Sprayer Rentals

Bonner County rents out custom herbicide application equipment at a rate of \$30 per day plus a refundable \$50 deposit. These sprayers come equipped with two individually operated boomless nozzles that apply a swath width of 10' each, approximately 60' of hose with an attached spray gun, and a 150 gallon – 200 gallon capacity tank (depending on which site you rent from). Filled to capacity, they are calibrated to treat 5 acres traveling at 3-4 MPH. The pumps are powered by a gasoline engine, and the trailers attach via pin hitch (requiring a stinger without a ball mounted on it). They are available to rent on a reservation basis during the months of May, June, July, & August at the following solid waste sites: **Upland** 208-265-2528, **Dufort** 208-265-0978, **Blanchard** 208-623-3591, **Clark Fork** 208-266-0196 and **Careywood** 208-683-1250. They may be available by special appointment during the months of September & October directly from the Noxious Weeds Department 208-255-5681 ext.6. During the summer months, the solid waste sites simply handle the check-in/check-out process so that we can more conveniently serve a larger geographic area of the county. Contact the Noxious Weeds Department for technical questions related to the equipment, herbicides and/or target weeds.
