## 2019 Weeds Seminar

Presented by:

**Bonner County Noxious Weeds**

and

**University of Idaho Extension – Bonner County**

**Thursday, April 18, 2019**

**8:00 am – 12:00 pm**

4205 N. Boyer Avenue  
Sandpoint, Idaho  
UI Extension Office

**3 Recertification Credits (anticipated)**

## Agenda

### **8:00 – Registration, Check-In, Welcome**

### **8:30-9:30 – Herbicide Application Equipment and High Priority Weeds in Bonner County**

Part A: Application equipment used to apply herbicides; small, medium & large apparatuses, common pumps & nozzles, as well as calibration basics will be covered. Part B: High priority noxious weeds as part of the scope of Bonner County's program will be presented with identification of each, as well as resources that the County has available to assist its residents.

*Presented by Chase Youngdahl, Bonner County*

### **9:45-10:45 – Difficult to Kill Annuals and Pasture Weed Control**

Stubborn summer annual weeds & grasses as well as control of weeds in range & pasture situations will be covered, along with Nufarm's portfolio of herbicides for these applications.

*Presented by Jon Storr, Nufarm*

### **11:00-12:00 – Herbicide Use and Breakdown in the Riparian Environment**

This presentation will review, comprehensively, the entirety of today's currently available toolbox of US EPA chemistries registered for use in the aquatic & riparian environment. Considerations in chemistry selection, environmental impacts on individual chemistries will be discussed. Species of concern will be covered as will numerous resistance management strategies & techniques in aquatic & riparian invasive plants control.

*Presented by Andrew Z. Skibo, PhD, Alligare*

## Recertification Training

Recertification is a program for all individuals who are certified as a private or professional applicator to insure they maintain competence and keep current with changing technology. The recertification period is concurrent with the licensing period (2 years).

**Private Applicators** are required to obtain stickers totaling 6 credit hours during the licensing period.

**Professional Applicators** are required to obtain stickers totaling 15 credit hours during the licensing period.

\*The stickers are issued by the seminar sponsor after attending the workshops.

Additionally, all licensees are encouraged to maintain a list of the dates and locations of the recertification seminars they attend. Forms for tracking are available through the Idaho State Department of Agriculture at 208-332-8500 or [info@isda.idaho.gov](mailto:info@isda.idaho.gov)

\*\*Persons with disabilities who require alternate means for communication of program information or reasonable accommodations need to contact the University of Idaho Extension Office at 208-263-8511 at least one week prior to the event.
