:45-10:45 – Noxious Weed & Invasive Vegetation Management in Forest Environments

Discussion surrounding why weed management is important to forest managers & why landowners in forest environments should address weed management. This will cover noxious weeds and invasive vegetation in forested environments, herbicide labels for forestry use sites, how foresters approach weed management and tips for accomplishing weed management goals cooperatively.

Presented by: Carol Randall, USFS Invasive Plants Manager

11:00-12:00 – Aquatic Vegetation Management

This presentation will cover herbicide & algaecide chemistries currently registered for use in aquatic & riparian environments in the State of Idaho. Basic identification of commonly encountered aquatic & riparian weeds will be discussed. Overall management strategies for applicators will tie the presentation together.

Presented by: Andrew Z. Skibo, PhD-CLM, Amaruq Environmental Services President

Continuing Education for License Holders

Continuing education is required for individuals who are licensed pesticide applicators in the state of Idaho to ensure they maintain competence and keep current with industry changes. The licensing period in Idaho is 2 years.

Private Applicators are required to obtain continuing education units totaling 6 credit hours during the licensing period.

Professional Applicators are required to obtain continuing education units totaling 15 credit hours during the licensing period.

*The CEU information will be tabulated by a UI Extension agent at the conclusion of the seminar. *Physical stickers are no longer issued.* Contact the Idaho State Department of Agriculture for additional information related to licensing and credits.*

Phone: 208-332-8600

Email: pesticidelicensing@isda.idaho.gov
