Commissioner Korn called the meeting to order at 10:00 a.m.

Jeff Lindsey summarized the proposed budget. He discussed their proposed income, property tax revenue, contract payments, etc. Next year they will upgrade some vehicles, and he talked about that expense. Total supplies are \$156,000. There is \$10,000 in their tort line. Maintenance and repairs have been very expensive, but Jeff said he hopes the updated vehicles will help that.

Commissioner Domke said the resolution has a line regarding new construction. He asked what that was for. Jeff said he just used the same resolution format as the past few years. Commissioner Domke said they may need to look more into that. Jeff said this was from the L2, and if it was listed like that there, it was listed like that in the resolution. Commissioner Williams asked if they are anticipating new construction, or if this is incorrectly labeled.

Jeff clarified that this is incoming tax that the district is getting from new construction in the county. He realized it sounds like the district is doing new construction, but they are not. This is tax earned from other projects in the county. Discussion followed on how to word this better in the resolution. Jeff said this verbiage has been approved by legal. Commissioner Domke said if it was approved by legal, he can accept it, although he does not like it. The board asked that that language be changed for next year.

Jeff read the Resolution into the motion.
